

DESCRIPTION

LTDD (Low Temperature Dishmachine Detergent) is a highly concentrated alkaline dishwashing detergent that is designed to be used in commercial dishwashing machines. It has been specially formulated to work in all water conditions and soil levels breaking down the toughest grease, oils and stains. LTDD will leave dishes, glasses and utensils clean and free from the most stubborn food soil, grease and oils. LTDD is not to be used for manual dishwashing and should only be used in appropriate equipment.

DIRECTIONS FOR USE

Remove cap and insert chemical pickup tube from machine into container. Wash hands after handling.

STORAGE AND HANDLING

LTDD is for Industrial and Institutional use only. LTDD should be stored in a cool and dry place away from heat. Do not mix with acids. Always handle with care. Wear protective gloves and eye protection when handling. Wash hands after handling. Keep container tightly closed when not in use. Dispose contents in accordance with local, regional and federal regulations.
