

PATINA

Stone Cleaner / Conditioner

DESCRIPTION

PATINA is an all natural, biodegradable, highly concentrated cleaner/conditioner designed for daily cleaning and conditioning of all natural stone surfaces. PATINA is safe and easy to use on marble, granite, limestone, travertine, terrazzo, agglomerate, slate, unglazed ceramic, porcelain, terra cotta, saltillo and concrete. Regular use provides a dirt repellent barrier at the surface, prevents hard water damage, brings out the natural color and brilliance of the stone, and improves slip resistance on polished surfaces.

DIRECTIONS FOR USE

FOR DAMP MOPPING

Dilute PATINA at a dilution rate of 1 oz. per gallon with clean water for light traffic areas, 2-3 ounces per gallon for moderate to heavy traffic areas. Soak and wring mop and apply solution to the stone surface. Do not rinse or re-mop. Re-wet and wring mop often to avoid re-depositing dirt to the surface. Change the solution when it appears dirty. Best results will be achieved when buffed on polished surfaces. Using white polishing pad with any speed equipment, always buff after initial application of PATINA, then buff floor after every 4th application, depending upon traffic and surface appearance. NOTE: Best results are achieved when cotton mops are not used. Rayon blend mops are recommended. COVERAGE: 30,000 TO 40,000 sq. ft. (2,787 - 3,716 sq. meters) per gallon.

FOR AUTOMATIC SCRUBBERS

Dilute PATINA at the rate of 1 ounce per gallon. Adjust flow rate valve so that the solution wets the surface but does not flood surface. Pass the scrubber over the floor in a manner that does not re-apply the solution onto previously scrubbed areas. Drop but do not lock the vacuum squeegee and turn vacuum on. Use red or white buffing pad. Periodic intensive cleaning with SCS HURRICANE will remove any build up that may accrue with repeated use.

NOTE: De-foaming agents are not necessary when scrubbing with PATINA.

COVERAGE: 20,000 TO 30,000 sq. ft. (1,858 - 2,787 sq. meters) per gallon.
