MID MANAGEMENT & TASK SEATING

SUTIL

**RATED
UP TO
300 lbs.**

Features

Elastomeric gray mesh backrest
Upholstered seat
Back tilt lock
4D adjustable arms

Dimensions

Seat height/seat range	17½" - 22¼"
Seat width	19½"
Seat depth	17½" - 20"
Back width	17½"
Inside arm distance	15¾" - 19½"
1D Arm adjustment range	3¼"
Back height (above seat)	20½"
Overall height	38¾" - 43½"
Overall width	27"
Overall depth	27"

Specifications

Arms

1D arms contain toggles that allow them to be adjusted in height over a 3¼" range. 4D arms build on this adjustability in every direction. They adjust in height and width and contain arm pads that adjust independently in width, depth and pivot. The height range is 4¼"; the width range is 3½" total; the depth range is 2".

Seat

Plywood seat board with 3½" thick molded urethane foam is upholstered using a drawstring method. Optional seat depth adjustment range of 2.5.

Casters

Casters are 55 mm O.D., double-wheel high-impact thermoplastic, and are designed for use on both commercial carpet and hard floors.

Control Mechanism

A weight-activated mechanism passively adjusts backrest tilt tension based on occupant weight. The mechanism is made of stamped steel with a black plastic trim cover. One lever operates the height-adjust cylinder and a second lever allows the backrest tilt mechanism to move freely, or locks it in one of four positions.

ITHACA ULTRA STOOL

Features

Adjustable back height
Adjustable seat height
Stable on a variety of floor surfaces

Dimensions

Seat width	20.5"
Seat depth	18" - 20.5"
Back height (above seat)	19.5" - 22.5"
Overall height	22¼" - 30"

Specifications

Mechanism

An integral ratchet mechanism allows the back height of the task chair to be adjusted from a seated position.

Seat

Changes in seat depth are made possible by a lever conveniently located beneath the seat.

Locking Lever

Lock the back and seat in any of the several angles by pushing up the locking lever on the back left. To free-float, just push the lever down.

Tension Knob

A tilt tension knob means that every user can adjust the chair to respond to their reclining cues.

ULTRALITE TABLES

Specifications

For attractive, lightweight, durable tables, look no further than the UltraLite line.

Made from high density polyethylene plastic, UltraLite Folding Tables are designed to hold up to heavy-use, even in the most extreme conditions. These tables are easy-to-clean, easy-to-use, and easy-to-store, due to the innovative design of the folding legs. The 1.125" steel tubular legs fold securely into the molded tops, allowing the tables to stack flat and reducing the threat of shifting during vertical or horizontal storage.

Because they are so easy to set-up and store, UltraLite is the perfect choice for frequently reconfigured spaces like conference rooms, airport screening areas, schools and healthcare facilities. These tables and chairs are also perfect for corporate and social gatherings. Business luncheons and school functions showcase their strength, long life, and ability to repel moisture.

UltraLite tables also stack up favorably against the competition. Not only do they cost less than folding tables with wood cores or laminate surfaces, they also perform in environments that wooden tables can't, like the outdoors. Weather-resistant features make UltraLite just as durable outside as they are inside. The polyethylene tops are impervious to water and contain UV inhibitors to prevent fading and sun damage.

Black powder coating gives the steel frames a scratch-resistant, all-weather finish that won't crack, chip or peel. Multiple sizes ensure that UltraLite tables won't just go anywhere; they will accommodate everyone. The tables are available in 30" x 60", 30" x 72" and 30" x 96" rectangular tops, as well as 48", 60" and 71" round tops. All tables stand 29" tall. No matter where you are setting up, UltraLite tables are your most practical choice.

A unique lightweight design reduces set up times by making full-size tables easy to handle. UltraLite's legs snap securely into the molded tops for easy storage.

Steel crossbars are welded in place to provide maximum rigidity for table legs.

WARRANTY INFORMATION

MAGCOR INDUSTRIES

LIMITED WARRANTY

Seating Products

MAGCOR offers a limited warranty on Seating Products to be free from defects in material and workmanship from the date of delivery for the period established below depending on the category of chair use. Seating products ONLY sold by MAGCOR with material and workmanship defects will be repaired or replaced under warranty.

The warranty is subject to the provisions below:

Standard Chair Rating

Occupant weighing up to 250 lbs., general office setting in a single-shift eight (8) hour day, 5 days per week.

- Ten (10) year warranty on all non-moving metal parts, i.e. chair frame, etc.
- Five (5) year warranty on tilt mechanisms, arm and back mechanisms, pneumatic cylinders and plastic components
- Two (2) year warranty on casters and upholstery fabrics.

Heavy Duty Use of 24/7 Use Rating

Occupant weighing up to 350 lbs., 24 hours per day use, or multiple shifts in excess of 40 hours per week.

- Ten (10) year warranty on all non-moving metal parts, i.e. chair frame, etc.
- Three (3) year warranty on tilt mechanisms, arm and back mechanisms, pneumatic cylinders and plastic components.
- One (1) year warranty on casters and upholstery fabrics.

MANUFACTURER'S WARRANTY

MAGCOR will honor any existing warranty provided by the manufacturer of components and items provided by other manufacturers or vendors in fulfillment of any order.

EXCLUSIONS

This warranty does not apply and no other warranty applies if one (1) or any of the following conditions are met:

- Normal wear and tear over the course of ownership.
- Damage caused by misuse, abuse, accident or negligence.
- Damage caused in transit if being transported by anyone other than a representative of MAGCOR or component manufacturer.
- Product not assembled or used properly in accordance with product instructions.
- Abnormal use or use within extreme climatic conditions. Normal climatic conditions are defined as the temperature and moisture content prance for human comfort and health.
- Materials such as wood, fabric, leather, foam and certain plastics are subject to minor variations and irregularities of color, grain, texture: therefore are not covered under this warranty.

Warranty coverage ends when the product becomes unusable for reasons other than defects in workmanship or materials.

Failures due to misuse, abuse or normal wear and tear are not covered by this warranty. MAGCOR shall not be responsible for any incidental and consequential damages.

To assure product safety and reliability repairs, maintenance and adjustments must be performed by qualified personnel.

This limited warranty is the sole and exclusive warranty for MAGCOR. No employee, agent, dealer or other person is authorized to alter this warranty or make any other warranty on behalf of MAGCOR.

MAGCOR INDUSTRIES

LIMITED WARRANTY

Innerspring Mattress

MAGCOR offers a limited warranty on Innerspring Mattresses.

The Denier Oxford Nylon cover is warranted for one (1) year from date of delivery against any defects in material or workmanship. Warranted products will be repaired or replaced at MAGCOR option. If Nylon cover failed due to material or workmanship defects within the one (1) year period, MAGCOR will replace Nylon cover free of charge. If the claim is made after one (1) year of delivery date, MAGCOR will replace the Nylon cover for the cost of \$21.00 per mattress.

The foam and innerspring are warranted for three (3) years from the date of delivery against any defects in material or workmanship. Warranted products will be repaired or replaced at MAGCOR option. If the foam or innerspring core is determined to be damaged by MAGCOR and is therefore unusable, MAGCOR will issue a credit if it is still under the warranty period. The credit will be issued by the following guidelines:

0-1 Year	100%
1-2 Years	66%
2-3 Years	33%

EXCLUSIONS

This warranty does not apply and no other warranty applies if one (1) or any of the following conditions are met:

- Normal wear and tear over the course of ownership.
- Damage caused by misuse, abuse, accident or negligence.
- Damage caused in transit if being transported by anyone other than a representative of MAGCOR or component manufacturer.
- Modifications, alterations or attachments to the product not approved by MAGCOR or component manufacturer.
- Abnormal use or use within extreme climatic conditions. Normal climatic conditions are defined as the temperature and moisture content prance for human comfort and health.

Warranty coverage ends when the product becomes unusable for reasons other than defects in workmanship or materials.

Failures due to misuse, abuse or normal wear and tear are not covered by this warranty. MAGCOR shall not be responsible for any incidental and consequential damages.

To assure product safety and reliability repairs, maintenance and adjustments must be performed by qualified personnel.

This limited warranty is the sole and exclusive warranty for MAGCOR. No employee, agent, dealer or other person is authorized to alter this warranty or make any other warranty on behalf of MAGCOR.
