Locking Device &
Swivel Recessed Handle

Cabinet Style Doors

Note: SmartShelf Patent No.: 6,841,245

Advantages

- Quick and easy to install
- Safe and reliable
- Expandable
- Upgradable
- Easy to move and reconfigure
- Cabinet Style mobile units could be eventually used as fixed units or vice-versa

Security

- Lockable doors can be added to fixed and mobile sections
- Lockable drawers are available for more confidentiality
- Highly resistant anti-tip guide (on top)
- Meets HIPAA compliance

Option

- Possibility of adding a second mobile row in front of the system. In this case, additional anti-tips are required to be added to increase strength

Technical Specifications

- Modular Floor
 - Sections assembled at the factory for greater precision
 - Levelers easily accessible
 - Levelers covered by finish trim
 - Height of modular floor only 1-1/2" above existing floor
- 3/4" thick shelves. Cabinet Style (Case-Type) or SmartShelf™ hybrid shelving (4-Post)
- Steel Track
- System's main frame is all steel:
 - Shelves: 18 gauge or 20 gauge
 - Carriages: 12 gauge
