- Restores natural beauty and luster of wood surfaces
- Creates dirt resistant barrier
- Improves resistance to water stains
- Improves slip resistance of wood floors
- Deodorizes as it cleans

DIRECTIONS FOR USE

The floor should be swept or vacuumed prior to cleaning for optimum results.

FOR DAMP MOPPING:

Mix **NU-LOOK™ Wood Floor Cleaner/Conditioner** with cool/warm water at a ratio of 2 ounces per gallon of water. We recommend using a good quality wet mop, or for large surfaces, several large cotton towels. When using a wet mop, make sure to wring it out tightly so not to flood the wood with water. Damp mop the entire area, rinsing the wet mop as frequently as needed. When using towels make sure they are thoroughly wet and wring them out tightly so not to flood the wood with water. Wrap the

towel around a push broom or dust mop and wipe across the floor, going with the grain of the wood, until the floor is completely free of dirt.

FOR AUTOMATIC SCRUBBERS:

Mix **NU-LOOK™ Wood Floor Cleaner/Conditioner** with cool/warm at a ratio of 1 ounce per gallon of water. Adjust flow rate valve so that the solution wets but does not flood the surface. Using red or white buffing pads, going with the grain of the wood, scrub and vacuum in a single pass. Do not repeatedly scrub the same area, as this may over-wet the wood.

NOTE: DO NOT LEAVE WATER STANDING ON WOOD SURFACES.
