TERMS OF SALE

Ordering

Appenx, Inc. requires all purchase orders to be faxed, mailed or electronically transmitted to avoid errors or duplication. Orders confirmed in the mail must be clearly marked "confirming, do not duplicate". We will be happy to accept a verbal request for samples only. There is no minimum order requirement. Whenever possible do not transcribe names to the purchase order; include the customers original list of names with the purchase order. Appenx does acknowledge orders if requested and will welcome your call on our toll free number to check on an order, verify a ship date or trace a shipment.

Pricing

U.S. - All prices are list prices F.O.B. Origin (see *Shipping*)
CANADA - All prices are list prices F.O.B. origin Delivered Duty Unpaid (DDU), see *Shipping*, and do not include taxes, special delivery or installation charges. Canadian invoices are in U.S. Dollars.

FOREIGN - All prices are USD list prices exworks Appenx, Inc., Holland, Michigan (see *Shipping*) and do not include any duty, taxes, special packaging, special delivery or installation charges.

All prices subject to change without notice.

Installation and Programming

Please call us for Wayfinding and Installation quotes. Wayfinding includes initial design specifications, budgeting, planning, finish specifications, ADA requirements and scheduling.

Payment Terms

Payment is normally due within 30 days of the date of the Invoice for approved credit accounts. Terms that differ from our norm will be stated on our invoice. New accounts may be required to send a deposit with a purchase order and/or submit a minimum of three credit trade references with a bank account number for credit check. Allow two to three weeks for processing and approval.

Shipping

DOMESTIC- All shipments within the continental United States are sent F.O.B. origin ground service (Fedex/UPS).
CANADA - All shipments to Canada are sent ground service (UPS) through a broker of record.

FOREIGN - All shipments are normally sent (Fedex/UPS) International Expedited door-to-door service unless specified otherwise by the customer.

We cannot ship to a PO Box by Fedex/UPS ground service.

Quotes and Service

Our Sales/Service Representatives will provide graphic specification sheets and quotations based on your criteria. They are eager to assist you with any questions and can work closely with you in specifying and pricing our products. They will work on your behalf to assure prompt shipment and delivery.

Damage Claims

All goods are carefully packaged for shipment, but there is still the possibility of in-transit damage. It is very important to examine all cartons for apparent damage at the time they arrive. Since all shipments are F.O.B. Origin (customer pays freight), claims for damage, concealed or otherwise, are the responsibility of the customer and must be filed with the carrier within five days from the receipt of the merchandise. Do not completely unpack merchandise. Keep the damaged merchandise and carton with packaging until the carrier makes an official inspection.

PLEASE EXAMINE ALL MERCHANDISE CAREFULLY AS SOON AS YOU RECEIVE IT.

Shortages

All claims for shortages must be made in writing within ten business days of receipt of order. No claims will be allowed thereafter.

Returns, Cancellations or Changes

No merchandise may be returned or canceled without our approval, return authorization number and packaging/shipping instructions. Authorized cancellations or returns are subject to a 25% charge. Unauthorized returns will not be accepted and will be returned freight collect. Replacement product is accessed a 5% shipping/handling fee if Appenx is not at fault. "Dash" service orders and maintenance orders are shipped within 48 hours from the time we receive them and are not subject to change or cancellation. A purchase order is final and binding; any changes to an order received and entered must be in writing and are subject to our approval.

Sign Maintenance

Appenx has a bulk maintenance program called "DRAW-DOWN ACCOUNT" that minimizes the ordering and shipping cost to maintain your installed facility signs. Please call our Sales/Service 1-800-443-6032 for details.

Custom Product / Specials

Appenx, Inc. will not inventory finished parts or special colored materials to maintain custom or special products unless specific arrangements have been made with us.

Warranty

Appenx, Inc. warrants its products to be free from defects in material and workmanship from the date of shipment for a period of one year, when the products are installed and used in accordance with the company's published instructions. The Company's obligation and the purchaser's remedy pursuant to the foregoing warranty are limited as follows: to repair or replace, at the Company's option, products which prove to be defective within the warranty period. The Company may request the return of the defective product. Replacement or repaired product will be returned to the purchaser at the Company's expense. Purchasers may be required to establish that the product was installed according to the Company's specifications and that the claim is within the warranty period by producing the invoice for the product or such other evidence as may be reasonably satisfactory to the Company.

Extended Warranty: Appenx, Inc. Warrants the face surface of its Modular Outsert ADA/Tactile tiles not to peel, crack, wear or fade for the life of the product when the products are installed and used in accordance with the Company's published instructions. This warranty is specifically for and limited to the Outsert Aluminum Group, Tactile tiles (A, B, Y & Z series, Aluminum Module, signs; does not include G-Series ADA signs). The Company's obligation and the purchaser's remedy pursuant to the foregoing warranty are limited as follows: to repair or replace, at the Company's option, the tactile tile for the cost of our published, minimum order shipping charge.

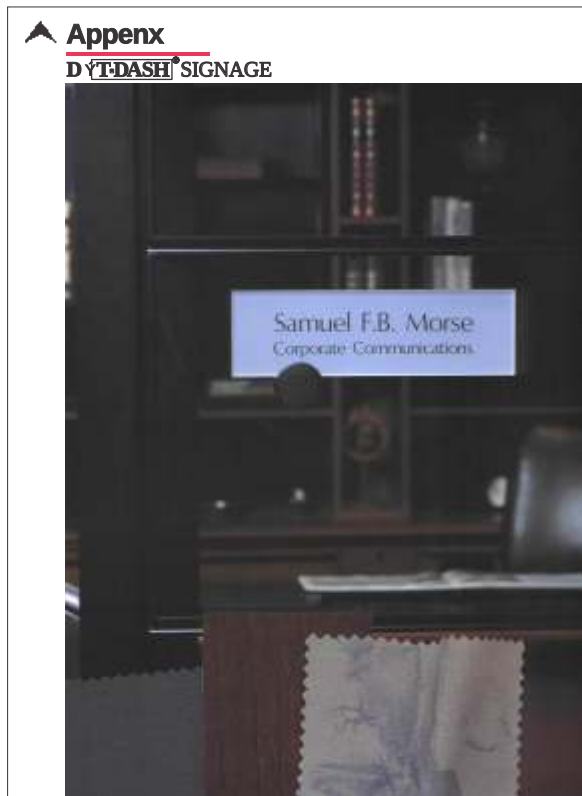

The Company will not be held liable for the removal or the installation of the tile(s) under this warranty.

Send to: Appenx, Inc.
Attn: Extended Warranty Dept.
1730 Lincoln Ave.
Holland, MI 49423

THERE ARE NO OTHER WARRANTIES EXCEPT AS EXPRESSLY SET FORTH ABOVE, EITHER EXPRESSED OR IMPLIED.

DOT DASH[®] SIGNAGE

Dot-Dash Signage was developed as an ideal Signage solution for office cubicles with spin-off applications for private offices and conference rooms.

Outsert Signage (included in this product manual) complements Dot-Dash Signage for all other interior Signage applications.

Refer to the product brochure shown to the left for full color representations of the product and detailed information of the options available.

This product binder includes specification sheets and detailed information about the sizes, configurations and mounting options.

Refer to the Appenx web site appenx.com for installation instructions, user friendly templates, and other useful information.

OUTSERT® SIGNAGE

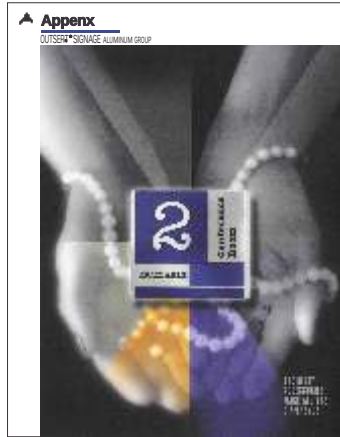

(MODULAR)

Outsert Signage complements Dot-Dash Signage or can be a single solution for all Interior Signage applications

Refer to the product brochures shown to the left for full color representations of the product and detailed information of the options available.

This section of the Appenx product binder includes specification sheets and detailed information about the sizes, configurations and mounting options.

Refer to the Appenx web site appenx.com for installation instructions, user friendly templates, and other useful information.

Orders for Outsert Signage (modular) must include a minimum of (2) two line items - one for the basic sign and one for the end caps/side kicks. Additional line items may be necessary for some mounting options, special tiles (tactile tiles, second surface tiles, etc.) and other accessories/changes to the basic sign.

"A" series signs have all acrylic message tiles.
"B" series signs have one or more window tiles.

All product numbers and pricing is based on Appenx standard; second surface color and slide-in tiles.

Other options are:

First Surface Color: Use prefix A5 for hard tile signs and B5 for window signs as the start of the product number (e.g. A5001, B5003, etc.); no additional cost.

Magnetic Tile Signs: Use prefix A4 for hard tile signs and B4 for window signs as the start of the product number (e.g. A4001, B4003, etc.); Add \$4 list for each message tile of the sign.

ALUMINUM ACCENT/SEPARATOR STRIP / LIST PRICES-U.S.

Complete Product / qty of 1

Effective Aug 1, 2014
All prices FOB Origin

Horizontal Accent/Separator Strip offers a visual 1/8" separation generally between a header tile and the body of the sign. An accent strip must extend to the left and right edges of the sign and is offered in any of our standard trim colors. One horizontal accent strip adds 1/8" to the end caps/side kicks.

Vertical Accent/Separator Strips offer a visual and functional 1/16" separation between window tiles and is offered in any of our standard trim colors. If more than one vertical strip is specified for a sign, tiles must be magnetic.

Horizontal Strips-Top & Bottom (1/16") offer a visual and functional edge closure to the sign. Primarily intended to eliminate access to magnetic message tiles.

Horizontal Strips-Top & Bottom (1/8") offer a edge closure to the top and bottom of the sign. Offers a framing look to the sign.

OUTSERT® SIGNAGE PAPER BAR / LIST PRICES-U.S.

Complete Product / qty of 1

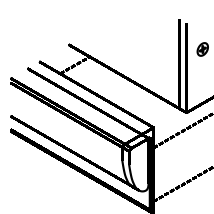

Effective Aug 1, 2014
All prices FOB Origin

Paper Bars for agendas, schedules, notices and drawings can be added at the bottom of any sign. Paper bars are 1" high. They can stand alone, be installed under existing signs (flush with the face surface of the message tiles) or be installed as the bottom tile of a sign. Offered in an etched aluminum with black, permanent end caps. Paper is released by pulling straight out or pulling from the side.

OUTSERT[®] SIGNAGE CUSTOM HEADER TILES / LIST PRICES-U.S.

Effective Aug 1, 2014
All prices FOB Origin

Header tiles are the top tile of any modular sign. These custom header tiles extend above the module assembly and are supported/backed with black acrylic for a thicker edge look at the top of the sign. Occupies the space of a 1" (minimum) or greater tile at the top of the sign. Any type of message (i.e. Vinyl lettering, raised letters and braille, etc) can be specified for these header tiles. Use rectangle (h x w) for calculating laminate surface area. Specify in addition to base product number.

OUTSERT[®] SIGNAGE FACINGS / LIST PRICES-U.S.

Facings are add-on design elements/tiles in various shapes, sizes and materials affixed to the face surface of standard tiles. Facings are normally used for top/header tiles and add dimension to the sign. They also add a raised surface area for a tactile message or a material/finish "splash" to a sign. Facings do not interfere with the functionality of the sign and can be maintained like any other message tile. Any type of message (i.e. Vinyl lettering, raised letters and braille, etc) specified for the standard tile will be transferred to the facing tile. NOTE: FAC90 should be specified for second surface facings only. Add \$.50 for each additional square inch if larger than standard sizes.

OUTSERT® SIGNS TACTILE SIGNS / LIST PRICES-U.S.

Effective Aug 1, 2014
All prices FOB Origin

The American with Disabilities Act is designed to assist people with disabilities by removing physical and communication barriers from public buildings. You need to comply with ADA anywhere the public has access to your facility.

Identify rooms and spaces defined by their function i.e. exits, stairwells, restrooms, elevators, etc. See the back side of this specification sheet for most commonly used signs for this purpose.

Signs must be mounted 60" above the floor to the center line of the plaque, and adjacent to the latch side of the door.

Appenx braille symbol signs meet or exceed ADA standards. Constructed with a mar-resistant, matte-finish acrylic face with letters raised 1/32" and Grade 2 Braille "Dots". Raised acrylic letters are embedded into the tile surface and the Braille Dots are clear, durable and blend in with the acrylic tile. Offered in eight (8) interior colors and two mounting options. The color portions of the sign include the bottom tile and raised symbol. Aluminum end caps offered with screws or locking clips. The end caps can be ordered in the symbol finish colors if specified at the time of order.

OUTSERT® SIGNAGE HEAVY DUTY FLOOR STAND FOR MODULAR SIGNS ORDER SPECIFICATIONS & LIST PRICES-U.S.

Effective Aug 1, 2014
All prices FOB Origin

FREE STANDING BASE

This base is for Modular Outsert signs with magnetic tiles. The sign facings on both sides are specified separately based on the width between the two uprights noted as "w" in this specification sheet. Uprights add 1-7/8" on each side. The thick metal bases can be bolted to the floor.

OUTSERT® SIGNAGE

(NON-MODULAR)

Note: the mountings and finishes found in the Outsert Modular brochure also apply to the Non-Modular signs

Outsert Signage complements Dot-Dash Signage or can be a single solution for all Interior Signage applications

The non-modular version of Outsert Signage uses an acrylic backer to replace the aluminum module assembly and is constructed with few, if any, removable parts. Refer to the product brochure shown to the left for full color representations of the product features and detailed information of the options available.

This section of the Appenx product binder includes specification sheets and detailed information about the sizes, configurations and mounting options.

Refer to the Appenx web site appenx.com for installation instructions, user friendly templates, and other useful information.

Orders for Outsert Signage (non-modular) requires one line item for the basic sign. Additional line items may be necessary for some mounting options, special tiles (tactile tiles, second surface tiles, etc.) and other accessories/changes to the basic sign .

OUTSERT® SIGNAGE TACTILE SIGNS / LIST PRICES-U.S.

Effective Aug 1, 2014
All prices FOB Origin

The American with Disabilities Act is designed to assist people with disabilities by removing physical and Communication barriers from public buildings. You need to comply with ADA anywhere the public has access to your facility.

Identify rooms and spaces defined by their function i.e. exits, stairwells, restrooms, elevators, etc.

Signs must be mounted 60" above the floor to the center line of the plaque, and adjacent to the latch side of the door.

Appenx ADA signs meet or exceed ADA standards. Constructed with a mar-resistant, matte-finish acrylic face with letters and symbols raised 1/32" and Grade 2 Braille "Dots". Acrylic letters and symbols are embedded into the tile surface and the Braille Dots are clear, durable and blend in with the acrylic tile. The bottom tile and symbol are offered in eight (8) interior colors. Tape mounted only.

Appenx

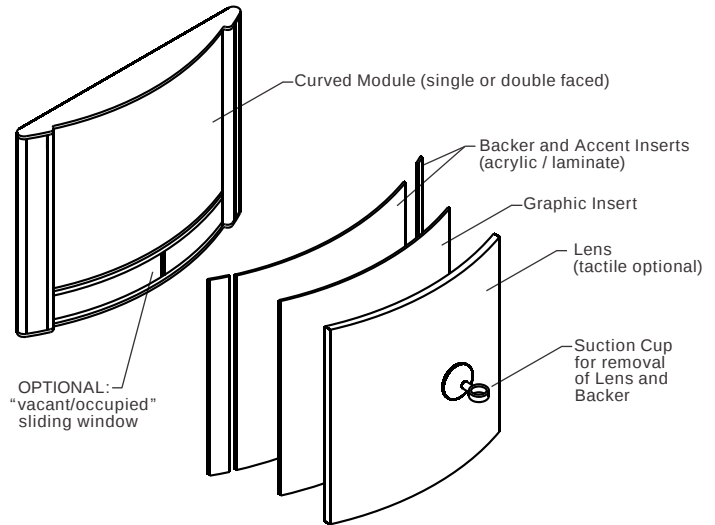

Xsite CURVED SURFACE SIGNAGE

Refer to the Appenx product binder for specification sheets and detailed information about the sizes, configurations and mounting options.

Refer to the Appenx web site appenx.com for installation instructions, user friendly templates, and other useful information.

Orders for Xsite signs must include a minimum of (2) two line items - one for the basic sign and one for the suction cup. Additional line items may be necessary for some mounting options, tactile lens, and other accessories /changes to the basic sign.

To Specify & Price:

See reference guide for size options

CURVED SURFACE SIGNAGE HEADER / BACKER PLATES / LIST PRICES - U.S.

Effective Aug 1, 2014
All prices FOB Origin

These custom flat header/backer plates can be mounted above or behind the sign depending on the size specified. Any type of message (i.e. Vinyl lettering, raised letters and braille, etc) can be added to the header plate. Use rectangle (h x w) for calculating laminate surface area. Add \$0.50 for each additional square inch if Larger than standard sizes. Specifications below are for a header tile mounted above the sign at the same width as the sign.

Complete Product / qty of 1
