How to Specify C.O.M. Upholstery

Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

C.O.M., C.O.L. and C.O.V. Testing

KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

KI recommends that leather be ordered in - yardage. Leather must be usable. The outer edges cannot be calculated as square feet or yardage.

The C.O.M., C.O.L. and C.O.V. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

C.O.M., C.O.L. and C.O.V. Order Processing

For products shipped from Green Bay, WI facility, ship upholstery material to:

**KI**  
**Attn: C.O.M. Storage**  
**1687 Westminster Drive - Gate 3**  
**Green Bay, WI 54302**

To expedite the procedure, attach a copy of the "C.O.M. Information Form" on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled with the purchase order number.

C.O.M., C.O.L. and C.O.V. Production

Customer's fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1" square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer's own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

For products shipped from Bonduel, WI facility, ship material to:

**KI**  
**Attn: C.O.M. Storage**  
**204 West South Street**  
**Bonduel, WI 54107**

For products shipped from Ontario, CA facility, ship material to:

**Avail/Impress/Kismet/Medical & Laboratory Stools/Pilot**  
**Attn: C.O.M. Storage**  
**1110 S. Mildred Ave.**  
**Ontario, CA 91761**

Intricate Patterns

In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

Diagram B

Treated Materials

If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

Split Orders

If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.V. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

Opt4® 4-Leg Armchair or Armless Chair with Glides or Casters

March 2020

TECHNICAL SPECIFICATIONS

4-Leg Glide & Caster Frames

Frame is fabricated from 7/8" O.D. by 17-guage tubular steel. All joint are welded.

Optional Upholstered Seat

Upholstered seat pad consist of an injection molded polypropylene liner board, 1/2" thick urethane slab foam and an upholstery covering, all held together with a draw-string process. Upholstered seat pad is attached to the seat with eight screws that extend through the seat and are screwed into poly bosses that are molded in the liner board.

Seat and Back

Seat and back are available in six combinations of mesh or polypropylene backrests and mesh, polypropylene or upholstered seats. Polypropylene frame and mesh are monochromatic. Poly backrest models have an integral handle. Mesh material is made from 100% post-consumer PET bottles. All resin parts (backrest, seat, and glides) are 100% recycled polypropylene.

Arms

Optional armrests are available. When equipped with arms, a formed steel tube 7/8" OD by 17-guage tubular steel is welded directly to the chair frame. Arm caps are polypropylene material.

Casters/Glides

Glides are molded from nylon with glass fill. Glides are Stone Grey or Black in color. 4-Leg chairs may be ordered with casters instead of glides. Casters are 50 mm diameter, double-wheel high-impact thermoplastic, available with hard or soft wheel surface, in Black only.

Frame Finishes

Frames are finished in either baked-on electrostatically-applied 30-degree gloss epoxy powder-coat paint, or bright nickel-chrome plating.

Transport Dolly

Frame construction is welded tubular steel with black powder-coated finish and 5" wheels (two swivel and two fixed).

Opt4® High-Density Sled Base Stack Chair & Stool

November 2020

TECHNICAL SPECIFICATIONS

Sled Base Frame

Frame and cross members are fabricated from 1/2" O.D. by 16-gauge tubular steel. All joints are welded. Stools are available in two heights (24" and 30"), and have footrest made of 1/2" O.D. by 16-gauge tubular steel.

Optional Upholstered Seat

Upholstered seat pad consist of an injection molded polypropylene liner board, 1/2" thick urethane slab foam and an upholstery covering, all held together with a draw-string process. Upholstered seat pad is attached to the seat with eight screws that extend through the seat and are screwed into poly bosses that are molded in the liner board.

Seat and Back

Seat and back are available in six combinations of mesh or polypropylene backrests and mesh, polypropylene or upholstered seats. Mesh material is made from 100% post-consumer PET bottles. All resin parts (backrest and seat) are 100% recycled polypropylene.

Glides

Frames are available with either nylon, steel, felt or PVC/non-skid glides. Nylon glides are available with or without integral ganging clips. Nylon glides are Stone Grey. PVC/non-skid glides are Black. Steel glides have a stainless steel cap that fits over a non-ganging nylon glide. Felt glides have a replaceable (snap-fit) felt cap that is black nylon with a neutral-colored felt. All glides are attached with one screw.

Frames and Finishes

Frames are finished in either baked-on electrostatically-applied powder-coat paint or bright nickel-chrome plating.

Transport Dolly

Powder-coated tubular steel frame. Two swivel casters and two fixed casters.
