

# Booths

It's just a fact: comfortable, durable soft seating makes any space a bit more special and inviting.

Mercury. Jupiter. Titan. Venus. Our booths are a blank canvas for you to apply your creativity with color, stain, laminate and fabrics. Any shape or height, any leg or base type, any tufting style you want, with optional Partitions to create privacy and absorb noise. Constellation--our modular booth--works in any dining, multipurpose, or collaborative environment.

All standard and custom models are intensely engineered to last for the duration of our 10-year warranty and beyond.

# Constellation Series Modular Booths

You can now blend your dining, lounge and working areas into one unique multitasking environment with the versatile Constellation Series. Each distinct piece works together so you can reconfigure over and over again as your seating needs evolve. Utilize our standard shapes to create the space that suits you best. You can also select some of our predesigned configurations.

# Booth Construction

Our superior booth engineering ensures a supportive, firm, comfortable booth seat from day 1 to day 3,000--and beyond. You'll feel the difference.

1. Fabric or vinyl surface
2. Polypropylene fiber batting
3. Poly foam
4. Cloth layer
5. Pressboard over solid wood frame
6. Links tie the springs together laterally so they act as a group, giving uniform resistance
7. No Sag Springs® are spaced at tight intervals, creating a firm, non-sagging seat
8. Flex-O-Lator® creates another soft structural layer to transfer weight more evenly to the springs
9. Kiln dried 7/8" hardwood is used for its unmatched strength. Where other booth makers use particleboard, we use solid poplar
10. Helical coils are set on the ends of the booth to ensure more support in the areas that get the most use
11. Corner bracing, made from solid poplar, is glued & nailed in place to give the frame an added layer of rigidity
12. Thick black vinyl is used on the base to resist daily wear, durable metal or wood legs are optional upgrades

# Booth Space Planning

The illustration below shows how all the different types of booths can work together in your dining area. This example uses 30" wide tops, a common size for most applications. The table top overhangs the front of the booth seat by 2". The depth of our double booths is 48" except for the Venus Booth which is 45". If you were to use a top with a different width, you would need to adjust the numbers below accordingly.
