Pricing	61
Finishes & Materials	215

D	W	H	Model	Price
Hardwire Box				
27/8"	611/16"	31/16"	33PEHBB	\$119

Hardwire Cover Plate				
			33PEHBC	\$53

Hardwire Cover Plate for Power				
			33PEHBCP	\$58

Standard Includes

- Box or cover plate: galvanized

How to Specify

1 Model

Use standard non-powered frames and appropriately punched wireway covers.

Consult local electrical codes prior to specification.

Receptacles, conduit, wiring, and other required components to be supplied by electrician.

Cable Management

GSA Contract Pending

<i>D</i>	<i>W</i>	<i>H</i>	<i>Model</i>	<i>Description</i>	<i>Price</i>
Vertical Cable Managers					
15 ¹ / ₁₆ "	7 ⁷ / ₈ "	19 ¹ / ₄ "	33P1VCMN2	For use with standard includes-height (18 ¹¹ / ₁₆ "H) radius and square profile overheads.	\$29
		21 ⁵ / ₈ "	33P3VCMN2	For use with reduced-height (16 ¹ / ₂ "H) radius, square, bevel, flat, and curved profile overheads.	31
		23 ⁵ / ₈ "	33P5VCMN2	For use with lunar profile or flat profile sliding-door overheads.	35
For Use with Center-Mount Overheads					
15 ¹ / ₁₆ "	7 ⁷ / ₈ "	14 ¹ / ₈ "	33P3HVCMN	For center-mount overheads on 3H Narrate panels	\$36
		21"	33P50HVCMN	For center-mount overheads on 3.5H Narrate panels	37
		26 ⁵ / ₈ "	33P4HVCMN	For center-mount overheads on 4H Narrate panels	38
Data Cable Manager					
			33PDCM	Holds 24, 1/4" diameter cables. Single.	\$8

Samples:

Samples of Kimball Office materials are available upon request. Samples are to be used as guidelines only. Slight variations within commercial tolerance may occur between samples and finished products. Kimball Office carefully selects all materials used in every product, ensuring a commercially acceptable color and finish.

To order samples:

- Visit the Partner web site at www.kimballoffice.com to order materials electronically
- Contact your Kimball Office Sales Representative or the nearest Kimball Office Showroom
- For Alliance program fabrics, contact our Alliance partner directly.

Program Overview

Fabric Collection:

Our collection of fabrics offers a wide variety of materials that include both timeless classics, as well as a selection of trendy colors and patterns to keep the offering fresh and current.

The classic patterns are perfect for establishing new standard color palettes, while the trendy patterns are great for adding accents and pops of color to make a statement and to show that you are in tune with the pulse of today's fast-paced world.

The fabric collection was developed with an international flare to make it easy for global companies to standardize in all locations. It contains both standard in-line and alliance patterns. Our alliance partners are chosen with great care to give us the best selections and service in the industry.

You will find that colors were developed to coordinate very well between the in-line and alliance offerings, as well as between the seating and panel fabric offerings.

The fabric collection will provide options for the discerning client for many years to come.

Wood Collection:

Our wood finishes offer fresh options that provide natural-looking finishes to meet today's design expectations. From the lightest Brighton Maple to the darkness of Urban Walnut, these finishes were chosen with great attention to offer a complete range of color options making it simple to specify the look you want. You can achieve contemporary or transitional looks, or choose to update your traditional style by selecting one of the newer walnut or cherry finishes.

Kimball Office carefully selects veneers and solid woods to provide high quality wood furniture. Variations in color, grain, and texture occur naturally in all wood species, but are most apparent in lighter colored woods, and especially in natural finishes.

The wood collection offers a number of light finishes that will not hide or mask the natural characteristics of wood. Mineral streaks, pitch pockets, and color variations from piece to piece are all characteristics that occur in natural veneers and are what make each piece unique. While the finishing process is identical for all pieces, each finished piece accepts the stain differently to create its own individual beauty. These characteristics are part of the inherent natural beauty of wood and are not considered defects.

Darker finishes can be selected to hide more of the veneer's characteristics. Several beautiful coordinating woodgrain laminate options are also available for the customer who wants complete color and grain consistency throughout.

Two surfaces with grain directions that are at different angles to a light source will reflect the light differently and look a slightly different color. This natural phenomenon is called flip. This can happen within a single piece as alternating veneer leaves are placed side by side or from piece to piece. Flip is often noticed on worksurfaces installed at a 90° angle to each other.

Two premium veneers—Sapele and Zebrawood—are part of the standard offering to provide options for high impact styles without having to quote custom veneers. Premium veneers could receive extended lead times based on supplier availability at the time the order is placed.

Laminate	220
Paint	222

Discontinuation Policy:

Kimball Office strives to give all business partners advanced notification of surface materials that are scheduled for discontinuation. Efforts will be made to support discontinued materials as specified in the deletion announcement. Pricing cannot be guaranteed. Extended lead times and minimum order requirements may apply.

Disclaimer:

Kimball Office will make every reasonable effort to maintain our commitments. If surface material changes must occur due to unforeseen circumstances, we will work with you on an alternative recommendation. Kimball Office reserves the right to cancel or make changes to standard products and surface materials.

Kimball Office is known as the wood leader in the office furniture industry. Exceeding our customer expectations has always been our goal.

It is important to educate your customers on what to expect from the wood furniture they order. If they require a specific characteristic or look, please contact **By Design** to review veneer options and discuss special quotes.

➤ See page A2 for program overview.

➤ See page A5 for wood characteristics (including descriptions for veneer cut and grain matching) care, and maintenance.

Wood

Special Wood Finishes

GSA Non-Contract

Kimball Office offers the following options for special wood finishes:

- Standard finish color on alternate wood species
- Previously developed special finish
- Custom finish

Standard finish colors available on an alternate wood species include:

- Amber on Maple
- Amber on Walnut
- Mocha on Walnut

These finishes can be specified without going through the finish approval process described at right.

Previously developed special finishes can be selected from an extensive library developed by Kimball Office. Samples of previously developed special finishes are available from Customer Service upon request.

Custom finishes can be developed to meet specific needs, if an acceptable match is not available in our library.

IMPORTANT: Kimball Office reserves the right to decline the opportunity to match a finish color.

Applicability:

Applicability of special finish colors depends on the wood species to which they are applied. The matrix at right shows the types of woods used for each series.

Note: Special finishes are not available on Zebrawood, Canyon Oak, Monterey Oak, or Tuscan Walnut.

Upcharges:

A one-time fee of **\$300** (net) will be billed for the development of each new custom finish. This fee covers all Kimball Office product lines on which the finish may be used.

A **10%** upcharge per line item (model number) will be applied for a standard finish on an alternative wood species, a previously developed special finish, or a custom finish. This upcharge is calculated on the base price, before other option upcharges are added.

For upholstered products, the upcharge is calculated on the Grade 1 upholstery price then added to the price for the selected fabric grade, to arrive at the list price.

Custom Finish

Approval Process:

- ① Send desired finish sample (no smaller than 3" x 5"), along with a purchase order for the \$300 (net) special finish development fee, to Customer Service along with a complete list of the products and wood species to which the special custom finish is to be applied. Include dealer name, contact, and project reference.
- ② If a previously developed sample is found to be compatible, a sample will be sent for customer approval. If not, a custom finish will generally require at least a week for a matched sample. Samples sent to the customer will advise of any restrictions that may apply.
- ③ Customer signs off on the sample and returns the approval form to Customer Service. Approval is required prior to order entry.

Note: The one-time fee of \$300 will not be charged unless a custom match finish is required.

Wood Finishes	➤ See page 217
Laminate	220
Paint	222

How to Specify

① Model:

Build the complete model specification by following the How to Specify steps on the pricing page for the product that is to receive the special finish.

② Finish type:

For the "Finish type" step, insert a special code (in place of STD):
ZCHY1 = Special cherry finish
ZMAP1 = Special maple finish
ZWAL1 = Special walnut finish
ZSAP1 = Special sapele finish
Note: Choose the special finish code based on the standard wood species used in the case-goods line (see matrix at left).

③ Finish designator:

For the "Finish designator" step, insert the designator below or the one provided to you by Customer Service:

MA00174KOG = Amber on Maple

WA02905KOG = Amber on Walnut

WA02905KOG = Mocha on Walnut

Wood

Characteristics, Care, and Maintenance Tips

Kimball Office's experience in wood finishing extends from past generations of craftsmen to present day state-of-the-art technology.

Our Pura® finish is a proprietary, water-based, ultraviolet (UV) wood finish that has virtually no volatile organic compounds (VOCs). It uses less energy than our conventional finishing process and meets or exceeds BIFMA Furniture Emission Standards (FES) and U.S. Green Building Council LEED requirements for indoor air quality. Pura is exceptionally clear and durable and allows the beauty of our wood to shine through. The durability, depth, clarity, and beauty of Pura meets the high expectations customers have of Kimball Office finishes.

Finish fill and sheen level for the top surfaces is appropriate for the design and wood species. If different specifications are required, contact Customer Service.

➤ See the individual chapters for fill and sheen information by line.

All wood products are very susceptible to darkening from age and exposure to UV rays (sunlight and other sources), especially cherry and maple. Although a special UV inhibitor is added to finishes, care in placement of furniture near light sources and elimination of prolonged covering of surfaces is necessary to reduce uneven color change of the wood.

Fine scratches from everyday use may be more visible on furniture with dark finishes. Darker finishes absorb more light, while fine scratches reflect the light. Therefore, scratches can be more emphasized due to this contrast. The use of a desk pad is recommended to keep scratching to a minimum.

The beauty of wood is that, as a natural product, it will have differences in grain characteristics, color, and other features among wood species. The characteristics of our top grade veneers are appreciated and welcomed; it's the differences in characteristics that offer each office a unique look.

Maple veneers are plain sliced and slip matched. Brighton Maple is a clear finish for those who appreciate the inherent beauty of wood. Differences in grain character and color are natural characteristics of wood and will show through in the finished product.

Walnut veneers are plain sliced, and applied book and center matched.

Cherry veneers are plain sliced and slip matched. Grain characteristics of cherry veneer such as gum streaks and gum pockets occur naturally and add to the authentic look and feel of natural veneer. These are inherent to this veneer and should not be considered defects.

Sapele veneers are quarter sliced and slip matched.

Canyon Oak, Monterey Oak, Tuscan Walnut, and Zebrawood are quartered (straight) grain finishes.

Specification of particular cuts, characteristics, or wood species can be accommodated. For example, a customer may ask for a limited amount of cathedrals or very limited variation in color from one veneer flitch to the next. Kimball Office products are able to satisfy those expectations, as long as we are notified prior to order placement. Depending on the request, the higher grade veneer may require an upcharge. Orders would also need to be handled through our custom quote process.

The wood species on seating may vary from the wood species on the casegood or system. Different wood species offer unique texture and grain which provide more variation in finish color; however seating finishes are compatible with casegoods and systems finishes.

Wood Finishes	➤ See page 217
Laminate	220
Paint	222

To Maximize Longevity and Beauty of the Wood Finish:

- Clean all surfaces frequently with a water dampened soft cloth following direction of the grain.
- Dry with a separate cloth if needed.
- Avoid exposure to strong sunlight or extremes in temperature or humidity.
- Avoid exposure to harsh solvents and always remove any spilled liquids immediately.
- Use a desk pad. This will help protect against possible damage and imprinting caused by writing instruments and sharp objects.
- Pads with foam backing are not recommended.
- If using a protective glass top, always place felt spacer pads under the glass to allow the wood to breathe.
- Do not leave plastic, vinyl, or rubber items on finished wood surfaces. Sustained contact could damage the finish.

Note: All colors/patterns are in price group 1.

Customer-Specified HPL

➤ See page A8.

Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.

Customer-Specified Laminate (CSL)

GSA Non-Contract

Customer specified high-pressure laminate (CSL) is available select products with the product lines listed on the previous page.

➤Contact Customer Service to initiate approval.

Kimball Office reserves the right to decline a customer specified laminate which may not be suitable for application.

Kimball Office assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate.

Metal, embossed, specialty, and supplier discontinued laminates must be custom quoted.

➤Contact **By Design** at 800.482.1616 extension 6002.

Kimball Office orders and procures all customer specified laminates.

Laminate sheen level must not exceed 60° for maximum durability of work-surfaces.

Lead times may vary for certain laminates. Minimum order quantities may apply.

Pricing:

A **20% upcharge per line item** (model) for CSL orders for supplier standard laminates applies. Upcharge is calculated on the base price, before other option upcharges are added.

Wood Finishes	➤See page 217
Laminate	220
Paint	222

How to Specify

- ① **Model:** Build the complete model specification (excluding the finish type and finish designator) by following the How to Specify on the appropriate pricing page for the product that is to receive the special finish.
- ② **Finish type:** For the "Finish type" step, insert a special finish code (in place of STD).
ZFMA1 = Formica
ZLMT1 = Lamin-Art
ZLTC1 = Lamitech
ZNEV1 = Nevamar
ZPTE1 = Pionite
ZWST1 = Wilsonart
- ③ **Finish designator:** For the "Finish designator" step, insert the laminate designator (color number) of the laminate to be applied to the product.

Paint Finishes

Key:

● = Available color

[illegible]

IMPORTANT: Due to the reflective qualities of metallic paint, variations in color may occur.

Paint Finishes

Customer-Specified Paint

GSA Non-Contract

Customer-specified paint (CSP) is available on systems products that require specification of a paint color, with the exception of Interworks EQ panels and Lunar profile storage.

Customer-specified metallic paint is not available on Xsite end trim and connector top caps.

Pricing:

A **one-time fee of \$300** (net) will be billed for the development of each new custom (customer specified) paint. This fee covers all Kimball Office product lines on which the paint may be used. Models receiving a custom paint will also be assessed an upcharge.

A **10% upcharge per line item** (model) for customer specified non-metallic paint applies. Upcharge is calculated on the base price, before other option upcharges are added.

A **20% upcharge per line item** (model) for customer specified metallic paint applies. Upcharge is calculated on the base price, before other option upcharges are added.

The process:

- ① Send desired paint sample (no smaller than 3" x 5") to Customer Service along with a complete list of the products to which the custom paint is to be applied. **Include dealer name, contact, and project reference.**
- ② Custom paints will generally require at least a week for a matched sample. Samples sent to the customer will advise of any restrictions that may apply.
- ③ Customer signs off on the sample and returns the approval form to Customer Service. Approval is required prior to order entry.

IMPORTANT: Kimball Office reserves the right to decline the opportunity to match a paint color.

Wood Finishes	➤ See page 217
Laminate	220
Paint	222

How to Specify:

- ① **Model:**
Build the complete model specification (excluding finish type and finish designator) by following the "How to Specify" on the appropriate pricing page for the product that is to receive the custom paint.
- ② **Finish type:**
For the "Finish type" step, insert a special paint code (in place of STD):
ZPNT1 = Special non-metallic paint
ZPNTM1 = Special metallic paint
- ③ **Finish designator:**
For the "Finish designator" step, insert the designator provided to you by Customer Service.

Fabric Application

Panel Fabrics	➤ See page 225
Seating Fabrics	228
COM	232

Standard Application:

Directional fabrics are “cut up the roll” for standard application unless specified differently.

Railroad Application:

All fabrics will be applied in railroad (horizontal) fashion to:

- Narrate tiles
- Xsite tiles
- Xsede tiles
- Priority tiles
- Stow wallpanels
- Tackboards greater than 48"W when using a seating fabric or greater than 60"W when using a panel fabric

When viewing swatch cards or memo samples, turn 90° to get an accurate indication of how the fabric will appear on when railroaded.

Railroad application of Kimball Office panel fabrics and COM for all products that are not listed above or do not have railroading listed as an option in the price list requires a custom quote.

➤ Please contact **By Design**.

IMPORTANT: Fabrics reflect light differently when viewed at various angles, creating a natural phenomenon called “flip.” Flip is visible on all fabrics and is not considered a defect. Flip is more easily recognized on fabrics with a nap or shimmer when viewing fabrics applied in standard application and railroad application side-by-side.

Alliance Fabrics:

Kimball Office has formed partnerships with top textile companies in the industry to provide a broad range of design-oriented fabrics. These fabrics can be specified using our standard ordering process, eliminating the need for additional expense and efforts required for COMs.

IMPORTANT: Orders cannot be cancelled for alliance program fabrics.

Lead times for alliance fabrics are based on supplier availability. Pre-planning orders can help facilitate arrival of products as needed. Each supplier reserves the right to discontinue patterns or colors. Kimball Office will not be held responsible for supplying discontinued patterns/colors or when minimum order quantities apply.

➤Contact Customer Service for availability before finalizing orders.

The information provided in this section is the most current information available at the time this price list was printed.

Application of Alliance Program upholstery will be as depicted on the swatch card unless otherwise instructed on the order.

For memo samples of Alliance fabrics, contact our alliance partners directly.

Cleaning Codes:

Cleaning Code B

- Cleanable with diluted bleach solution

Cleaning Code S

- Use only mild, pure water-free cleaning solvents.
- Cleaning by a professional furniture service is recommended.

Cleaning Code W

- Use water-based cleaning agents or foam.

Cleaning Code WS

- Use water-based cleaning agents or foam. Mild water-free solvents may also be used.
- Cleaning by a professional furniture service is recommended.
- See swatch card for additional cleaning information.

Fire Retardant Fabrics

- Solvent-based fabric cleaning or dry cleaning are recommended.
- Cleaning with water or water-based cleaners could result in salt ringing.
- Test proposed cleaning procedure on a small portion of fabric before cleaning entire piece.

Alliance Program Fabrics

Program Overview

Kimball Office has formed partnerships with the top textile companies in the industry to provide a broad range of design-oriented fabrics. These fabrics can be specified using our standard ordering process, eliminating the need for additional expense and efforts required for COMs.

Patterns from Arc-Com, Carnegie, CF Stinson, EnviroLeather, KnollTextiles, Maharam, Mayer Fabrics, Momentum, and Ultrafabrics are available in a variety of design aesthetics and price points to meet all of your fabric needs. Carded fabrics are listed in this price list.

➤See Surface Materials at www.kimballoffice.com for a wide variety of additional graded-in fabrics from Arc-Com, Carnegie, CF Stinson, EnviroLeather, KnollTextiles, Maharam, Mayer Fabrics, Momentum, and Ultrafabrics.

IMPORTANT: Orders cannot be cancelled for alliance program fabrics.

Application of Alliance Program fabrics will be as depicted on the website or memo sample unless otherwise instructed on the order.

Directional fabrics, such as stripes, patterns, and plaids, may not be suitable for chairs with contoured shapes, tufting, or decorative stitching. Every effort is made to upholster all chairs as expertly as possible; however such orders are not subject to return. Fabric that requires non-stock special treatments such as flame proofing,

anti-microbial treatment, electrical conductive backing, water repellent, stain repellent, or acrylic backing are not part of this program. Such orders should be specified as a COM.

Alliance graded pricing includes the cost of the material. Repeat is also accounted for and no additional upcharge is required.

Different fabrics and seating constructions will respond better than others to specific seating applications. Certain fabric constructions are more prone to relaxing over time and may demonstrate characteristics such as wrinkling, pilling, fuzzing, or puddling. This does not indicate that the fabric or application is deficient, but is considered normal behavior as an inherent characteristic of the fabric.

IMPORTANT: The information provided in this section of the price list is the most current information available at the time this price list was published. Contact Customer Service before finalizing any orders to check availability.

Lead Time:

Lead times for alliance fabrics are based on supplier availability. Pre-planning orders can help facilitate arrival of products as needed. Each supplier reserves the right to discontinue patterns or colors. Kimball Office will not be held responsible for supplying discontinued patterns/colors or when minimum order quantities apply. Contact Customer Service for availability before finalizing orders.

TB133:

Contact Customer Service about TB133 requirements.
Note: Many of these fabrics may pass additional flammability tests. Please inquire about compliance with specific regulations.

Samples:

For memo samples, contact our alliance partners directly.

Overview	➤ See page A2
Applicability Guidelines	A18
TB133 Information	A67
TB133 Inquiry Form	A68

How to Specify

- Follow the “How to Specify” steps listed on the alliance upholstery pricing page within each section.
- For the “upholstery grade” step, add the appropriate three-letter supplier prefix to the fabric grade:
ARC[grade] = Arc-Com
CAR[grade] = Carnegie
CFS[grade] = CF Stinson
LDI[grade] = EnviroLeather
KNL[grade] = KnollTextiles
MHM[grade] = Maharam
MAF[grade] = Mayer Fabrics
MOM[grade] = Momentum
ULT[grade] = Ultrafabrics
- For the “upholstery designator” use the designator for the pattern/color:

Example:

① ② ③ ④
K46CC **CARJ** 6136_10 STD
⑤
MC

Customer's Own Material (COM)

GSA Non-Contract

Fabric Application	➤ See page 224
Panel Fabrics	225
Seating Fabrics	228

COM Policy:

While Kimball Office inspects fabrics for mill imperfections, some are difficult to recognize. Kimball Office is solely responsible for upholstery workmanship and cannot assume responsibility or liability for the durability, tailoring, appearance, or other qualities such as color inaccuracies, dye lot variations, and other such flaws or defects of customer furnished coverings.

Customers are responsible for ordering COM fabrics and expediting delivery of the material to Kimball Office.

IMPORTANT: Kimball Office reserves the right to decline a fabric that may not be suitable for application to product.

COM Application Testing:

Application testing on product for non-preapproved fabrics is required.

➤ Contact your Customer Service Team for the appropriate forms to initiate application testing.

The application test will render your fabric either:

- Approved
- Not recommended
- Restricted

A "not recommended" result is usually due to questionable construction of the material or pattern that is difficult to align. You will be required to sign a waiver to use any "not recommended" COM.

Shipment of COM

After the fabric has passed the approval process described, Kimball Office will enter the product order and send an acknowledgement of the tentative ship date. A notification will be sent giving the date the COM must be received. If it is not received by the specified date, your ship date will be reassigned.

Where to ship COM:

Applies to:

- Frameless and frame screens
- Side-to-side dividers
- Utility cart with hinged lid
- Tackboard for utility cart

Kimball Office
COM Department
Dock 20 or 21
1037 East 15th Street
Jasper, IN 47549

Applies to:

- Mobile carts (tri-pod, cart with open storage, seated carts, back cushions)

Kimball Office
COM Department
Dock 11
343 East 11th Avenue
Jasper, IN 47549

IMPORTANT: Tag all materials with the Kimball Office dealer name and the purchase order number.

Production of Order:

When COM production yardage is received, COM is cut for the order and inspected for flaws. If flaws are found, you will be notified of the additional fabric required.

A return tag (e.g. COD shipment, UPS call tag) is required from the specifier within 45 days of the acknowledged ship date or all excess COM yardage will be discarded.

Preapproved COM:

➤ Contact your Customer Service Team to obtain information on preapproved COMs.

Repeat Fabrics:

It is Kimball Office standard process to match repeat fabrics on fabric covered Overhead and Highback Organizer doors.

Repeat fabrics will be matched in what Kimball Office deems the best possible application of the pattern.

Additional COM yardage is required for repeat fabrics.

<i>Repeat</i>	<i>Additional Yardage required per Overhead Door</i>
0–6"	None
6"–12"	0.166 yards
12"–18"	0.500 yards
18"–24"	0.666 yards
24" or more	1.000 yard

Note: If the customer requires that the repeat fabric be applied in a random fashion, Kimball Office requires written notification in advance of order processing to that effect.

➤ Contact your Customer Service Team to obtain necessary waiver.

Checklist:

When ordering COM for Kimball Office products, please make sure you have done the following:

- Supplied vendor name, fabric name, color name and number.
- Supplied arrival date of COM to Kimball Office.
- Received application testing approval before sending purchase order (or signed waiver if not approved for application).
- Received U.L. listing before sending purchase order.

Customer's Own Material (COM)

Yardage Requirements

GSA Non-Contract

Kimball Office has analyzed each model to most accurately reflect the yardage requirements. Fabric is railroaded.

The yardage requirement for each model is listed for 66"W directional, 66"W non-directional, and 54"W directional, where applicable.

*** = indicates the model has been truncated. Base model numbers may include additional letters or numbers; the yardage will be the same.

<i>Model</i>	<i>66"W Directional</i>	<i>54"W Directional</i>	<i>66"W Non-Dir.</i>
