

SOFT SEATING COLLECTION

OFGO

SYMBOL IDENTIFICATION

Lounge seating products with this symbol are produced using OFGO’s advanced DURAtek construction.

WHAT IS DURATEK?

DURAtek from OFGO is a proven construction method that’s engineered to create a tough, durable frame, resulting in **proven longevity** and superior comfort.

The DURAtek construction method involves utilizing steel as a replacement to traditional hardwood construction.

Steel has the highest strength to weight ratio of any building material allowing for superior durability. The frame developed for OFGO’s DURAtek construction method is inorganic, fire resistant, and **will not rot, split, crack, twist, or warp** overtime like a typical hardwood frame would.

Best of all, the DURAtek construction method allows for **true modularity** with easy parts replacement.

Each DURAtek lounge seating product allows for the feet, arms, seat cushion, and back to be attached separately. If a replacement part is required, there is **no need to spend additional resources** on ordering a completely new item; rather, you can simply order a specific part.

The unique modularity of OFGO’s DURAtek construction technology offers an optimal solution for high traffic areas, including educational facilities, healthcare facilities, and commercial workplaces.

The DURAtek construction method utilizes 100% recyclable material and is GREENGUARD **Indoor Air Quality certified**® for healthier interiors.

Everything we do can make a difference.

Our innovation and design initiatives entail not only improving the quality, style, and flexibility of our offerings but also focus on reducing our environmental footprint. By choosing lower impact materials and utilizing waste reduction strategies, we strive for a sustainable presence in our environment. Our areas of environmental concentration include energy efficiency and climate awareness, workplace air quality, recycled content and end of life recyclability, sustainable distribution, and environmental stewardship.

OUR PEOPLE.

We work to cultivate the world we live in through investing in our people and the pursuit of sustainable development.

OUR PLANET.

Focusing our value chain on the challenges of sustainable growth has allowed us to find improved ways to minimize negative impacts on our environment.

OFGO

Print color may vary from actual laminate, veneer, and fabric color.
Use actual laminate or fabric sample for accurate reference.

This brochure is printed on FSC® certified paper and contains a minimum of 30% post-consumer recovered fiber. FSC® is a global benchmark for responsible forest management.
