THE NEW CONCEPT IN FURNITURE:

ULTIMATE, HIGH-END PERFORMANCE AT AN AFFORDABLE PRICE.

Premiere series comes out in style, with a fresh compliment of enhancements and styling cues. There are more elegant lines and a smart appearance, highlighted by a unique mix of all the most modern and advanced materials made in North America. Including our well-regarded and admired laminate-surface collection, proprietary designs in crafted aluminum accents, limitless selection of painted glass, and unique integration of textiles components.

The eye-catching bold design matched with finessed trim accents including a wealth of fabric choices now also featured on the wall-mounted and under-surface modesty panels, enhances the design value of your suite. But the choices do not end there.... Consider new post-leg designs. Look deeper, there are now more changes beneath the surface. New disk and square steel post legs, in silver or black, follow styling cues of surface shapes. And the new laminate box leg is elegantly trimmed at the base for a finished look. Add color and texture with fabrics on tack boards... and now on modesty panels. Best of all, no matter how you build your office, your environment will acquire a personalized feel. Discover the combination that speaks to you.

New, slim-line metal-frame cabinet doors frame a striking array of clear, frosted or painted glass. A highly visual manifestation of enhanced and personalized design. The total effect is empowering. How about painted glass, available in many standard colors including white, graphite & black on metal or design your suite with classic laminate framed clear glass cabinet doors.

What you'll notice first is the clean lines and inherent harmony of the design: uncluttered, elegant cabinet fronts and neatly arranged pulls meet best-in-class material and top workmanship. The overall feeling is that you have arrived in the right office. Later you will notice that the design is not only attractive, it is also extremely functional: everything is designed for typical Three H high performance. The shared office should also be functional... but why not pleasing too.
