Conditions of Sale

Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the “[Online Services](#)” section of our website, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

Modifications and/or Cancellations

You have 24 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 24-hour period. If you would like to modify or cancel your order after this 24-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

Liability

Logiflex’s liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

Claims

Logiflex recommends inspecting the shipment before signing the carrier’s delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture as soon as possible. Requests to replace damaged products can be made via the “[Online Services](#)” section of our website, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation.

Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

Storage and/or Shipping Fees

If you would like to delay the delivery of an order already in production at Logiflex, weekly storage fees may be charged. The suggested retail prices in this list may include delivery; however, some conditions may apply. If your order is a minimum of \$10,000 net, the order can be shipped directly to your customer. In this case, a 53-foot unloading dock must be available at the time of delivery. This information must first be validated with your Logiflex customer service representative. Direct shipping is subject to additional fees. Any delay experienced by Logiflex carriers during delivery may also result in additional charges.

Items Delivered Disassembled

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables. To order these items assembled, add a \$100 list price. Contact Customer Service for details.

Warranty

Logiflex guarantees to the original purchaser that Logiflex products are free from defects in design, materials and workmanship for the products' lifetime. Effective as of the date invoiced to the distributor, the warranty is valid only for products bought new from an authorized Logiflex distributor and as long as the original purchaser owns the products. The warranty period will be reduced proportionately if the products are used over a period exceeding the equivalent of a shift of 40 hours/week.

This warranty applies only to normal use of the product and is limited to the repair or replacement of said product at Logiflex's discretion. All replacement parts will be shipped to the original shipping address. Transportation and labor are not covered by this warranty. By accepting the product at its delivery, the buyer accepts these conditions.

Limited Lifetime Warranty: Access, Knockout, Level, Logilife, Manhattan, Millenium, Reception and Tables (Conference, Occasional, Multimedias)

5 Year Warranty: Academic, Soft Seating and Madrid

10 Year Warranty: Chairs

This warranty does not apply to defects or damages resulting from:

- Normal wear and tear occurring with the use of the product;
- Negligence, misuse, abuse or accident;
- Substitution, modification, transformation, repair, renovation or use of components or materials that have not been authorized by Logiflex;
- Renting to a third party;
- Natural properties of materials;
- For leather products: normal defects in leather such as: scars, marks or difference in stain within a leather skin or between different skins;
- Exposure to sunlight or environments with extreme temperature/humidity conditions;
- Damage caused by a carrier in transit, or delivery/ installation contractors.

This warranty does not include:

- Parts and materials supplied by the customer (COM);
- Special finishes applied to Logiflex products;
- The matching of colors, grains or textures of wood due to its natural properties;
- Non-standard Logiflex products;
- Logiflex product not installed or used in accordance with the Logiflex installation guidelines;
- Bulbs and ballasts.

Restrictions:

- 1 year warranty on electrical components and hardware;
- 5 year warranty on seat mechanisms, drawer slides and locks;
- 5 year warranty on urethane parts;
- 5 year warranty on upholstery and casters

Manufacturing Standards

Furniture Construction

- Desktops are 1-5/8" thick laminate;
- Legs are 1" thick laminate;
- Fronts, backs and modesties are 5/8" thick laminate.

Handles

Handles are included for all the Manhattan furniture items with fronts (Exception of hutches, for which handles are sold as options). For the other series, handles are included for the majority of furniture items with fronts (Exception of some pedestals and hutches, for which handles are sold as options). The standard handle style, when included, is HJAB (black). Please refer to the Logiflex handle selection in the [Accessories](#) section at the end of this price list.

Grommets

Grommets are included for some items such as D,P and REG tables, lateral, end, corner, extended-corner and arc tables, and returns. When grommets are included, the standard style is the ELPF grommet.

Locks

LKBL (black) locks are included for some items, such as pedestals, lateral file drawers, cabinets, wardrobes, combination units and credenzas. To specify a different type of lock, please refer to the [Accessories](#) section at the end of this price list to see the different models offered by Logiflex.

Pedestals

All drawers are made of black Medium density fiberboard (MDF) with an average thickness of 7/16". Type D, E and F pedestals include a black polyvinyl chloride (PVC) extrusion for easy finger grip operation (no handle).

Drawer Fronts

A PVC strip 2 mm thick is systematically applied along all drawer front edges.

Wood Grain

The wood grain is always vertical on fronts and furniture doors. Surfaces more than 96" are in two parts. Logiflex cannot guarantee that the wood grain will match up on the different parts of a same surface.

Hutches

All hutches have a grommet at the bottom and a round grommet at the back of the unit for light fixture wires.

Finishes

You must specify the desired finish(es) for each item of furniture ordered. Please make your selection(s) from the Logiflex chart.

Fabric

You must specify the fabric when the item so requires. Please make your selection(s) from the Logiflex chart.

Levelers

All furniture items (except bridges) sit on 1" in diameter, white nylon levelers, allowing for up to 1-1/4" height adjustment. The standard finished height for work surfaces is 29".

Appendix I: Calculation and Use of Electrical Components

An Introduction to Calculation and Use of Electrical Components

Most people are uncomfortable with anything related to electricity. This step-by-step guide is intended for people who are not familiar with electrical installations but who have to specify what system they need when ordering furniture. In this guide, you will learn how to choose and specify the electrical components required for your projects. The list that follows illustrates and identifies each product and describes its applications.

The electrical components are all recognized by the Underwriters Laboratory (UL) as office furniture accessories and are manufactured according to Canadian Standards Association (CSA) and UL electrical standards.

Note: All electrical connections must be performed by a certified electrician.

By following these 3 simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

1. Determining the Number of Amperes Required
2. Calculating the Total Amperes Per Electrical Series
3. Determining How Many Circuits You Need

STEP 1:

Determining the Number of Amperes Required

What is Amperage

An Ampere (Amp or A) is a unit for measuring the rate at which electric current flows. All electrical equipment has an amperage rate. By following these few simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

Determine the Number of Amperes Required

On your computer or other electric devices (ie: monitor, central processing unit, printer) find the plate that provides the technical specifications as follows:

Input: 120V - 1.8A.

If you cannot locate this information on the machine, you will probably find it in the user manual.

Here are a few examples of how many Amps some equipment may consume. Please note that these are examples and the number of amperes may vary from one machine to another.

Power Block and Simplex Capacity

An electrical series corresponds to the total number of amperes that use the same power source. This includes electrical components such as computers, printers, laptops, monitors, server or other devices.

Each power block has a total capacity of 8 Simplex units (plugs). A Simplex can handle up to 20 amps by itself, however as the number of Simplex are added to each circuit, the amount of amps is divided between them.

A single Simplex has a maximum capacity of 20A

Each power block can hold 8 Simplex

A single power block has a maximum capacity of 80A

$$20A + 20A + 20A + 20A = 80A$$

A power block with the same circuit Simplex on both sides also has a maximum capacity of 20A

$$10A + 10A = 20A$$

The capacity of each Simplex on the same circuit is divided as additional Simplex's are added on. For example, 5 Simplex on the same circuit still holds the same 20A capacity.

Appendix I: Calculation and Use of Electrical Components

STEP 2:

Calculating the Total Amperes Per Electrical Series

Add the Amperes

Add the number of amps for each machine in the series. In our example, there are 4 CPUs at 2.5A per computer, 4 monitors at 0.5A and one printer at 9A.

$$2.5A + .5A + 2.5A + .5A + 2.5A + .5A + 2.5A + .5A + 9A = 21A$$

The total number of amperes used in this example equals to 21A.

Divide by 16

Most machines and computers used in offices or schools are used continuously for many hours at a time. In this type of situation, national electrical codes usually limit circuits to 16 amperes of continuous use. You must therefore divide the total number of amperes calculated by 16.

STEP 3:

Determining How Many Circuits You Need

In most cases, this number will contain decimals. Round up to the next whole number, and this will be the number of circuits required for your equipment to run safely. If the number obtained is higher than 4 (the maximum number of circuits for a system), you must reduce the amount of current used by the system or create another system supplied by a separate power source. Continuing with our example, the 1.3A is rounded up to 2A.

Here is one possible configuration. Using 5 power blocks joined together with junction cables, only 2 circuits are being used. The 4 monitors and the printer are on Circuit #1 and the 4 CPUs are on Circuit #3 (which is the grounded circuit).
