

RACK&ROLL 16

Industrial Compact Shelving

MONTEL®
The Intelligent Use of Space

Designed for manufacturing, warehouse, distribution, and service operation environments, RACK&ROLL 16 industrial compact shelving systems optimize space utilization and minimize storage & space allocation costs.

RACK&ROLL 16 carriages are compatible with Montel shelving systems (SmartShelf, 4D Wide Span) or other existing 4-post brands of shelving/pallet racking available on the market.

Features

- Maximum width: 60" (1,524 mm)
- Maximum length: 540" (45') (13.7 m) depending on the weight
- Maximum carriage load: 24,000 lb (10,886.2 kg)
- Operation: mechanical-assist or powered mobile
- Drawers & accessories available
- Best service and warranty program in the industry

RACK&ROLL 16 carriages support a maximum of 8,000 lb (3,628.7 kg) per single bay of racking, which means 16,000 lb (7,257.5 kg) per double bay of racking.
