The Treo System

Overview

INLINE tr- eo® offers:

- A very extensive range of components and sizes, including tops from 24" to 84" wide in various depths.
- A multitude of tall and low storage options and accessories.
- Flexibility in laminate selection and mixing of finishes, colors and edging.
- Superior structural strength using metal-to-metal (Mod-eez®) fasteners.

Construction Details

General

- Tops, end panels and weight-bearing shelves are 1" thick with 3mm PVC edging.
- No charge option to have HPL tops made 11/16" thick; subject to minimum volume requirements.
- Doors, drawer fronts and modesty panels are 3/4" thick.
- Doors and drawer fronts are edged on all sides with 3mm PVC edging.
- Non-PVC edging available for special applications; subject to minimum volume requirements.
- All core material is 45 lb. commercial grade particle board.

Worksurfaces

- All worksurfaces are 28.5" high unless otherwise stated.
- Glides provide over 1" height adjustability (stem is 11/2" long).
- All end panels, both full and partial, are non-handed.
- Modesty panels are 3/4" thick and are reversible.
- Full modesty panels are same height as end panel.
- Partial modesty panel is 16" off floor for normal power/data access.
- Wall access modesty panels provide 20" clear access which is the new building code standard for new construction.
- End panels are flush to ends of top and modesty is flush to back, unless otherwise noted.
- Width and depth dimensions for tops are actual.
- Worksurfaces come with one grommet unless otherwise stated.
- Islands (D, P, Q and K) not intended to be used as freestanding units.

Drawers

- All drawers, including box drawers, have full extension, tempered steel, ball-bearings slides.
- All drawers on pedestals and lateral files gang-lock.
- Box and file drawers have load capacity of 100 lbs.
- Lateral file drawers have load capacity of 150 lbs.
- All lateral file drawers have steel reinforced bottoms.
- Top box drawers include a pencil tray, except in multifiles, where the box drawers are slightly narrower.
- Drawer interiors are black textured, mar-resistant finish for easy cleaning
- Floor pedestals have 1" leveling capability.

Miscellaneous

- Modesty panels use structurally superior, hidden, Mod-eez® fasteners. Most other connections use conventional cam & pin fittings.
- All locking units are keyed randomly unless specified "keyed-alike" at time of order (no up-charge).
- All units, except those with drawers, are shipped RTA (ready to assemble).
- Translucent doors on tall storage units and hutches have anodized aluminum frames with mitered joints.

Finishes

- One, two or three tone finishes available. Tops, faces and chassis can be same finish or mixed in any combination
- 16 standard Thermally Fused Laminates (TFL).
- 22 standard High Pressure Laminates (HPL) - available for worksurfaces, drawer faces and door fronts.
- INLINE thermally fused laminates meet all the performance requirements of high pressure laminate required for sales as worksurfaces under National Master Standing Offer and Supply Arrangement contracts.
- All solid and woodgrain TFL finishes come with matching edging as standard.
- All solid and woodgrain HPL finishes come with matching edging except for Ginger Root Maple.
- User has option to specify contrasting edging (eg. black edging on cherry laminate).
- Two handle styles in two handle finishes to choose from:
 - BX1 - Box Handle
 - N1 - Nickel Tear Drop
 - K1 - Black
 - N2 - Nickel Wire
 - K2 - Black Wire

(if purchase order does not specify handle selection, Black Tear Drop handles will be shipped)

- Custom HP Laminates can be used for a nominal upcharge.

Curves

- Length of curve in Curved Shells:
 - 24" deep, 20" join .20.5"
 - 30" deep, 24" join .20.5"
 - 30" deep, 20" join .27"
 - ie. for 30" deep Shell (24" Join) would need a 54" Shell to fit a 30" Lateral File .30" (lateral) + 20.5" (curve) + 1" (panel) = 51.5", closest size is 54"
- Minimum length of Curved Shells to allow for a pedestal:
 - 3 TF 3624 L20 C Z
 - 3 TF 3630 L24 C Z
 - 3 TF 4230 L20 C Z
- Minimum length Curved Shells allowing for a 30" Lateral File
 - 3 TF 5424 L20 C Z
