## Feature Strips

*Tip: Feature strips are 121" long and are cut to size in the field. They are required when joining door frames to other components.*

*Tip: Half feature strips are used in combination with in-line feature strips for inside corner applications.*

*Tip: Painted feature strips are designed for use with other Lite Scale Glass Selection painted components.*

| Standard Includes                                                                                                                                                | Required to Specify                                                                                                                                                                                            |

# Single Reversible Swing Door Frame

Tip: When the black finish is specified, the strike plate will default to the satin chrome finish.

Tip: The roller latch plate is not available in 9201 Polished Chrome, therefore, 9200 Satin Chrome will be defaulted when the hardware finish selected is either 9201 Polished Chrome or 9200 Satin Chrome.

Tip: Finishes for door hardware can vary slightly from one component to another depending on base metal materiality and finishing processes. When hardware is specified for common assemblies, all hardware components may not match exactly, but are designed to be compatible within a common door opening.

Tip: Electrification option is only available when cylindrical or mortise latch prep is selected. Electrification is not available when push/pull or ladder pull handles are selected.

# Single Reversible Polished Edge Swing Door Leaf

Tip: Glass orientation applies only when 6542 Satin is specified.

Tip: The roller latch housing is not available in 9201 Polished Chrome, therefore, 9200 Satin Chrome will be defaulted when the hardware finish selected is either 9201 Polished Chrome or 9200 Satin Chrome.

Tip: Finishes for door hardware can vary slightly from one component to another depending on base metal materiality and finishing processes. When hardware is specified for common assemblies, all hardware components may not match exactly, but are designed to be compatible within a common door opening.

| <b>FELFSWPR</b>           | \$4399.46       | +\$2.17                      | +\$80.83                                     | +\$455.02 (for solid door)<br>+\$880.48 (for polished edge door)       |

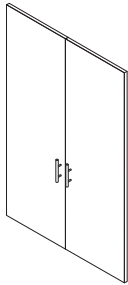

Tip: Polished edge door type must have both hands active.

Tip: When the black finish is specified, the strike plate will default to the satin chrome finish.

Tip: The roller latch plate is not available in 9201 Polished Chrome, therefore, 9200 Satin Chrome will be defaulted when the hardware finish selected is either 9201 Polished Chrome or 9200 Satin Chrome.

Tip: Finishes for door hardware can vary slightly from one component to another depending on base metal materiality and finishing processes. When hardware is specified for common assemblies, all hardware components may not match exactly, but are designed to be compatible within a common door opening.

# Pair of Reversible Solid Swing Door Leaves

Tip: Acoustic seal is available only when both hands active.

# Pair of Reversible Polished Edge Swing Door Leaves

Pair of Reversible Polished  
Edge Swing Door Leaves

Tip: Glass orientation  
applies only when 6542  
Satin is specified.

Tip: Finishes for door hardware can vary slightly from one component to another depending on base metal materiality and finishing processes. When hardware is specified for common assemblies, all hardware components may not match exactly, but are designed to be compatible within a common door opening.

| Standard Includes                                                                                                                                                                                                                                                               | Required to Specify                                                                                                                                                                                                       |

*Tip: Glass Selections Lite Scale glazing slider door frame and door leaves are ordered separately.*

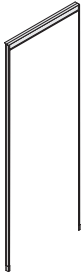

*Tip: When specified without drop seal (no seal), the door guide can be specified in either satin chrome or black. When specified with drop seal, the door guide will automatically be finished to match the drop seal and base selection.*

*Tip: Standard widths are 40", 42", or 48". Non-standard widths are available in one-inch increments.*

A diagram of a rectangular panel, likely a door or a large window, shown at an angle. The panel has diagonal hatching lines across its center. It is mounted on a wall with two visible screws or bolts at the top corners. A small rectangular detail is visible on the right edge.

# Glass Selections Full-Height Polished Edge Slider Frame

Tip: Glass Selections Lite Scale slider door frame and door leaves are ordered separately.

Tip: Finishes for door hardware can vary slightly from one component to another depending on base metal materiality and finishing processes. When hardware is specified for common assemblies, all hardware components may not match exactly, but are designed to be compatible within a common door opening.

Tip: Standard widths are 40", 42", or 48". Non-standard widths are available in one-inch increments.

| Standard Includes                                                                                                                                                                                                                                                                                               | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

# Glass Selections Full-Height Butt-Hinged Door Frame

Tip: 42" wide door frame has maximum height 108 1/4".

Tip: When specifying Lite Scale butt hinges, doors that are less than 7'4" in ceiling height require only three hinges.

Tip: As an alternative to a frame with switch cutout, you can position a low-voltage switch in an in-line feature strip adjacent to the door frame.

| Standard Includes                                                                                                                                                                                                                                                                                                              | Required to Specify                                                                                                                                                                                                                                                                                                     |

# Glass Selections Full-Height Butt-Hinged Door Leaf

Glass Selections  
Full-Height Butt-Hinged  
Door Leaf

Tip: 42" wide door frame has maximum height 108 1/4".

Tip: When specifying Lite Scale butt hinges, doors that are less than 7'4" in ceiling height require only three hinges.

Tip: Drop seal must be ordered separately.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                           | Required to Specify                                                                                                                                                                                                                                                                                                                                     |

# Glass Selections Full-Height Butt-Hinged Solid Door Leaf

Tip: 42" wide door frame has maximum height 108 1/4".

Tip: When specifying doors that are less than 87" in ceiling height require only three hinges. Doors 87" and higher will require four hinges.

Tip: When push/pull and ladder pulls are specified, a roller latch must be selected

Tip: Stanchion upcharges are only applied if latch prep selection is custom pull.

## Mortise Latch Set

*Tip: When using mortise latch sets, once a wood door or a glass door lock housing has been face drilled, it will not be reversible.*

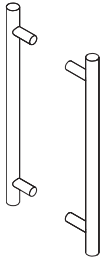

*Tip: When the black finish is specified on latch sets, the strike plate will default to the satin chrome finish.*

| Standard Includes                                                                         |                             | Required to Specify                                                                                                                               |                                         |

## Mortise Latch Set for Use with Everwall Doors

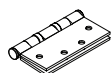

*Tip: When using mortise latch sets, once a wood door or a glass door lock housing has been face drilled, it will not be reversible.*

*Tip: When the black finish is specified on latch sets, the strike plate will default to the satin chrome finish.*

Surface Materials

# Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

## Resources

For more information about surface materials, refer to the following resources:

**Additional surface material specification tools** are available to assist you in the specification process – the Surface Materials Binders.

**The global surface materials palette** is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see [steelcase.com/surface-materials](http://steelcase.com/surface-materials).

## Surface Materials Binders

- Surface Materials
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating

## Lite Scale Binder

- includes:
- Brochures
  - Swatch cards

## Paint

*Tip: All products may not be available in all colors listed below.*

### Price Group 1

#### Smooth Paint

- 4238 Mocha
- 4239 Clay
- 4240 Chalk
- 4242 Milk
- 4710 Low Gloss Black
- 4843 Linen
- 4844 Glacier
- 4849 Vapor
- 4858 Seagull

#### Textured Paint

- 7190 Platinum Solid
- 7207 Black
- 7225 Sand
- 7236 Fog
- 7237 Slate
- 7238 Fieldstone
- 7239 Midnight
- 7241 Arctic White
- 7243 Seagull
- 7278 Dark Bronze
- 7360 Merle

### Price Group 2

#### Smooth Paint

- 4700 Warm White

#### Smooth Metallic Paint

- 4743 Mineral Metallic
- 4750 Champagne Metallic
- 4798 Sterling Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic

#### Textured Metallic

- 7245 Carbon Metallic
- 7246 Midnight Metallic

## Custom Surfaces Price Group 3

### PerfectMatch

PerfectMatch is a service that allows you to create your own paint color. Refer to the *Surface Materials Reference Manual* for more information about this program.

### Accent Paint

- 1ATG Rose Quartz
- 4AV4 Baltic
- 4CL7 Sandstone
- 4CL8 Smokey Plum
- 4CZ6 Lagoon

### Lux Coatings

- 4B22 Matte Brass
- 4B23 Burnished Bronze
- 4B24 Night Bronze
- 4B25 Matte Copper
- 4B26 Smoked Mica
- 4B29 Cast Iron

**Accent Paint and Lux Coatings** are available on products that receive the metal and accessories paint finishes.

## Metal and Accessory Paint

### Steelcase Surfaces

Applies to:

- Outer junction cover
- Outer bypass junction cover
- Finished end cover and trim
- Utility panel cover
- Door frames
- Slider door leaves
- Slider door track
- Junction adapter
- Plinth trims
- Posts
- Feature strips
- Feature strip covers
- 8043 Clear Anodized Aluminum

## Plastic

### Steelcase Surfaces

Applies to:

- Ceiling track
- Post
- Seals
- 6009 Arctic White
- 6249 Platinum Solid
- 6527 Merle
- 6655 Warm White

## Glass

### Steelcase Surfaces

Applies to:

- Glass Lite Butt Glazed

### Price Group 1

- 6500 Clear Glass

### Price Group 2

- 6540 Clear Laminated

Applies to:

- Polished edge door leaves

### Price Group 1

- 6500 Clear Glass

### Price Group 3

- 6501 Low Iron Clear
- 6542 Satin
- Customer-specified glass is available.

## Plated Metal

### Steelcase Surfaces

Applies to:

- Push/pull handle
- Hinges
- Roller latch
- Lockset
- Flush bolts
- 4710 Low Gloss Black
- 8031 Brushed Stainless
- 9200 Satin Chrome
- 9201 Polished Chrome

## Select Surfaces

**For information on products within Select Surfaces**, including accent paints and fabrics from DesignTex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit [steelcase.com/surface-materials](http://steelcase.com/surface-materials) under the Select Surfaces section.

## Wood

Applies to:

- Door leaf
- Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain, and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces. When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

## Steelcase Surfaces

**Veneers** are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

**Open-pore finish** is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

**Veneer****Wood Group 1****Flat-Cut Open-Pore**

- 3062 FC/OP Graphite Walnut  
 3402 FC/OP Clear Cherry (Aged)  
 3412 FC/OP Natural Cherry **E**  
 3422 FC/OP Medium Cherry  
 3522 FC/OP Clear Maple  
 3592 FC/OP Blonde on Maple **E**  
 3702 FC/OP Clear Walnut  
 3712 FC/OP Natural Walnut  
 3752 FC/OP Medium Walnut **E**  
 3762 FC/OP Dark Walnut  
 3772 FC/OP Medium Mahogany on Walnut

**Flat-Cut Open-Pore, Natural Veneer**

- 3342 FC/OP Black Walnut  
 35A2 FC/OP Blanch Maple  
 37A2 FC/OP Thunder Walnut

**Quarter-Cut Open-Pore**

- 3042 QC/OP Ash  
 3222 QC/OP Clear Maple  
 3292 QC/OP Blonde on Maple **E**

**Quarter-Cut Open-Pore, Natural Veneer**

- 32A2 QC/OP Blanch Maple  
 33A2 QC/OP Thunder Walnut  
 3392 QC/OP Black Walnut

**Rift-Cut Open-Pore**

- 3602 RC/OP Desert Oak

**Rift-Cut Full-Fill, Natural Veneer**

- 36A2 RC/OP Volcanic Oak

**Wood Group 3****Flat-Cut Open-Pore, Natural Veneer**

- 3082 FC/OP Washed Walnut

**Wood Group 1****Open-Pore Planked Veneer**

- 3P41 OP Planked Cherry  
 3P51 OP Planked Maple  
 3P61 OP Planked Oak  
 3P71 OP Planked Walnut  
 3VFX OP Unmarked Oak  
*Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.*

**Premium Veneers**

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3, as part of our Select Surfaces program and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on [village.steelcase.com](http://village.steelcase.com) for sample information and product line availability. All premium veneers are in clear-coat.

**Wood Group 3****Quarter-Cut Open-Pore**

- 3832 QC/OP Figured Anigre

**Select Surfaces**

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit [steelcase.com/surface-materials](http://steelcase.com/surface-materials) under the Select Surfaces section.

**Composite Veneer**

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are available as Wood Group 1 pricing as part of our Select Surfaces program.

**Wood Group 1****Flat-Cut Open-Pore**

- 3JDX FC/OP Oak Composite  
 3JJX FC/OP Walnut Composite

**Quarter-Cut Open-Pore**

- 3F8X QC/OP European Walnut Composite  
 3GGX QC/OP Zebano Composite  
 3HGX QC/OP Oak Composite  
 3HVX QC/OP Walnut Composite  
 3ZNX QC/OP Night Cerused Oak Composite

**Custom Surfaces**

**Customiz stain** is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed. In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fee are not discountable. Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate. Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.
