

the spacious

Translate

Unobstructed

Angled, low profile frames complemented with frosted dividers give Translate it's modern and open feel, with a hidden understructure providing the stability of any heavy paneled table. The Translate Collection offers free standing tables as well as a modular desking system with built-in power/data options and integrated wire management solutions.

Modular

Whether you choose a straight, pod or arc-shaped unit for your desired setup, Translate will allow for optimum use of space for individual work stations and collaborative spaces by eliminating unnecessary support structures without compromising it's stability.

4A arc starter, arc end (6-person)
4B pod starter, pod end (12-person)
5A pod island (3-person)
5B straight island (4-person)
5C arc island (3-person)
SURFACE powder coat (refuge)

Shared Spaces

Translate's desking system gives the opportunity to provide the optimum set-up for your space requirements. The combination of a pod starter and a fish end with integrated DropShare technology offers individual workspaces as well as an area for collaboration in one modular set-up.
