STORAGE PEDESTAL

Pedestal storage units are intended specifically for use under desk products only (21"deep and up) and are not suitable for stand-alone use with a separate top.

Pedestal Storage units are shipped fully assembled.

Standard Cabinet Construction:

- 16 mm (5/8") laminate uprights
- 26 mm (1") laminate bottom inlayed between side uprights
- 16 mm (5/8") top 1/2 shelf, inlayed between sides (mobile pedestals use 16mm full top that overlays side uprights and back)
- 16 mm (5/8") laminate back,
- Open and door units include one 26mm (1") adjustable shelf
- Adjustable levelers/glides offer 3/4" of height adjustment

Door and drawer construction and slides:

- 16 mm (5/8") laminate doors and drawer fronts edgebanded with 1mm PVC
- Doors and drawers overlay cabinet uprights and top 1/2 shelf
- 16 mm (5/8") laminate drawer sides and 6mm MDF bottom
- Units with lateral file drawers include file bars
- All file drawers are 16" deep regardless of cabinet depth
- Box drawer depths vary with cabinet depth
- 24", 30" and 36"L lateral file drawers use full extension 150lb two tier ballbearing slides
- All other file and box drawers (regardless of drawer depth) use 45kg (100lb) telescopic ballbearing slides with 17" total extension
- Door and drawer locks are optional on all units and must be specified
- Standard grain direction on doors is vertical.
- Standard grain direction on drawer fronts is horizontal. Vertical grain matched option available.

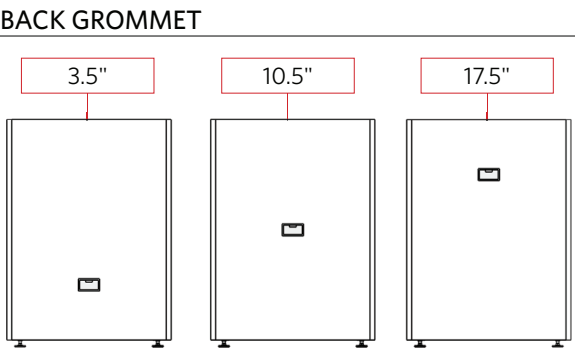

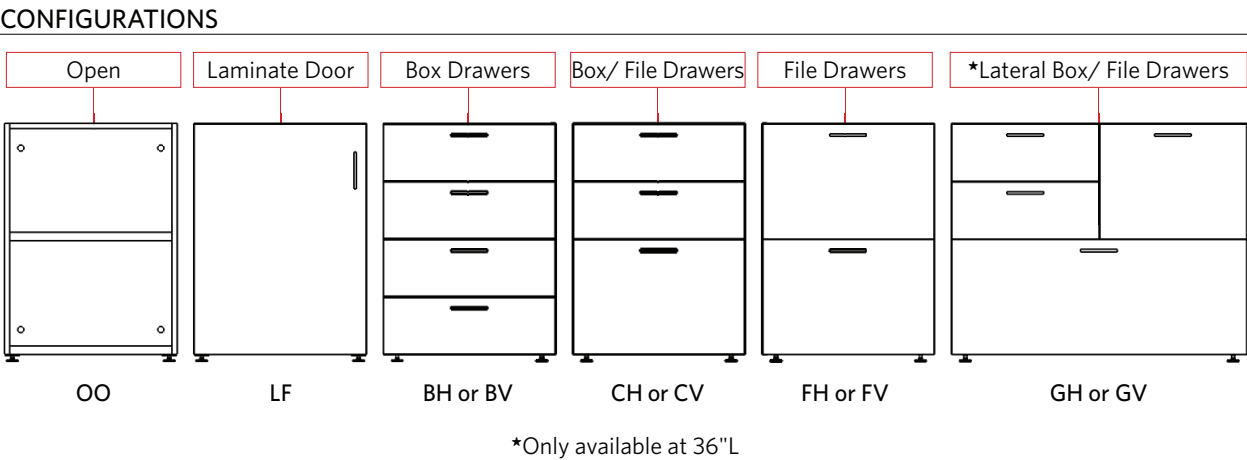

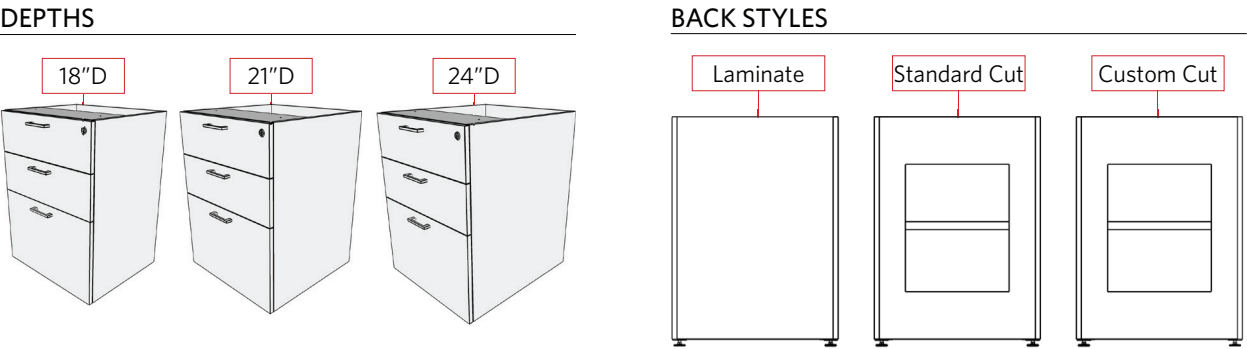

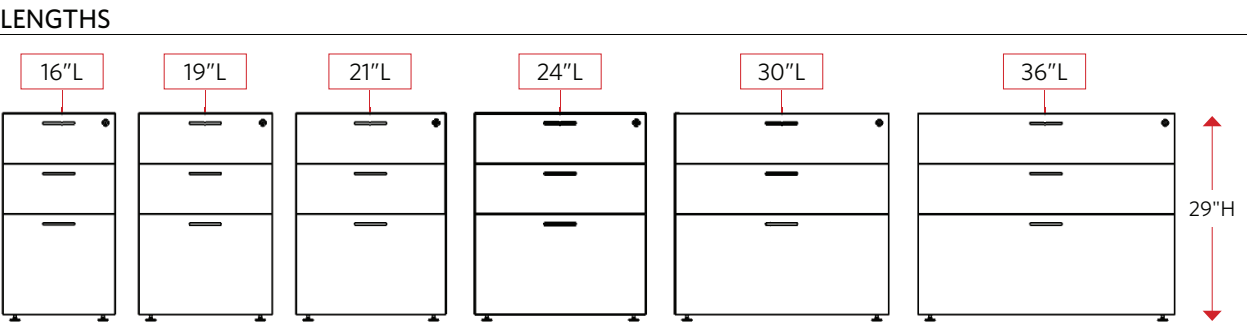

Mobile Pedestals:

- 28"H mobile pedestal fit below all premiere desk products
- 24"H mobile pedestals are available with an optional seat cushion. Upholstry rated fabrics must be specified on seat cushions.
- 2 locking front casters are provided along with an additional center casters on bottom drawers to reduce tipping risk

Installation:

Pedestals must be fastened to the underside of the desk top.
Typically door/drawer fronts are align with the front edge of desk panel legs.

Some applications of large lateral file pedestals in smaller depth (21" and 24"d) stand-alone straight desk shells (applications with no attached return desk or desk hutch) may require use of 28" h credenza cabinets and/or additional counterweight to meet industry standard stability requirements.

Pedestals are intended for use only under desk products. Not suitable for use under a Common Top.

MOBILE PEDESTAL

Pedestal storage units are intended specifically for use under desk products only (21”deep and up) and are not suitable for stand-alone use with a separate top.

Pedestal Storage units are shipped fully assembled.

Standard Cabinet Construction:

- 16 mm (5/8”) laminate uprights
- 26 mm (1”) laminate bottom inlayed between side uprights
- 16 mm (5/8”) top 1/2 shelf, inlayed between sides (mobile pedestals use 16mm full top that overlays side uprights and back)
- 16 mm (5/8”) laminate back,
- Open and door units include one 26mm (1”) adjustable shelf
- Adjustable levelers/glides offer 3/4” of height adjustment

Door and drawer construction and slides:

- 16 mm (5/8”) laminate doors and drawer fronts edgebanded with 1mm PVC
- Doors and drawers overlay cabinet uprights and top 1/2 shelf
- 16 mm (5/8”) laminate drawer sides and 6mm MDF bottom
- Units with lateral file drawers include file bars
- All file drawers are 16” deep regardless of cabinet depth
- Box drawer depths vary with cabinet depth
- 24”, 30” and 36”L lateral file drawers use full extension 150lb two tier ballbearing slides
- All other file and box drawers (regardless of drawer depth) use 45kg (100lb) telescopic ballbearing slides with 17” total extension
- Door and drawer locks are optional on all units and must be specified
- Standard grain direction on doors is vertical.
- Standard grain direction on drawer fronts is horizontal. Vertical grain matched option available.

Mobile Pedestals:

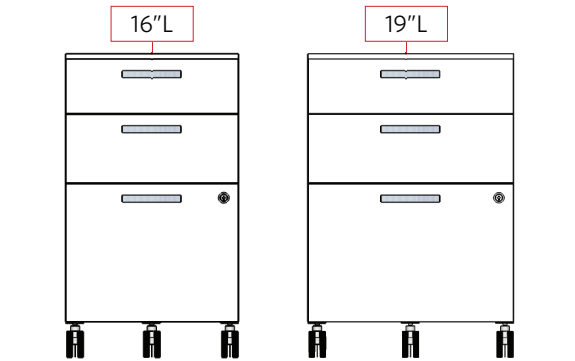

- 28”H mobile pedestal fit below all premiere desk products
- 24”H mobile pedestals are available with an optional seat cushion. Upholstry rated fabrics must be specified on seat cushions.
- 2 locking front casters are provided along with an additional center casters on bottom drawers to reduce tipping risk

Installation:

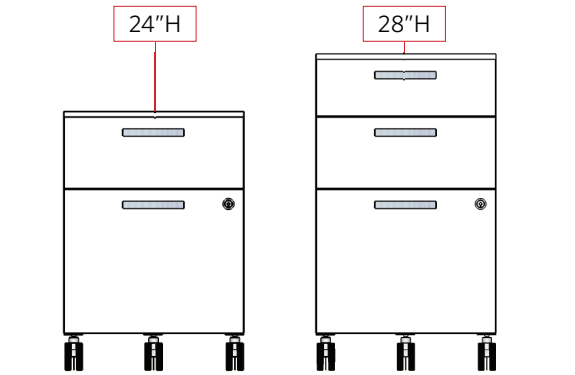

Pedestals must be fastened to the underside of the desk top.
Typically door/drawer fronts are align with the front edge of desk panel legs.

Some applications of large lateral file pedestals in smaller depth (21” and 24”d) stand-alone straight desk shells (applications with no attached return desk or desk hutch) may require use of 28” h credenza cabinets and/or additional counterweight to meet industry standard stability requirements.

STORAGE STACKERS

STORAGE STACK SPECIFICATIONS

Stacking storage cabinets are shipped fully assembled. Units are intended for use on worksurfaces and tops with below surface support or cabinets.

Dimensions

Nominal height and length generally represent actual unit height and length.

Actual unit depth (without doors): outside=14.25" | inside=13.58"

Minor dimension variations may exist in some models. Contact customer service if application dimensions are critical.

Standard Storage Stacker Cabinet Construction:

- 16 mm (5/8") laminate uprights
- 16 mm (5/8") laminate bottom shelf
- 16 mm (5/8") top Top shelf
- 26 mm (1") adjustable shelves
- Available 1" finished top* (adds 1" to unit height)

*Finished Tops

26mm (1") Finished tops are ordered separately to match an individual hutch lengths.

Standard trim is 1mm PVC self edge. Optional trim profiles include, 3 mm PVC or 3mm Prestige wood, solid wood bullnose or Wavecrest edge.

Optional trim profiles can be applied to hutch top front and sides, although standard pricing is for front edge only. See front edge overhang detail specified below.

Doors

- 16 mm (5/8") laminate doors edgebanded with 1mm PVC
- Doors and drawers overlay stacker uprights and top shelf
- Aluminum framed glass doors available in frosted or painted glass
- Door locks are optional on laminate doors only and must be specified
- Standard grain direction on doors is vertical.

Specification and Installation - see drawings

Stacking storage cabinets are fastened to worksurface or storage top using two wood screws (provided). Units must be attached and are not suitable for freestanding (unconnected) use.

Stacking storage MUST be positioned directly over desk legs (full or recessed) or over worksurfaces directly supported by pedestal or credenza storage. Unsupported lengths up to 18" adjacent to a desk leg are acceptable but may cause some deflection of worksurface when loaded.

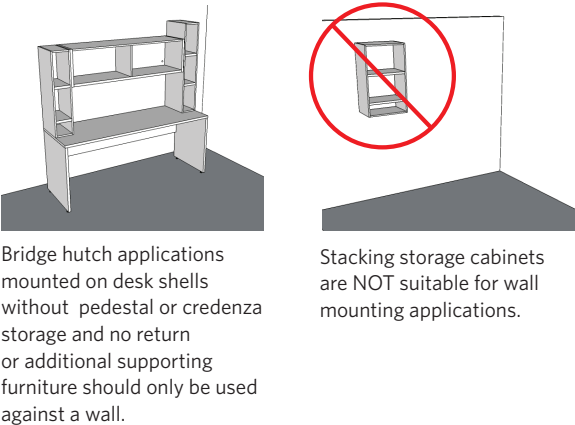

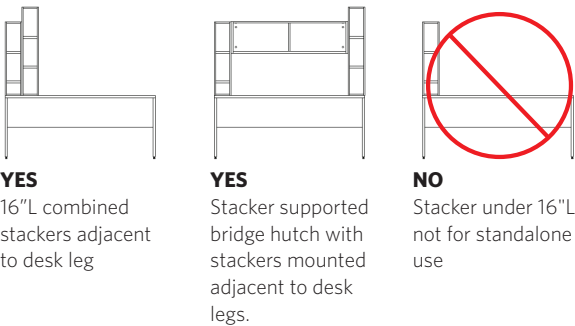

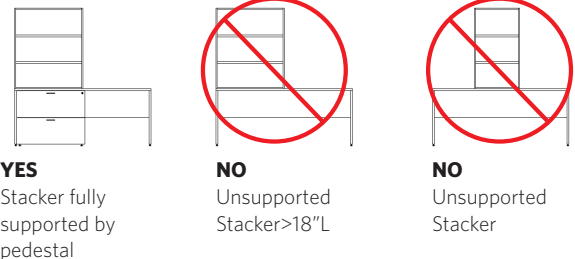

8" and 12" Lengths are not suitable for stand-alone use and must be used in combination to achieve a minium length of 16" or can be used individually as a bridge hutch support.

Stacking storage units can be used to support bridge hutches at one or both sides of hutch.

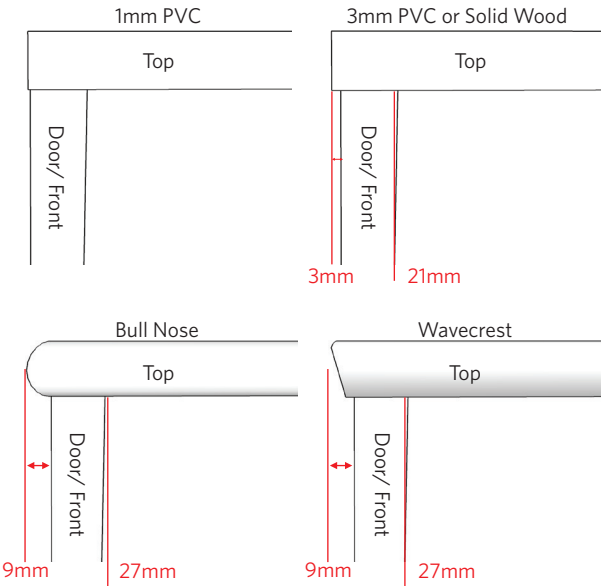

Stacker supported bridge hutches mounted on stand-alone straight desk shells (configurations without a below desk mounted pedestal and without a return desk or other stabilizing components) may not meet industry standard stability requirements and should only be used against a wall.

Stacking storage cabinets are NOT suitable for wall mounting applications.
