Details

All TFL and HPL surfaces are 1" thick.

3mm thick edge trim on all outer edges. Where two surfaces meet, the edge is .5mm thick.

Unless otherwise specified, edge trim will match surface color.

Frames provide 1/2" of leveling height.

How To Specify Edge Meeting Tables

There are four items to consider when specifying an Edge Table:

Table Code/ Frame Finish / Surface & Wire Base Finish / Electrical Knockout Position and Size

Please note: The Cable Tower is mandatory on larger tables. It is an option on smaller tables. Because of this, the laminate finish specified might refer to only the Worksurface or, the Cable Tower and Worksurface together.

The example below illustrates a table that is 48" x 120" long. This size of table includes a mandatory Cable Tower. Silverwood Thermofused laminate has been chosen for the Worksurface and Cable Tower finish. In this case, the B sized Electrical Module Knockout is required.

Example Edge Table Specification:

ETCD48120/ANO/SW/2B

Please Note: Electrical Modules Must Be Ordered Separately

Electrical Modules

XEM2:

ANO - Anodized

WH - White

B - Black

XECV:

Black and Silver Only

XNAC:

WH - White

B - Black

Example Edge Table Specification:

ETCD48120/**ANO**/SW/2B

↑ Anodized frame is required in this example.
If a painted frame is required add **200 List**

Example Edge Table Specification:

ETCD48120/ANO/**SW**/2B

↑ Silverwood Thermofused Laminate
is required for the Surface and Wire
Base. If HPL is required for the
surface, the code would be: **HPSW**
(Wire Base would default to TFL match)

Electrical Module Knockout Position and Size

When specifying table which requires an Electrical Module, the knockout **position** and **size** must be indicated.

As an example, **ETCD48120/ANO/SW/2B** is a 48" x 120" table with an Anodized Frame, Silverwood laminate with a knockout for a XECV in each position.

XEM2

Knockout Size Code: **A**

(Not available in Position 1)

XECV

Knockout Size Code: **B**

XNAC

Knockout Size Code: **D**

No
Knockout
Required ?

No Knockout Code: **NK**

Position 1 - Long edge of knockout parallel to surface depth.

One electrical module must be ordered separately.

Knockout Size A (for XEM2 module) not available in position 1.

The example below illustrates a 30x60 table with a D sized knockout.

Position 2 - Long edge of knockout parallel to surface width.

One electrical module must be ordered separately.

The example below illustrates a 48x96 table with a B sized knockout.

Position 3 - Two Knockouts. Long edge of knockouts parallel to surface width.

Two electrical modules must be ordered separately.

The example below illustrates a 60x120 surface with two B sized knockouts.

Example Edge Table Specification:

ETCD48120/ANO/SW/2B

A Knockout for a XECV unit is required in position 2.
