MISSION Statement

PROTECT AND ENHANCE LIVES

We design, produce and deliver the highest quality protective solutions in the world. We accomplish this by driving innovation, continuously improving our quality management system and exceeding customer expectations.

ABOUT US

When Protective Apparel Corporation, Inc. was founded in 1975, the company had one mission in mind: to produce the safest body armor in the world. By combining superior craftsmanship with leading edge technology, this singular vision has become a reality - offering law enforcement and corrections professionals the most advanced ballistic and stab protection available today. Our standards of quality ensure that when you rely on PACA for your body armor, you can expect high-quality protective products at an outstanding value with superb customer service.

COMMITMENT

Our passion for innovation and unwavering commitment to customer service continues to set us apart from other companies. Whether you need an exceptionally lightweight ballistic system designed to protect against “special threats” or a totally new generation of correctional armor, PACA Corrections body armor delivers products that consistently exceed expectations of our customers.

PACA PROMISE

Our promise is simple; We deliver when others tell you it can't be done. We manufacture superior ballistic protection at an exceptional value with first-rate service. Dynamic designs, access to the best ballistic materials in the world, outstanding delivery and comprehensive customer service are all a part of the PACA promise. We are confident you won't find better quality products or more attention to detail than PACA body armor. **We Promise.**

BALLISTICS

Exceeds NIJ.06 Testing Requirements
Surpasses Industry Standards
Protects Beyond Your Expectations

Protecting your community starts with equipping yourself with body armor that not only meets the highest level of protection but also exceeds your expectations for lightweight comfort and performance.

We currently have more NIJ .06 certified products than any other ballistics company with a key emphasis of providing our customers with lighter, more comfortable body armor systems with greater protective capabilities.

We're constantly pushing the limits beyond what you thought was possible in protective technology. Our seasoned team of engineers continuously engage in collaborative research initiatives with globally renowned producers of advanced, high-strength materials. Our ongoing collaboration with the world's leading fiber manufacturers and weavers gives us access to ground-breaking discoveries which will impact the next generation of ultra-performance hybrids.

Inside our world-class PBEI Technology and Testing Center, a state-of-the-art ballistic laboratory allows us to continuously develop maximum-performance products which consistently exceed National Institute of Justice (NIJ), U.S. Military, Government (DEA and FBI) and International testing requirements. The Center also includes a dedicated R&D Garment Design Department that designs cutting-edge concealable and corrections carriers with the highest level of ergonomic fit and finish. This combination of ballistic expertise and garment design provides a seamless culmination of the most advanced body armor systems that are unparalleled in ballistic protection and comfort.

At PACA Body Armor, we know the complex and ever changing threats law enforcement and corrections officers face each day and intrinsically understand your needs for optimum ballistic protection. We strive to produce systems that combines maximum comfort and mobility with split-second adaptability. We are excited to offer you the latest advancements in ballistic technology and more options according to your required threat level and specifications for weight and performance.

CONCEALABLE

Ideally suited for daily wear in any environment, PACA concealable body armor systems offer the ultimate combination of protection, comfort and maneuverability. Available with high performance NIJ .06 Level IIA, II or IIIA ballistic systems, these ultra-durable concealable carriers feature a distinctive shape, optimum adjustability, advanced material technologies and comprehensive protective coverage for round-the-clock performance.

SELF SUSPENDING BALLISTIC SYSTEM

WITH Self Suspending Ballistic System™ keeps ballistic panels in place and maximizes coverage area.

WITHOUT Without Self Suspending Ballistic System™ ballistic panels can potentially sag and wrinkle.

DISTINCTIVE CARRIER SHAPE

CONCEALABLE BODY ARMOR

Considered the new benchmark for concealable body armor, the ergonomic design and shape of PACA's carriers emphasize comprehensive protective coverage while offering maximum maneuverability.

THORSHIELD®

PROTECT YOUR OFFICERS FROM ELECTROSHOCK WEAPONS!

While body armor saves lives and less-lethal devices such as electric stun guns prevent some fatal encounters, officers remain exposed if their body armor does not include ThorShield®. ThorShield® is a highly conductive, specialized layer of fabric which ensures the electric current discharged from an electroshock weapon flows through the lining rather than the body. Durable, lightweight and exceptionally flexible, ThorShield® is available in PACA body armor products.

ARMORVENT®

ARMORVENT®

ARMORVENT® mitigates the negative effects of wearing body armor for sustained periods of time while improving the operational effectiveness and comfort for operators. EVAP™ Technology, ergonomic design and patent-pending air channel ventilation pattern delivers continuous comfort, regardless of temperature operational environment or duration of operation.

BLUE STEEL

FEATURES MALE

- Self Suspending Ballistic System™ (SSBS) provides optimal protective coverage
- Outlast® Smart Fabric technology inner material helps keep you cool and dry
- ThorShield® sleeve electroshock weapon protection (optional)
- Aegis™ antimicrobial protective properties resists growth of bacteria, mold and mildew
- Durable Water Repellent (DWR) micro- fiber outershell
- Removable 2"x12" waist straps provide 8-point adjustability - Optional 4"x12" straps available
- Removable internal cummerbund stabilizes rear ballistic panel and helps prevent riding up when sitting
- Top loading, low profile plate pockets in the front and back accommodates 5"x8"Trauma insertrts as well as 6"x8", 7"x9" or 8"x10" SPEED Plates, depending on the size of the carrier.
- Mesh shirt tail construction or optional no tail
- Blue Steel concealable ballistic panels fit into Crossover Carriers
- Inner zipper for enhance concealability
- Available in MC shape
- Available colors: Black, White, Navy & Tan

Blue Steel's futuristic design is based on new advancements in ballistic technology and temperature regulating materials. The result-ultra modern, high performance body armor that is ahead of its time in performance but right on time in demand.

Blue Steel is the first total body armor system that integrates high performance ballistic materials with an innovative carrier design, featuring Outlast® Smart Fabric technology inner lining, ThorShield® Electroshock Weapon Protection and our exclusive Self-Suspending Ballistic System. These innovations result in significantly cooler, dryer and more comfortable all-day performance.

Male Front

OPTIONAL
Thorshield®

- Conductive material fabric is flexible and light weight and does not compromise comfort.
- Thorshield® creates a barrier of safety between the wearer and the discharged electric current.
- The electric current is absorbed by the Thorshield® fabric, thereby reducing the potential for shock to the wearer.

Female Front shown in Navy

Self Suspending Ballistic System™ keeps ballistic panels in place and optimizes protective coverage area. Without this innovative design, ballistic panels can potentially sag and wrinkle inside the carrier.

FEATURES FEMALE

- Smart Seam™ construction comfortably supports the bust and accommodates different measurements
- Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier
- Adjustable side straps offer 8-point adjustability
- Durable Water Repellent (DWR) micro-fiber outershell
- Aegis™ antimicrobial body side fabric
- Outlast® Smart Fabric technology helps keep you cool and dry
- ThorShield® technology fabric protects against electroshock weapons (optional)
- Top loading, low profile plate pockets in the front and back accommodates 5"x8"Trauma insertrts as well as 6"x8", 7"x9" or 8"x10" SPEED Plates, depending on the size of the carrier.
- Removable internal cummerbund
- Narrow cut, shirt-tail construction or optional no tail
- Available in MX4 & Trufit shape
- Available colors: Black, White, Navy & Tan

Blue Steel NIJ 0101.06 Ballistic Options

Available with NIJ .06 Level IIA, II and IIIA Ballistic Systems

SELF SUSPENDING BALLISTIC SYSTEM™

KEEPS BALLISTIC PANELS IN PLACE AND MAXIMIZES COVERAGE AREA

Outlast®

Benefits of Outlast® Technology

*Patented Outlast® phase-change materials absorb, store and release excess body heat to maintain temperature balance for up to a 70% reduction in sweat.

How Outlast® Adaptive Comfort® works

PERFORM-X

Perform-X has remained a hallmark of PACA’s line of outstanding body armor. Specially designed to provide maximum maneuverability and comfort, this exceptionally lightweight, concealable vest offers unparalleled protection when paired with our industry-leading ballistic systems.

FEATURES MALE

- Lightweight design naturally flexes to the contours of your body for exceptional maneuverability
- Self-Suspending Ballistic System™ features stretch Breathe-O-Prene® shoulder straps which connect to the front and back ballistic panels, ensuring optimal protective coverage
- Durable Water Repellent (DWR) microfiber outershell
- Dry Run® moisture management system moves moisture away from the body and helps keep you dry and comfortable
- Removable 2”x12” waist straps provide 8-point adjustability – optional 4”x12” straps available
- Removable internal cummerbund stabilizes ballistic panels
- Plate pockets in the front and back accommodate 5”x8”, 7”x9” or 8”x10” SPEED Plates
- Front twin-tail design or optional no tail
- Perform-X concealable ballistic panels fit into Crossover Carriers
- Available in MC shape
- Additional protection includes 5”x8” Soft Trauma inserts
- Available colors: Black, White, Navy & Tan

Male Perform-X in Black

Concealed Protection with High Mobility. Self-Suspending Ballistic System™ features stretch Breathe-O-Prene® shoulder straps which connect to the front and back ballistic panels, ensuring optimal protective coverage

Male Perform-X Side Straps

Female Perform-X in Navy

With DryRun™ Technology

Perform-X concealable carriers feature high performance comfort fabrics called DryRun®, which utilizes Sorbtek® permanent moisture management and environmentally safe A.M.Y.® antimicrobial yarns. Through its Catch/Move/Release technology, DryRun® provides up to 6 times more moisture movement capacity than standard nylon, polyester and other moisture wicking fabrics. Less bacteria also means less odor through A.M.Y.®, which permanently inhibits the growth of odor causing bacteria on fabrics.

MOISTURE MANAGEMENT PERFORMANCE (15 cm movement time in minutes)

Sorbtek®
A.M.Y.®
antimicrobial yarns for odor control

FEATURES FEMALE

- Contoured shape allows optimal mobility and maneuverability
- Lightweight, flexible design offers around the clock comfort and protection
- Smart Seam™ construction comfortably supports the bust and accommodates different measurements
- Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier
- Adjustable side straps offer 8-point adjustability
- Durable Water Repellent (DWR) micro-fiber outershell
- Dry Run® moisture management system moves moisture away from the body and helps keep you dry and comfortable
- Plate pockets in the front and back accommodate 6”x8”, 7”x9” or 8”x10” SPEED Plates
- Removable internal cummerbund
- Narrow cut, shirt-tail construction or optional no tail
- Additional protection - includes 5”x8” Soft Trauma Insert
- Available in MX4 & Trufit shape
- Available colors: Black, White, Navy & Tan

STANDARD

MALE

Male Features

- Durable outershell is constructed of first quality, dimensionally stable 65% polyester/ 35% cotton fabric with a soil resistant finish
- Integrated carrier design provides comprehensive protective coverage with enhanced mobility
- Removable 2"x12" waist straps provide 8-point adjustability - optional 4"x12" straps available
- Self-Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels
- Plate pockets in the front and back accommodate 5"x8" Trauma inserts as well as 6"x8", 7"x9" or 8"x10" SPEED Plates for additional blunt trauma protection
- Removable internal cummerbund stabilizes rear ballistic panel
- Split shirt tail construction or optional no tail
- Standard concealable ballistic panels fit into Crossover Carriers
- Available in MC shape
- Available colors: Black, White, Navy & Tan

An Industry Standard

The Standard ballistic system has earned a reputation as the reliable "workhorse", capable of defeating high energy threats while providing lightweight wearability. Officers throughout the country trust this industry standard and continue to depend on it for their protection.

Female Features

- Contoured carrier construction offers greater maneuverability
- Smart Seam™ construction comfortably supports the bust and accommodates different measurements
- Self Suspending Ballistic System™ (SSBS) prevents rolling and sagging of ballistic panels inside the carrier
- Adjustable side straps offer 8-point adjustability
- Durable, poly/cotton outershell construction
- Standard plate pocket in the front and back to conceal 5x8", 7"x9" or 8x10" SPEED Plates
- Removable internal cummerbund
- Narrow cut, shirt-tail construction or optional no tail
- Additional protection - includes 5"x8" Soft Trauma Insert
- Available in MX4 & Trufit shape
- Available colors: Black, White, Navy & Tan

10" x 12" TRAPEZOID	10.5oz	0.025"

CROSSOVER CARRIERS

ODC STANDARD

Uniform Shirt Carrier

Ideally suited for daily wear in any environment, these highly adaptable carriers allow for rapid insertion of ballistic panels from all three PACA concealable vests, including Blue Steel, Standard and Perform-X. In minutes, the officer has ballistic protection in a lightweight, exceptionally durable carrier that can be easily adapted for equipment-carrying assignments.

ADAPTABILITY

MISSION ENGINEERED

FUNCTIONALITY

CROSSOVER PROTECTION

Combining the ergonomic design of a concealable carrier with the functionality of a load-bearing vest, PACA's Crossover carriers provide the best combination of form, fit, and function. Available with the most frequently requested features, these multi-functional carriers offer virtually the lightest weight protection available in a covert design which allows the patrol officer to easily don and doff in seconds while meeting his/her mission-specific needs.

UPGRADEABILITY

IMPROVED PERFORMANCE

For protection against high powered rifle rounds, our PACA Crossover carriers feature hard armor plate pockets which accommodate a choice of 8" x 10" or 10" x 12" Level III or IV hard armor plates. In addition, the patrol officer can also protect himself/herself against electroshock weapons such as TASER® devices by upgrading the crossover carrier with PACA's exclusive Thor-Shield™ technology.

ODC MAVERICK

Instantly convert the ODC Maverick into a protective vest with up to Level IIIA protection by inserting concealable ballistic panels. Highly versatile in design, the ODC Maverick provides optimal functionality, comfort and performance.

FEATURES

- Available with NIJ-Standard-0101.06 Level IIA, II or IIIA ballistic system
- Able to integrate PBE concealable carrier directly into ODC Sleeve cover without removal of ballistics
- Exceptionally strong and durable 500 denier Cordura® outershell construction
- Vest Length is adjustable to render the best fit for the user
- MOLLE compatible webbing on the front, back and sides
- MOLLE compatible front flap with two Magazine rifle pockets
- Top loading plate pockets (Front and Back)
- 5" x 8" Trauma Plate Pocket (Front only)
- Adjustable side cummerbund accommodates ballistic inserts
- Adjustable and removable internal cummerbund
- Variable spacing circular button holes for name and badge attachment
- Center Mic/Camera attachment
- Note Pad Pocket with VELCRO® Brand Fastener closure
- Zipper adaptors and Hang ID
- Custom Agency ID Placards in the front and back
- Left and Right Mic Tabs
- Available colors: Black, Ranger Green, OD Green, Multi-cam, Navy Blue, Coyote, Silver Tan and Red

OPTIONS

- Zipper adaptor and Hang ID for Note pad pocket
- Speed Plates
- Hard Armor Plates
- ARMORVENT® Retrofit Panels
- ThorShield® Electroshock Weapon Protection

UNIFORM SHIRT CARRIER

The Uniform Shirt Carrier (USC) provides the protection you need with a stylized design that offers the professional appearance you want. Designed to be worn over the dress shirt, the USC features two multi-functional pockets, convenient side opening and a contoured shape for total comfort. Instantly convert the USC into a ballistic protective vest by inserting Point Blank concealable ballistic panels into the front and back interior pockets. Within a matter of seconds, the USC is ready to wear with up to Level IIIA protection.

MALE

Adjustable Side Straps

FEATURES

- Durable polyester outershell
- Soft poly/cotton inner lining
- Adjustable shoulder strapping system
- Internal pocket for trauma insert and hard armor plates
- Two front pleated patch pockets
- Concealable and removable adjustable side straps
- Pen slits on pocket flaps for ambidextrous use
- Badge tab holder
- Name tab holder
- Mic holder
- Available colors: Black, White, Navy & Tan

FEMALE

Shoulder Strapping System

ODC STANDARD

Combining the ergonomic design of a concealable carrier with the functionality of a load-bearing vest, the ODC Standard provides the best combination of protection, adaptability, and versatility. Ideally suited for daily wear in any environment, the ODC Standard includes several new design features which make it the ideal choice for equipment carrying assignments.

FEATURES

- Exterior carrier fabric constructed of 500 Denier Cordura®
- ID Panels:
- Custom Agency ID Placards in the front and back
- Top loading plate pockets for plates
- Dual plate pockets make the larger vest able to accept smaller rifle plates
- 5" x 8" Trauma Plate Pocket (All Sizes)
- Center Mic/Camera attachment
- Left and Right Mic Tabs
- Ambidextrous sewn pouches
- Dual Rifle Mag Pouch / Radio Pouch
- Dual Pistol Mag Pouch / Handcuff Pouch
- Utility Pouch
- Adjustable and reversible side elastic closure
- Adjustable and removable internal cummerbund
- Variable Spacing circular button holes for name and badge attachment
- Note Pad Pocket with Hook and Loop closure
- Color options: Black, Ranger Green, OD Green, Multi-cam, Midnight Navy, Coyote, Red & Silver Tan

Optional System Features:

- Interior can accept Spacer mesh Panels
- Zipper adaptors
- Hang ID
- Epaulettes

Options, Upgrades and Accessories:

- SPEED Plates
- Hard Armor Plates
- Interior can accept ARMORVENT® Retrofit panels
- Thorshield™ Electroshock Weapon Protection

Front Vest

Back Vest

ODC MOLLE

Exceptionally durable and highly adaptive, the ODC MOLLE combines the ergonomic shape of a concealable carrier with the functionality of a load-bearing vest. Ideally suited for equipment carrying assignments, this crossover carrier provides optimum comfort, versatility and protection when paired with PACA's advanced ballistic systems.

FEATURES

- Exterior carrier fabric constructed of 500 Denier Cordura®
- ID Panels:
- Custom Agency ID Placards in the front and back
- Top loading plate pockets for plates
- Dual plate pockets make the larger vest able to accept smaller rifle plates
- MOLLE compatible webbing system to accommodate equipment pouches
- 5" x 8" Trauma Plate Pocket (All Sizes)
- Center Mic/Camera attachment
- Left and Right Mic Tabs
- Lower magazine pockets with Hook & Loop closure (Size Dependent)
- Adjustable and reversible side elastic closure
- Adjustable and removable internal cummerbund
- Variable Spacing circular button holes for name and badge attachment
- Note Pad Pocket with Hook & Loop closure
- Zipper adaptor
- Hang ID
- Available Colors: Black, Ranger Green, OD Green, Multi-cam, Midnight Navy, Coyote, Navy Blue & Silver Tan

Optional System Features:

- Spacer mesh inner lining
- Epaulettes

Options, Upgrades and Accessories:

- SPEED Plates
- Hard Armor Plates
- Interior can accept ARMORVENT® Retrofit panels
- Thorshield™ Electroshock Weapon Protection

Front Vest

Back Vest

ODC SLICK

Ergonomically designed to provide exceptional comfort and maneuverability, the ODC Slick provides a tailored appearance and optimal functionality for command staff during covert operations.

FEATURES

- Durable 500 denier Cordura® exterior construction
- Front and back vest length adjustability
- Slick front and back design
- Top loading plate pockets for plates
- Dual plate pockets allow the larger vest able to accept smaller rifle plates
- 5" x 8" Trauma Plate Pocket (All Sizes)
- Variable Spacing circular button holes for name and badge attachment
- Note Pad Pocket with Hook and Loop closure
- Lower mag pockets with Hook and Loop Fastener closure
- Custom Agency ID Placards in the front and back
- Left and right mic tabs
- Center mic/cam attachment
- Adjustable and reversible side elastic closure and internal cummerbund
- Colors: Black, Coyote, Ranger Green, OD Green, Midnight Navy, Multi-Cam & Silver Tan

Options, Upgrades and Accessories:

- SPEED Plates
- Hard Armor Plates
- Interior can accept ARMORVENT® Retrofit panels
- Thorshield™ Electroshock Weapon Protection

Back Vest

ODC LASER

ODC Laser carrier features an ultra-strong exterior construction that is engineered with laser-cut technology. This innovative carrier design is ideal for officers who require functional load-carrying capabilities with the versatility to adapt to any situation.

FEATURES

- Accommodates NIJ certified Level IIA, II or IIIA ballistic systems from Point Blank Enterprises
- Laser-cut outershell resists tears and punctures and is also highly moisture resistant
- Self-Suspending Ballistic System helps keep the panels comfortably suspended
- Allows integration of PBE concealable carrier directly into ODC Sleeve cover without removal of ballistics
- Top loading plate pockets
- Dual plate pockets allow a larger vest to accept smaller rifle plates
- Load-bearing laser cut technology accommodates a variety of equipment pouches
- 5" x 8" Trauma Plate Pocket (Front only)
- Center Mic/Camera attachment
- Left and Right Mic Tabs
- Lower magazine pockets with Hook & Loop closure (Size Dependent)
- Adjustable and reversible side elastic closure
- Adjustable and removable internal cummerbund
- Variable Spacing circular button holes for name and badge attachment
- Note Pad Pocket with Hook & Loop closure
- Zipper adaptor
- Custom Agency ID Placards in the front and back
- Hang ID
- Colors: Black, Ranger Green, Multi-Cam, and Coyote

Options, Upgrades and Accessories:

- Interior can accept ARMORVENT® Retrofit panels
- Thorshield® Electroshock Protection
- Speed Plates / Hard Armor Plates

CORRECTIONS CARRIERS

Our advanced body armor systems are specifically designed to help protect Corrections officers against spikes, shanks and other potentially lethal weapons typically found in corrections facilities. In response to the ever volatile conditions and unique threats Corrections professionals face each day, our body armor systems provide the superior puncture and slash resistant protection needed for optimal performance. Tested and certified by NIJ, our body armor systems provide exceptional torso, bicep, neck and groin protection against ice picks and other sharp edged, pointed weapons. We offer high performance stab packages in (Spike 1, 2 or 3), optional Edge Weapon Level III protection, as well as combo packages that offer ballistic and spike protection.

Cell Extraction Suit

Thrust Guard

SVIII Corrections

Operator GEN II Corrections

NIJ 0115.00 Standard for Stab Resistance

The NIJ rates body armor on resistance to hand-delivered stab threats – the NIJ 0115.00 Standard. Maximum penetration of 0.28”/7mm is allowed as serious injury is extremely unlikely with such a shallow wound. Also an “Over-test” is applied, to push the breaking point of the armor, where 0.79” / 20mm of penetration is allowed. Ice-pick or improvised “Spike” weapons testing is regularly conducted by PACA through its independent laboratories.

PROTECTION AGAINST STAB THREATS

Body armor that is ballistic resistant does not necessarily make it stab or puncture resistant (and vice versa). Sharp edged and hand made instruments with pointed tips such as spikes, awls or shanks generally do not need to tear the fabric to penetrate – it merely moves the fibers aside. PACA utilizes a combination of super fine, ultra-dense materials, which prevent pointed objects from spreading or moving the individual yarns to stop penetration/puncture.

THRUSTGUARD

Thrustguard's Stab Spike/Blade Class Level 3 Body Armor System exceeds the stab resistance requirements of NIJ Standard 0115.00 with zero penetrations during laboratory testing. Designed to provide maximum blunt trauma, stab and edged weapon protection, this high performance vest offers Corrections Officers an unprecedented level of security.

FEATURES

- Adjustable side opening design
- Enhanced blunt trauma protection in collar and shoulders
- Complete front, back and side stab protection
- Thrust Guard panels are removable from outershell
- Optional Groin Protector

The Thrust Guard features an adjustable abdomen belt with protective cover flap conveniently located at the front of the vest.

**MAXIMUM BLUNT TRAUMA,
STAB AND EDGE PROTECTION**

EXCEEDS NIJ STAB RESISTANCE REQUIREMENTS

CELL EXTRACTION VEST

Engineered to provide maximum blunt trauma protection, this high performance tactical vest also offers an unprecedented level of maneuverability, functionality and performance. Exceptionally lightweight and highly durable in construction, the PACA Cell Extraction Suit answers the needs and wants of corrections professionals by providing superior protective coverage for the neck, torso, biceps and groin, while offering optimum versatility in fit.

FEATURES:

- Side-opening design allows instant donning and doffing
- One-piece collar, shoulder and bicep protection system
- Removable split collar design improves interface with multiple styles of helmets
- High density, foam padding for shock absorption
- Streamlined shape and slick carrier surface with or without MOLLE interference
- Adjustable side-wing closure system provides optimum coverage and fit
- Multifaceted shoulder strapping system offers enhanced adjustability
- Low profile front and back pockets to accommodate blade plates
- Retractable groin protector with integrated thigh strapping system provides secure placement
- 3M Scotchlite™ reflective tape positioned in the front and back of the vest for high visibility
- Sturdy 1000 denier Cordura® outershell construction resists tears and punctures
- Shoulder pocket accepts 5" x 8" protection

SVIII CORRECTIONS

MAXIMUM BLUNT TRAUMA PROTECTION

Engineered to provide maximum blunt trauma protection, this high performance tactical vest offers an unprecedented level of security. The SVIII Corrections Body Armor System answers the needs and wants of corrections professionals by providing superior protective coverage, extreme versatility in fit and more customized features than any other corrections vest on the market.

FEATURES

- Side-opening design allows instant donning and doffing
- Multifaceted shoulder strapping system offers optimal adjustability for multi-size capability and interior Fasteners for improved weight distribution
- Removable throat protector is ergonomically designed to fit comfortably around chin area (optional)
- Removable split collar design provides greater comfort and improves interface with multiple styles of helmets (optional)
- Biceps protector provides enhanced protection to the entire upper arm and shoulder area (optional)
- Exclusive bicep plate pocket design accommodates 5" x 8" SPEED or Blade Plates
- Side closure plate pocket design accommodates 6" x 8" stab panels

ADDITIONAL FEATURES

- Front and back Stab panels are NIJ certified 0115.00 Spike Level 3
- Stab panel suspension system ensures protection by preventing panels from sagging and rolling inside the carrier

OPERATOR GEN II CORRECTIONS

Streamlined and highly effective, the Operator Gen II blends the functionality of a tactical vest with a simple carrier construction that's geared for high performance. Ideal for Corrections officers who need load-carrying capabilities with the versatility to adapt to any operation, the Operator Gen II will hold up to the toughest demands while offering superior protection.

FEATURES

- Available with NIJ-Standard-0101.06 Level IIIA ballistic system
- Exceptionally strong and durable 500 denier Cordura® outershell construction
- Carrier interior fabric constructed of Rashel nylon mesh
- Shoulder cut allows proper stock weld
- Low profile protective coverage
- Maximum MOLLE Compatible Load Bearing Webbing System
- Outer front and back pockets accommodates hard armor plates, 8" x 10 or 10" x 12" (size dependent on carrier)
- Back to front adjustable shoulder closure with VELCRO® Brand Fasteners on front with 1" webbing pull tab, and buckle on the back
- Outer front flap with VELCRO® Brand Fastener closure to secure outer cummerbund with kangaroo pouch
- Internal adjustable 4" elastic cummerbund with adjustable 4" x 4" closure
- Removable and adjustable external cummerbund with webbing handle for easy adjustment
- Easy access ballistic panel and plate removal
- Quick release system for rapid removal of carrier
- Ambidextrous microphone use capability with 1" webbing on front of both shoulders
- Reinforced "Man-Down" drag strap on back
- Custom agency ID Placards
- Available colors: Black, Coyote, Multi-cam, Ranger Green, OD Green, and Wolf Grey

OPTIONS

- Ballistic collar, throat, biceps, and groin protection
- Hard Armor Plates
- ARMORVENT® Retrofit Kit
- ThorShield® Electroshock Weapon Protection

Operator GEN II Corrections Back

CORRECTIONS ACCESSORIES

ARCH ADVANCED RIOT CONTROL HELMET

Standard

Standard with Metal Grid

Gas Mask

FEATURES

- Material: Acrylonitrile butadiene styrene (ABS) plastic
- Colors: Black
- Polycarbonate with rubber seal (spill proof)
- Interior Liner: removable foam liner
- NIJ complaint quick release buckles
- Detachable .150" (3.8mm) thick face shield with liquid seal prevents liquid from seeping into officer's eyes
- Molded lip on top edge of face shield to prevent shield from closing over integral visor and striking the wearer's face
- 16-gauge powder coated aluminum plate Face Guard for maximum strength and safety
- VELCRO® brand fastener nape pad with shock-absorbent foam pads and chemical-resistant black Cordura® cover

OPTIONS

- Standard Face Shield – .150" polycarbonate face shield
- Face Shield with Metal Grid – Standard face shield with 16-gauge powder coated aluminum face grid
- Gas Mask Face Shield – Angled slightly to allow the operation of the gas mask without obstruction
- Gas Mask Face Shield with Metal Grid
- Also available without face shield

RETENTION SYSTEM

- 4-point attachment system with supportive neck pad allows for additional comfort and helps stabilize the helmet with the face shield in all positions
- Easily adjusted for a comfortable fit
- Picatinny attachment on both sides allows for placement of light and body camera leaving hands free for weapons (Light and Camera not included)
- Nape curtain attachment

PERFORMANCE

- Meet or exceeds NIJ Standard for Blunt Trauma for Riot Helmets – NIJ-STD-0104.02

*The U.S. Department of Transportation Standard, D.O.T. FMVSS218, establishes performance requirements for helmets designed for use by motorcyclists. This helmet is not intended for vehicular use.

RIOT SHIELDS

WARRIOR SHIELD **Police, Sheriff, National Guard, University Police, Riot Squad, or Jail personnel.**

The ergonomic shape of the Warrior Shield makes it ideally suited for left or right hand use. The handle and breakaway strap are dielectric to prevent electrical pass through while the wide nylon arm strap is easily adjustable while in use. Extremely durable and easy to operate, the Warrior Shield has superior optical quality for the most extreme conditions.

Product Details

- Shield Material: Polycarbonate
- Handles Material: Polymer Alloy with steel inserts
- Weight: 4 lbs.
- 24" round with a formed radius
- Spec: USA Departmental Specification
- Thickness is .25 inches
- Color: Clear

ARREST SHIELD **Designed for cell extraction and capture applications in close quarters.**

The Arrest Shield is a hand held capture shield with ergonomic features. The strong double handles allow a firm grip under various conditions. The handles are dielectric to prevent electrical pass through. This product is unique as the design allows two people to grip with both hands on each handle, when extra holding power is needed. The shield has superior optical quality and workmanship.

Product Details

- Shield Material: Polycarbonate
- Handles Material: Polymer Alloy with steel inserts
- Weight: 6 lbs.
- Two sizes: 20"x36" and 24"x48" with a formed radius
- Spec: USA Departmental Specification
- Thickness is 0.25 inches
- Color: Clear

MEDIATOR SHIELD **Police, Sheriff, National Guard, University Police, Riot Squad, or Jail personnel.**

The Mediator is a hand held body shield with ergonomic features. The ergonomic handle allows two handed use for extreme circumstances. The handle and breakaway strap are dielectric to prevent electrical pass through and can be reversed for left or right hand use. The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship.

Product Details

- Shield Material: Polycarbonate
- Handles Material: Polymer Alloy with steel inserts
- Weight: 8.5 lbs.
- Two sizes: 20"x36" and 24"x48" with a formed radius
- Spec: USA Departmental Specification
- Thickness is 0.25 inches
- Color: Clear
- Options: Machete Edge Protector
Steel lined polymer lip that protects the entire edge of the shield from edged weapons, or hard object strikes.

HOPLITE

Designed for immediate active shooter response, this exceptionally lightweight shield provides the ultimate combination of high performance protection, optimal functionality and usability.

LEVEL IIIA

FEATURES

- Tested to Federal Standard NIJ-STD-0108.01 Level IIIA
- Shield construction available in flat or curved shape
- Designed for maximum defensive capability
- Durable Polyurea coating
- Unique Forearm Strap attachment system
- Weight of the shield system w/ optional features does not exceed 19 lbs.
- Shield body thickness is .3"
- Reinforced Bolt system for added protection

OPTIONS

- 900 lumens Light kit
- Viewport – Constructed of 1" thick polycarbonate that provides a viewable area while maintaining Level IIIA protection
- Flat viewport has a viewable area of 8" x 2.75"
- Curved viewport has a viewable area of 12" x 3"

Description	Weight (lbs.)
20X30 FLAT	9.8 lbs.
20X30 FLAT W/VP	13.1 lbs.
20X30 FLAT W/VP, W/LT	15.1 lbs.
20X30 CURVED	9.9 lbs.
20X30 CURVED W/VP	13.3 lbs.
20X30 CURVED W/VP, W/LT	15 lbs.
24X36 FLAT	13.5 lbs.
24X36 FLAT W/VP	15.6 lbs.
24X36 FLAT W/VP, W/LT	17.6 lbs.
24X36 CURVED	14.6 lbs.
24X36 CURVED W/VP	16.5 lbs.
24X36 CURVED W/VP, W/LT	18.22 lbs.

BELLATOR

The Bellator Shield is specially designed to meet the demanding needs of high-risk tactical teams. Providing greater vertical protective coverage and a dynamic shape for long gun deployment, the Bellator offers the perfect combination of protection and performance.

LEVEL IIIA+

FEATURES

- Level IIIA+ protection
- Federal Standard NIJ-STD
- Accurate long-gun deployment
- Ballistic Material - Hybrid composite
- Polyurea coating for enhanced durability and longevity
- 24" x 36" with viewport weighs only 14.40 lbs.
- Lightweight 24" x 40" with viewport weighs only 16.10 lbs.
- Mitigates ricochets when deployed on the ground
- Unique Hook and Loop forearm strap attachment system
- Thick high density foam pad 11" x 7" x 1.5"
- Silhouette shape provides firearms deployment on both shoulders
- Better peripheral view
- Stationary handle

Special Threats Rounds Tested:

- 9mm Fiocchi, 115-grain FMJ projectiles.
- 9mm, 124-grain full metal jacketed (FMJ) projectiles.
- .357 SIG 115-grain jacketed hollow point (JHP) projectiles.
- .357 SIG 125-grain gold dot hollow point (GDHP) projectiles.
- 44-mag., 240-grain semi-wadcutter gas checked (SWCGC) projectiles
- 9mm +P+, 127-grain supreme expansion technology (SXT) projectiles.
- 5.7 x 28mm 27-grain SS195 lead free hollow point (LFHP) projectiles.
- 5.7 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles.
- 7.62 x 25mm, 95-grain TOKAREV FMJ projectiles.
- .40 cal., 95-grain Aguila projectiles

OPTIONS

- LED light with strobe (900 lumens)
- Transport Bag

24" x 40"

PHALANX

LEVEL IIIA+

The Phalanx is considered the most agile Level IIIA+ shield for hand gun and long gun deployment. A wide, trapezoid shaped viewport provides excellent viewing capabilities while the mounted platform on each side allows the operator to position their weapon for optimum firing position.

FEATURES

- Level IIIA+ protection
- 100% bottless system
- More functional view port
- Polyurea coating for enhanced durability and longevity
- Lightweight (26" x 36" with viewport) is only 20 lbs.
- Best agile performing shield for handgun and rifle deployment
- Wider ballistic protection at top
- V-shape added strength to the entire center length of the shield
- Weapon mount platform on both sides
- Better view at 12 o'clock and conversely when held inverted 6 o'clock position
- Mitigates ricochets and diverts away from center
- Unique Hook and Loop forearm strap attachment system
- Thick high density foam pad
- Accurate handgun and long-gun deployment
- Stationary handle

Special Threats Rounds Tested:

- Level IIIA+ 44mag, 240-grain Semi- wadcutter Gas Checked (SWCGC) projectiles.
- 9mm, 124 grain Full Metal Jacketed (FMJ) projectiles.
- .357 SIG 115 grain Jacketed Hollow Point (JHP) projectiles.
- .357 SIG 125 grain Gold Dot Hollow Point (GDHP) projectiles.
- 9mm +P+, 127 grain Supreme Expansion Technology (SXT) projectiles.
- 5.72 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles.
- 5.7 x 28mm 27grain SS195 Lead free Hollow Point (LFHP) projectiles.
- 7.62 x 25-mm, 95grain TOKAREV FMJ projectiles.
- 9mm Fiocchi, 115 grain FMJ projectiles.
- .40 cal., 95 grain Aguila projectiles

Outside

Inside

OPTIONS

- With or Without View Port
- LED light with strobe (450 lumens)
- Transport Bag

Technical Specifications:

- Federal Standard NIJ-STD
- View port (Trapezoid Shape)
- Ballistic material - hybrid composite
- Must come w/ 3 components: Handle, foam pad, and forearm strap system

Standard Phalanx Model

All models, data and specifications are subject to modification by manufacturer without notice.

ASPIS

LEVEL IIIA+

The ASPIS Shield is ideal for quick deployment in tight quarters. Exceptionally lightweight, this high performing Level IIIA+ shield delivers optimal protective coverage with enhanced maneuverability for left or right handed operators.

FEATURES

- Level IIIA+ protection
- Federal Standard NIJ-STD
- Accurate long-gun deployment
- Ballistic Material - Hybrid composite
- Polyurea coating for enhanced durability and longevity
- 20"x 30" with lights weighs only 15.75 lbs.
- 20"x30" without lights weighs only 14.00 lbs.
- 20"x30" without viewport weighs only 11.50 lbs.
- Mitigates ricochets when deployed on the ground
- Unique Hook and Loop forearm strap attachment system
- Thick high density foam pad 7"x7"x 1.5"
- Silhouette shape provides firearms deployment on both shoulders
- Better peripheral view
- Stationary handle

Technical Specifications:

- Federal Standard NIJ-STD
- Ballistic Material - Hybrid composite
- Must come with 3 components:
Handle, Foam Pad and Forearm strap system
- View Port - (Trapezoid Shape)

Special Threats Rounds Tested:

- 9mm Fiocchi, 115-grain (FMJ) projectiles
- 9mm, 124-grain full metal jacketed (FMJ) projectiles
- .357 SIG 115-grain jacketed hollow point (JHP) projectiles
- .357 SIG 125-grain gold dot hollow point (GDHP) projectiles
- 44-mag., 240-grain semi-wadcutter gas checked (SWCGC) projectiles
- 9mm +P+, 127-grain supreme expansion technology (SXT) projectiles
- 5.7 x 28mm 27-grain SS195 lead free hollow point (LFHP) projectiles
- 5.7 x 28mm 40-grain Hornady V-Max (Blue Tip) projectiles
- 7.62 x 25mm, 95-grain TOKAREV (FMJ) projectiles
- .40 cal., 95-grain Aguila projectiles

OPTIONS

- With or Without View Port
- LED light with strobe (450 lumens)
- Transport Bag

All models, data and specifications are subject to modification by manufacturer without notice.

ASPIS X

LEVEL III

The ASPIS X Shield provides superior maneuverability for handgun and long gun deployment. Available in Level III protection, the ASPIS X delivers high performance protection and optimal functionality.

FEATURES

- Lightweight (20" x 30" standard class)
- Best agile performing shield for handgun deployment
- 3" x 9" Reinforced Viewport
- Weapon Mount System (WMS)
- Two shooting platforms for accurate handgun and long-gun deployment
- 3 important components offered on the interior of the shield
 - Stationary handle
 - Thick high density foam pad
 - Unique Hook and Loop forearm strap attachment system

Special Threats Rounds Tested:

- 7.62 x 39-mm, 123-grain PS Ball
- 7.62 x 51mm 149gr M80
- 5.56 x 45-mm, 55-grain M193 Ball

Weights:

- With Light with Viewport: 17.9 lbs.
- With Light without Viewport: 13 lbs.
- Without Light with Viewport: 17 lbs.
- Without Light without Viewport: 12 lbs.

Technical Specifications:

- Federal Standard NIJ-0108.01
- Ballistic Material - Hybrid composite
- Weight of the shield not to exceed 18 lbs
- View Port Reinforced on all edges for added protection
- Must come w/ 3 components: Handle, Foam Pad, and Forearm strap system
- Reinforced Bolt System for added protection
- Recessed Viewport to provide additional protection against Abrasive contact

OPTIONS

- With or Without View Port
- LED light with strobe (900 lumens)
- Transport Bag

- LED light with strobe (450 lumens)
- Transport Bag

TRIFECTA X

This high-performance shield has been both internally and externally validated to ballistic performance levels that meet the requirements—NIJ Level III plus.

LEVEL III+

FEATURES

- Level III+ Protection
- Components offered on the interior of the shield:
 - Stationary handle
 - Thick high density foam pad
 - Unique hook/loop fastener forearm strap attachment system

Special Threats Rounds Tested:

- 7.62 x 51-mm, 149-grain M80 FMJ
- 7.62 x 39-mm, 123-grain PS Ball
- 5.56 x 45-mm, 62-grain M855
- 5.56 x 45-mm, 62 grain Tactical Bonded

Technical Specifications:

- Federal Standard NIJ-STD-0108.01 Level III Compliant
- Ballistic Material - Hybrid Composite
- Size is 21" x 36"
- Weight with Viewport and light is less than 35 lbs.
- Viewport - 3" x 9"

OPTIONS

- LED light with strobe
- Transport Bag

BATONS

ALPHA-LOCK

The Alpha Locking Baton offers an increased diameter construction for more effective street performance. It has a higher kinetic energy potential and greater feeling of balance in the hand.

Features:

- The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Closes with a push of a button – no need to strike the baton on the ground
- Increased diameter compared to the standard Auto-Locking baton
- Rotating shafts help maintain control of the baton during a struggle
- Open passively or in a high-profile manner

21" Expandable Automatic Locking Baton
Product Details

- Open – 21"
- Closed – 8.750"
- Handle Diameter – 1.085"
- Middle Tube Diameter – 0.755"
- Small Tube Diameter – 0.550"
- Material – 4130 Seamless Steel
- Finish – Black Chrome
- Weight – 23.2 oz.

FRICTION LOCK

The Friction Lock Baton is a durable three-stage telescopic collapsible baton. It has an adjustable retention clip within a barrel bore guide, which eliminates clip breakage during closing. This baton is comfortable to carry and easy to open with a flick of the wrist.

Features:

- Basic Foam Grip – for a more traditional feel, a sure grip, and cushioning against shock
- Super-Grip – a fluted surface texture that enhances control and retention
- Safety Tip – crafted of urethane that allows passive drawing of the baton, useful for turning a suspect's pockets inside out without the risk of injury from needles, knives, or other sharp objects

21" Friction Lock
Foam Grip

- Finish – Black Chrome
- Open – 21"
- Closed – 8.750"
- Handle Diameter – 1.085"
- Middle Tube Diameter – 0.755"
- Small Tube Diameter – 0.550"
- Material – Steel 4130

26" Friction Lock
Foam Grip

- Finish – Black Chrome
- Open – 26"
- Closed – 10.375"
- Handle Diameter – 1.085"
- Middle Tube Diameter – 0.755"
- Small Tube Diameter – 0.550"
- Material – Steel 4130

ELITE SIDE HANDLE

This control baton has been engineered with safety in mind. The design has been field tested and has been found to be highly effective for blocking, controlling, and striking.

Features:

- The locking mechanism ensures the baton will stay locked open while striking, blocking or jabbing
- Closes with a push of a button – no need to strike the baton on the ground
- Increased diameter compared to the standard Auto-Locking baton
- Open passively or in a high-profile manner
- Rotating shafts help maintain control of the baton during a struggle

21" Side Handle Expandable Baton
Product Details

- OD Frame – 1"
- Shaft – 0.6875"
- Open – 21"
- Closed – 13"
- Finish – Black Hardcoat Anodized Coating
- Material – 6061 Aluminum 7075 Aluminum Shaft

BATONS

NYLON STRAIGHT BATON

This durable baton is made of a weather resistant material that will not crack or peel. In addition, it is strong, lightweight, and affordable. It can be used with all standard baton techniques, tactics, and training programs.

Model	Length Closed	Diameter	Grip
24" Riot Baton	24" (60.96cm)	1" (2.54cm)	Nylon Foam
26" Riot Baton	26" (66.04cm)	1" (2.54cm)	Nylon Foam
36" Riot Baton	36" (91.44cm)	1¼"(3.18cm)	Nylon Two Knurl
36" Riot Baton with Ball	36" (91.44cm)	1¼"(3.18cm)	Nylon Two Knurl

POLYCARBONATE STRAIGHT BATON

These durable batons are made out of a weather resistant material, which makes it stronger than conventional batons and will not crack or peel. In addition, these batons are affordable and can be used with all standard baton techniques, tactics or training programs.

Model	Length Closed	Diameter	Grip
24" Riot Baton	24" (60.96cm)	1" (2.54cm)	Foam Grip
26" Riot Baton	26" (66.04cm)	1" (2.54cm)	Foam Grip
24" Riot Baton	24" (60.96cm)	1¼"(3.18cm)	Foam Grip
36" Riot Baton	36" (91.44cm)	1¼"(3.18cm)	Two Knurl-Grips
36" Riot Baton with Ball	36" (91.44cm)	1¼"(3.18cm)	Two Knurl-Grips

Officers trust PACA's line of concealable and corrections body armor because they know they don't have to compromise comfort for performance. As street threats increase in number and capacity, our experts in the Point Blank Enterprises' Technology and Testing Center are continuously testing and evaluating new advancements in ballistic technology to produce vests which not only offer superior protection but optimum comfort for daily wear. PACA is proud to stand at the forefront of this endeavor and will work diligently to communicate the importance of body armor, so that officers will always stay protected.

PACA's stringent manufacturing standards are one of the highest in the industry. Our body armor systems are specially designed to defeat specific threats and to suit personal needs for comfort and fit.

All of our ballistic, spike and multi-threat models are tested by National Institute of Justice (NIJ) approved independent laboratories and comply with NIJ Certification Standards. Remember, body armor is designed to be worn. F.B.I. statistics indicate that almost half of the officers slain each year might have survived had they been wearing lightweight, concealable, protective soft body armor. Your body armor cannot protect you against every threat you face.

Some specially designed Armor Piercing and Ultra-High-Velocity handgun ammunition may or may not be defeated by your soft body armor. For protection against rifle or long gun ammunition, hard armor plates must be worn in front of your soft armor panels. Always refer to the label on your ballistic panel to determine the protection level of your soft armor vest. There should be no expectation of bullet resistance in areas not covered by the ballistic element.

Remember, your vest is not bullet proof, but bullet resistant. However, it can help reduce the risk of fatal injury only if you wear it.
