### **TECHNICAL SPECIFICATIONS**

#### General Information

Likha high-design laminate casegoods create a stylish environment for any workspace. Warm wood grain offers a classic, timeless appeal with the ability to combine metal accents for a uniquely styled workspace. The Likha line includes fixed- and adjustable-height desks, bridges, returns, credenzas, storage, bookcases, and conference room elements.

#### Construction

Likha Casegoods feature a TFL chassis with a choice of either thermally-fused laminate (TFL) or high-pressure laminate (HPL) top. Units ship assembled unless otherwise noted.

Exposed surfaces are wood grain or solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

#### Tops

Worksurfaces are I" thick TFL or HPL material with 3 mm matching PVC rims on profiled edges, and I mm PVC rims on self-edges. Grain direction runs left to right unless otherwise noted.

#### Chassis

TFL chassis are fastened by screws and heavy-duty metal fasteners, assuring maximum strength. All desks, non-lateral credenzas, and return units have wire management access from pedestal to kneespace. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

#### Drawers

Drawers feature 5-sided construction, allowing for easy removal of drawer fronts. Drawer fronts are 3-ply construction,  $^3/_4$ " thick with matched grain. Drawer sides, back, and front are wood grain vinyl-wrapped,  $^1/_2$ " thick. Box and file drawers have  $^1/_8$ " thick hardboard bottoms, while lateral file drawers feature  $^1/_4$ " thick bottoms. All drawers feature full extension, progressive-action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 200 lb capacity.

#### Filing

All file drawers are standard with filing systems, designed to accommodate a variety of filing requirements. Letter-width file drawers provide letter filing front-to-back, and legal filing side-to-side. Lateral file draws provide legal or letter filing front-to-back or side-to-side.

#### Storage

All hinged doors include soft close hinges, unless noted. Constructed of a one-piece hinge and base plate combination. Soft close hinges reduce stress placed on the cabinet when the door is closed and offers a quiet closure. Storage with hinged doors are available with laminate, dry-erase and high-gloss acrylic.

#### **Pull Options**

Storage with drawers or filing drawers are available with one of five pull options: alcove  $5^{7}/_{8}$ ", arc 5", beam  $10^{1}/_{4}$ ", flair  $5^{3}/_{8}$ ", and quadra 4". Lock core will match silver or black pull color (if applicable, otherwise specify).

### Locking

All units with file drawers feature a locking mechanism. Removable lock cylinders allow for units to be re-keyed at a later date, if required. Units are shipped randomly keyed as standard. Keyed alike units are offered at no additional charge and should be specified prior to order submittal. Lock core will match silver or black pull color (if applicable, otherwise specify).

### **TECHNICAL SPECIFICATIONS**

### Cable Management

Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace, allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets in back panels. Grommets are also standard in the tops of corner units and extended corner units. Standard grommets are round with a 60.4 mm diameter. Grommets will be black or silver based on pull color selected; for units without pulls, specify black or silver.

#### Adjustable-Height Cable Management

Adjustable-height single & double pedestal desks, bridges and credenzas are available with a mesh wire management sleeve or box cable manager.

#### Mesh Cable Management

Mesh wire management sleeve with round worksurface grommet with a 60.4 mm diameter.

#### Box Cable Management

Rectangular worksurface cutout to accept duo bezel grommet. Cutout size is  $154.6 \text{ mm} \times 55.8 \text{ mm}$ .

#### Link 360 Cable Management

Includes fifty sections, one quad connector, one dumbell connector, one foot assembly and two magnetic clips. For use on adjustable-height units up to 5 I " tall or fixed tables/desks.

#### Adjustable-Height Mechanisms

Electric-powered adjustable-height mechanisms are offered on select units, come factory installed and must be specified at the time of order. Optional center drawer not available on double pedestal adjustable-height mechanisms. Adjustable-height units come with a standard switch, the memory switch is an option upcharge.

### Memory Switch

Memory switch (MSWCH) is an option upcharge offering Bluetooth capability, three stand-up reminder intervals, and four memory height positions.

### Media Peninsula

Media peninsula consists of either an anodized aluminum rectangular leg, or arctic silver finish on steel leg. Screen mount may be adjusted by setting rotation limits at 15°, 30°, 45° or 90°. Fits most screen sizes 32"-52"; mounting pattern range: VESA® 100 x 100 mm - 600 x 400 mm with a monitor weight capacity of 125 lb.

### Visual Board

Intended for wall installation, includes flip chart, dry-erase markers with eraser and hardware. Tackboard is standard in black fabric. Display rail includes adjustable hooks for flip chart. Writing surface is dry-erase non-glare magnetic porcelain. Optional projection screen adjusts to reveal the dry erase surface.

#### Freestanding Tables & Bases

Disk-bases available in aluminum or black. X-base available in aluminum only.

### **HOW TO ORDER**

Indicate the following information on order form:

- 1. Quantity of each item.
- 2. Model number, including options. See "How To Build a Model Number".
- 3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- ullet The absence of the  $\square$  indicates that no choice is required.
- ullet Alpha-numeric characters in place of  $\Box$ indicate that no other alternatives are available.

## HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- 2. Model number, including options. See "How To Build a Model Number".
- 3. Any special service required.

Note:  $\bullet$  The  $\square$  indicates that a choice is required.

- $\bullet$  The absence of the  $\square$  indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

#### HOW TO BUILD A MODEL NUMBER

- A Select basic model.
- **B**Select worksurface option.
- TFL Thermally fused laminate
- HPL High pressure laminate

  Select modesty option.
- NMVMD No moving modesty

  MVMD Moving modesty; add \$206
- Select control switch.
- SWCH Standard switch

  MSWCH Memory switch; add \$126
- Select worksurface laminate color.

  Refer to the **Product Color Options** page in this price list.
- Select base laminate color.

  Refer to the **Product Color Options** page in this
- GSelect edge style.

- Y Flat edge
  - Select worksurface grommet option.
    - NGRM No grommet
    - **GWS** Grommet with mesh wire management sleeve; add \$121
    - **GDUO** Box with rectangular worksurface cutout to accept Duo bezel, specified separately; add \$457
  - **GBOX** Box with center round worksurface grommet; add \$457
- Select grommet location.
  - CGC Cutout/grommet center GWS locations are noted above. GRDUO and GMTBOX are located in the center but do not require a location selection.
- Select grommet color.
- Refer to the **Product Color Options** page in this price list

## **HOW TO ORDER**

Indicate the following information on order form:

- 1. Quantity of each item.
- 2. Model number, including options. See "How To Build a Model Number".
- 3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- ullet The absence of the  $\square$  indicates that no choice is required.
- ullet Alpha-numeric characters in place of  $\Box$ indicate that no other alternatives are available.

## HOW TO BUILD A MODEL NUMBER

- A Select basic model.
- **B**Select worksurface option.
- TFL Thermally fused laminate
- HPL High pressure laminate
- Select control switch.

SWCH - Standard switch MSWCH - Memory switch; add \$126

- Select worksurface laminate color. Refer to the **Product Color Options** page in this price list.
- Select base laminate color. Refer to the **Product Color Options** page in this price list.
- Select edge style.
- Y Flat edge

**G**Select worksurface grommet option. NGRM - No grommet

**GWS** - Grommet with mesh wire management sleeve; add \$121

GDUO - Box with rectangular worksurface

cutout to accept Duo bezel, specified sepa-

GBOX - Box with center round worksur-

face grommet; add \$457

Select grommet location.

**CKS** - Grommet centered between height-adjustable legs

GWS locations are noted above. GRDUO and GMTBOX are located in the center but do not require a location selection.

Select back panel grommet.

NBGRM - No back grommet

BGRM - Back grommet; add \$63

Select grommet color.

Refer to the **Product Color Options** page in this price list.

#### **HOW TO ORDER**

Indicate the following information on order form:

- 1. Quantity of each item.
- 2. Model number, including options. See "How To Build a Model Number".
- 3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- ullet The absence of the  $\square$  indicates that no choice is required.
- ullet Alpha-numeric characters in place of  $\Box$ indicate that no other alternatives are available.

#### HOW TO BUILD A MODEL NUMBER

A Select basic model.

**B**Select worksurface option. TFL - Thermally fused laminate

HPL - High pressure laminate

©Select laminate color.

Refer to the **Product Color Options** page in this

OSelect edge style.

Y - Flat edge

Select worksurface grommet option.

NGRM - No grommet GL - Grommet left; add \$61
GR - Grommet right; add \$61 GC - Grommet center; add \$61 GLR - Grommet left and right; add \$120

18" wide models accommodate center grommet or no grommet only.

Select grommet color.

Refer to the **Product Color Options** page in

this price list.
