husseyseating[™]

YOUR PARTNER FOR SEATING SOLUTIONS

Creating the Best Seat in the House

Imagine your space with an elevated level of elegance – we have a solution for you. Say hello to refined aesthetics, natural materials, luxe fabrics and design customizations that push your venue into the 'exceptional' category. The Quattro Art Series by Hussey Seating Company delivers just this fit, finish, and appeal. Plus, we've made this distinguished look accessible and affordable for any place people gather.

It all started when we began to imagine two remarkable chair families that would incorporate the design elements most sought after by the art and design community. With clean lines and the warmth and richness of wood components plus multiple reveal styles and the ability to tailor your look, your seating will perfectly suit any interior design concept.

At Hussey Seating, we collaborate with you to design solutions to meet our customers' precise requirements—and then some. It's what we do best.

Reimagine Theater

The theater experience is emotive, artistic, and dramatic. This commands an audience space that's equally as inspiring with luxurious fabrics and colors, plush seating, and smart configurations that enhance sight lines and acoustics.

Our Quattro Art Series reimagines the timeless theater look, offering character and charm paired with ergonomics and ADA flexibility for optimal patron comfort and safety. We've crafted a uniform design style that plays out across chair backs, seats, end panels, and armrests to awe audiences from the moment they take their seat. Those small yet important design elements, right down to the concealed fasteners, can dramatically enhance their experience.

Two Remarkable Design Families

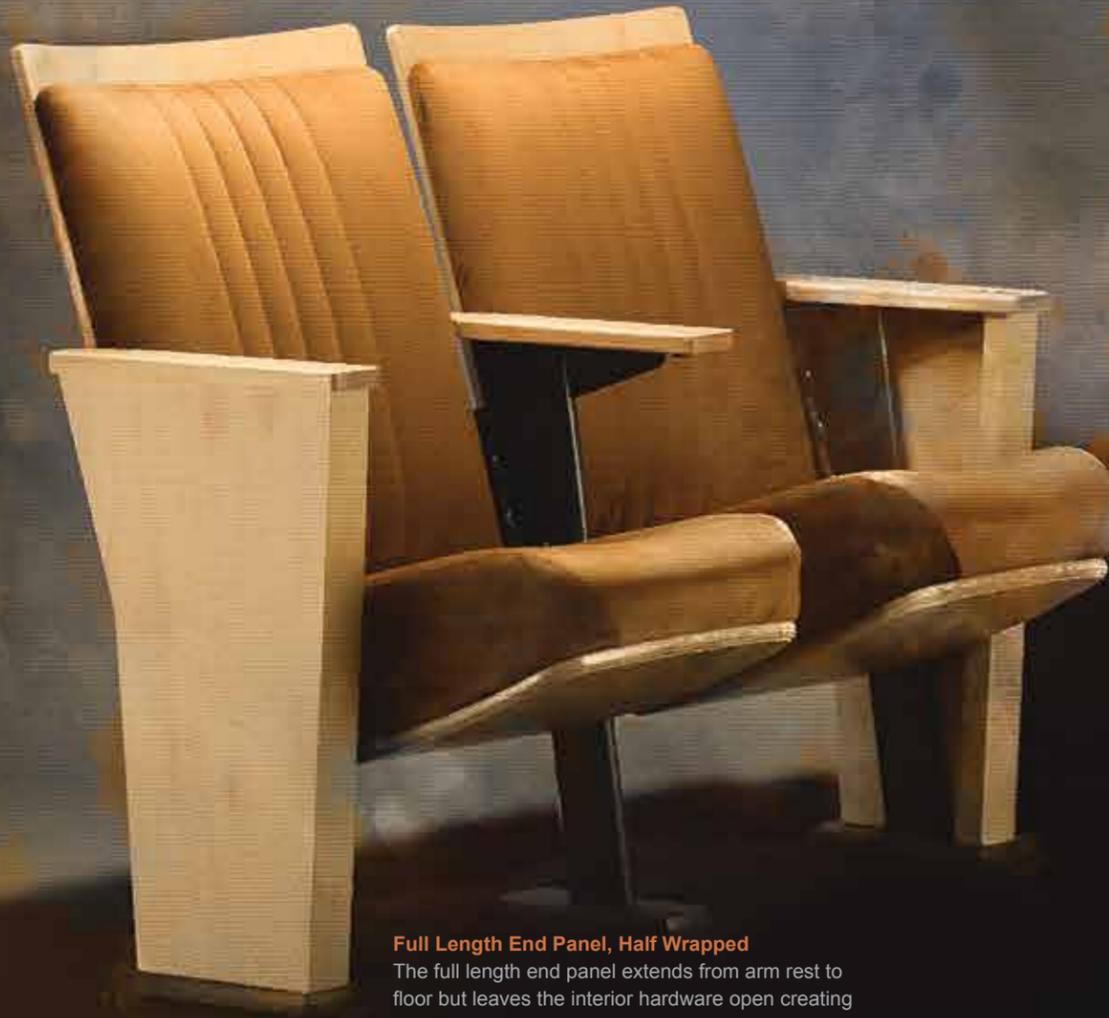

Introducing Linear and Radius, two chair families that echo subtle variations in the design elements most sought after for today's performing arts venues. We've provided you the freedom and flexibility to customize seating and together we'll collaborate to create a seating solution that suits your architectural vision. Whichever look you choose, you'll enjoy whisper quiet seat return, Hussey's signature extended outer back, and the best warranty in the industry.

Linear

Radius

The Linear Chair Family

Our Linear chair family is a celebration of smooth, invariably clean lines. Its sleek and unassuming profile is distinguished by modern geometric angles, rich wood components, and smooth surfaces. This chair family provides patrons with the comfort of plush seating within a compact and uncluttered framework. Opt for a high or low back and refine your look with an extensive range of customizations and quilting options. The Linear design enhances any space without detracting from your main performance.

Full Length End Panel, Half Wrapped
The full length end panel extends from arm rest to floor but leaves the interior hardware open creating an affordable customization option.

Signature Extended Back
Preventing patron damage to seat cushion while eliminating potential safety issues.

The Radius Chair Family

Our Radius chair family creates subtle lines and consistent inter-chair spacing while presenting even softer curves along the back, arm rest, and end panel. Its refined, contemporary appeal adds sophistication to any performing arts space. You can provide patrons with a plush, generous seat available in a high or low back. With an extensive range of customizations and quilting options, the Radius design creates both functionality and luxury.

Full Length End Panel, Fully Wrapped
Drape your product in the warmth of wood on any seating configuration with full wrap end panels and intermediate privacy panels.

Your look, your way.

Our core design families are only the beginning of your journey. Finish your aesthetic by tailoring your look with a range of standard backs with various reveal styles including Top Reveal, Full Reveal, or our Integral Design. Customize armrests and end panels, opting for standard, plush, or ultra plush foam cushions. Then refine even further with seat bottoms available in a range of wood species or customize with integrated design features. Hussey Seating Company elevates the experience with professional design assistance to ensure your venue has the look and sightlines theater patrons expect.

Full Reveal Radius

Image features a Full Reveal Radius with the classic Quattro Art seat bottom, full length full wrap end panels and intermediate privacy panels. With the high back, 2" back foam, and ultra plush seat foam - these selections add up to one of the most luxurious seating solutions.

Customize, affordably.

Hussey Seating Company makes the refined performing arts seating esthetic accessible and affordable for any venue. We've accomplished this by coupling flexible yet refined seating families with dedicated design spaces, which we call "live areas". Live areas provide the freedom to tailor your seating to suit your interior vision. Unveil a signature look, an extravagance previously only attainable within a pricier fully custom chair. You'll find live areas within each key wooden design element including the seat back, seat bottom, end panel, and armrest.

Dedicated Design Areas:

The 'live area' on the seat bottoms, end panels, arm rests, and backs allow your creativity to flourish. Anything from an engraved logo to variable design elements and custom shapes are possible.

Fits, Finishes and ADA Solutions

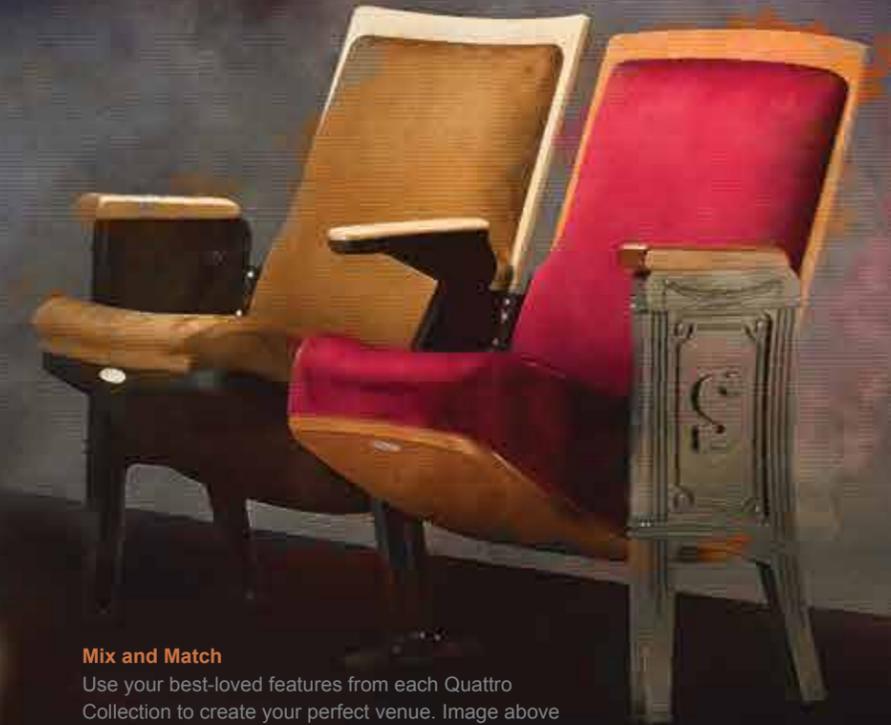

Tailor your look with a range of accessories that make your interior space one of a kind. The elegance of our Quattro Art Series extends into the smallest of details. Use our product selector to choose from our collection of timeless seat identification, row letters, and donor plate styles available in a full range of finishes including brushed aluminum, bronzed anodized, brass, stainless steel—even ecoglo. Embellish with dimmable aisle lights in either a contemporary dome or understated LED strip aesthetic. Then opt for your choice of fabrics, wood species, and wood veneers.

When considering ADA and companion seating, we wanted to offer performing arts venues a seamless aesthetic while ensuring consistent seating capacity that could optimize revenue at every performance. We also wanted to provide patrons with superb sight lines along with an elevated level of safety and convenience. That's why our Quattro Art Series pairs flexibility with a range of ADA solutions, ensuring all patrons enjoy an equally exceptional performance. ADA accessories include flip-up armrests, transfer arms, and easily removable seats.

Blending Quattro Collections

Creating your masterpiece is simple when you have the entire Quattro Collection to work with. If you love the warm feel of a wood back, can't wait to personalize the live areas of the wood seat bottom but the arm rests from the Quattro Traditional Collection are more your style – no problem. Arrange any combination of stanchions, arm rests, seat bottoms, and seat backs to create your perfect look.

Mix and Match

Use your best-loved features from each Quattro Collection to create your perfect venue. Image above features a Nostalgia stanchion, Art Radius full reveal back, and Art seat bottom on right; and uses a polymer seat bottom with an Art Linear back on left.

A Collaborative Partnership

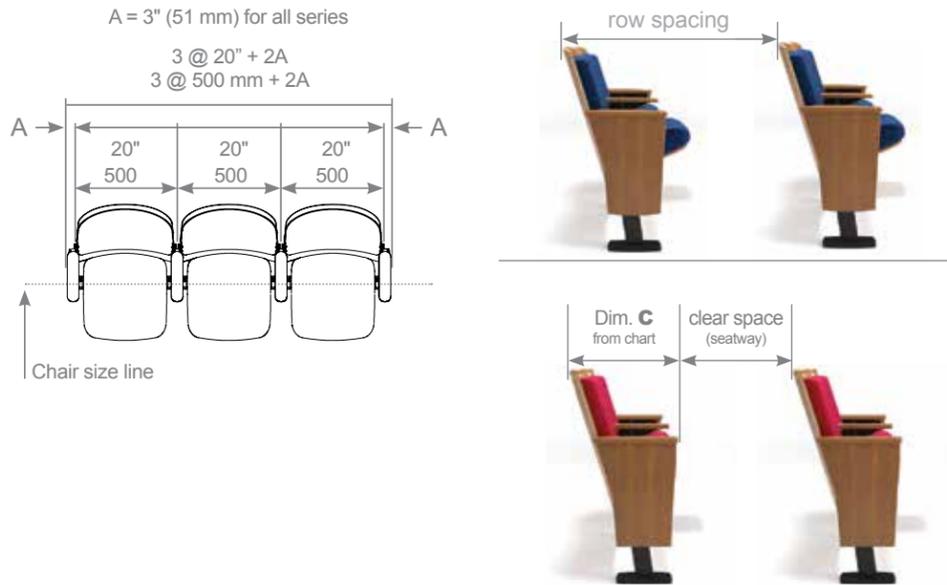

From prestigious performing arts centers to smaller, more intimate venues at schools and colleges, each space is distinctive. With the Quattro Art Series, we deliver high-end features, clean design lines, and upscale wood components while still maintaining a value price point. At Hussey Seating, we work collaboratively with architects, interior designers, theater consultants, and acousticians to help you design a spectator experience that excites patrons while also optimizing your revenue capacity.

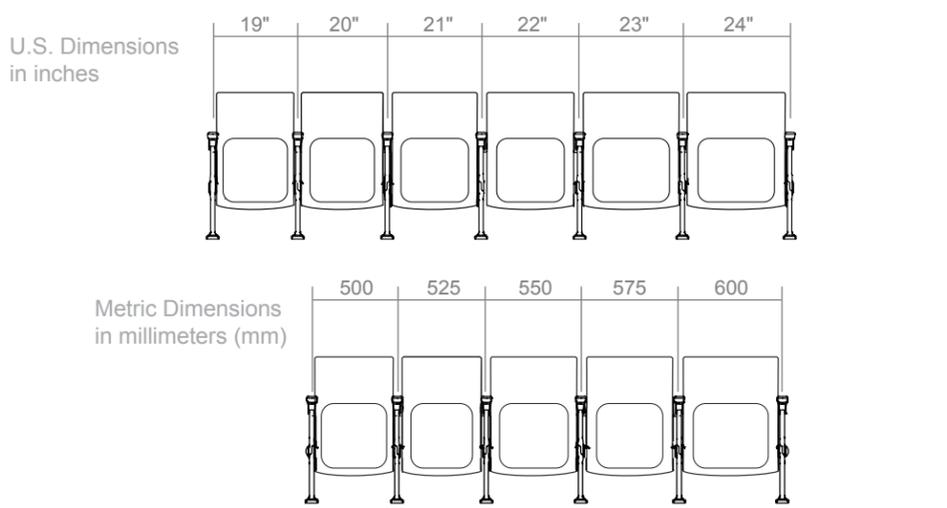

Seating Layout

Row Spacing (all Quattro series)

To help facilitate your design solution, calculate seating row lengths and row spacing by using the example below. Pick your chair series and width from the appropriate dimensional data, multiply by the number of chairs in the row and add A for each end.

Sustainability

At Hussey Seating, respecting the landscape we live in—and the hard work and well-being of the people we work with—has always been in our DNA and part of our heritage. Our commitment to environmentally friendly business practices has taken many forms over the years as standards and technology have changed.

In the 1970s, when the rest of the nation began to become more environmentally aware, we had already laid walking trails and planted a tree farm on our beautiful Maine campus. Today, going green means developing environmentally friendly paints and finishes, sourcing sustainable woods and metals, going beyond local and national regulations in clean manufacturing and waste disposal, and making deliveries on time while reducing our carbon footprint. We reduced our air emissions by 90% while tripling our seating business, so we know green business is good business.

Hussey Seating solutions come in a wide range of colors—but every day our seats get greener. If you'd like to learn more about our sustainability efforts, please visit our website at www.husseyseating.com/sustainability
