

SWIFT LIFT TABLES

OFGO

Height adjustable worksurfaces are recognized as one of the healthiest options for employees today. **Swift Lift** tables help enhance wellness and well-being by allowing individuals to intermittently and effortlessly change their posture from sitting to standing in order to relieve fatigue and discomfort. Swift Lift tables are an environmentally friendly solution containing over 80% recycled wood fiber content and up to 15% post industrial steel that is 100% recyclable.

HEIGHT ADJUSTABLE TABLES

SWIFT LIFT SERIES

Swift Lift tables are style compatible with Modern Series furniture and can adjust up to 20 inches in height in less than two seconds. Swift Lift tables' pneumatic cylinder technology requires no electric power. Worksurfaces can lock at an infinite number of heights by pressing a single paddle.

Adjusting one's posture throughout the day from sitting to standing creates movement and flexing of the spine, which improves circulation and lubricates joints. This helps to reduce long term muscle fatigue and back pain. **Swift Lift** tables are a great solution for accommodating multiple users of different height and their individually preferred postures.

Everything we do can make a difference.

Our innovation and design initiatives entail not only improving the quality, style, and flexibility of our offerings but also focus on reducing our environmental footprint. By choosing lower impact materials and utilizing waste reduction strategies, we strive for a sustainable presence in our environment. Our areas of environmental concentration include energy efficiency and climate awareness, workplace air quality, recycled content and end of life recyclability, sustainable distribution, and environmental stewardship.

OUR PEOPLE.

We work to cultivate the world we live in through investing in our people and the pursuit of sustainable development.

OUR PLANET.

Focusing our value chain on the challenges of sustainable growth has allowed us to find improved ways to minimize negative impacts on our environment.
