

Our latest addition to the Contempo Series;
an American Made Metal Bed.

Flexibility and Functionality

Change from single, to junior loft, to bunked to single lofted* quickly and easily by utilizing the seven height adjustments.

* Stabilizer rail needed for lofting.

Single loft position allows for the placement of chests and/or additional storage below the sleeping surface. 26" clearance.

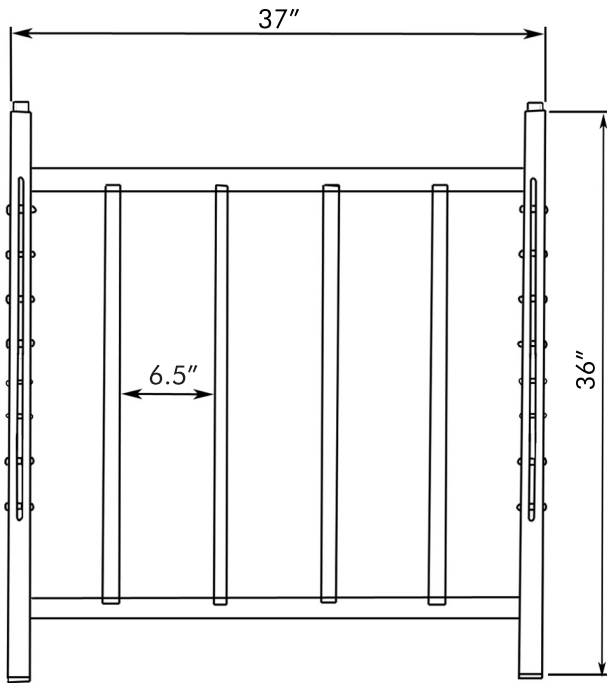

* Safety rails and ladder recommended when bunking.

All components are fabricated using 70,000-PSI minimum yield strength MT1010 HRP&O steel tubing.

Vertical Rail

Bedposts: 1.5" square steel tubing with 15 gauge (.072") wall thickness.

Stretchers: 1.5" x 1" rectangular steel tubing with 16 gauge (.065") wall thickness.

Uprights: .5" x 1" rectangular steel tubing with 16 gauge (.065") wall thickness.

Finish: Electrostatically powder coated to be Textured Black.

Each bedpost and stretcher is laser processed to allow insertion of all components, as well as hooking pins on the post. Also included, specially designed high impact floor guides in the posts allow for bunking or lofting without the need for additional stacking parts or tools.

CT-MD3676-C or CT-MD3680-C

Single horizontal rail bed includes head and foot board and a 36" x 76" or 36" x 80" spring.

CT-MD3676-C-SET or CT-MD3680-C-SET

Set of bunkbeds including (2) headboards and (2) footboards with horizontal rails, and (2) 36" x 76" or 36" x 80" springs.

CT-MD3676-CV or CT-MD3680-CV

Single bed including headboard and footboard with vertical rails and a 36" x 76" or 36" x 80" spring.

CT-MD3676-CV-SET or CT-MD3680-CV-SET

Set of bunkbeds including (2) headboards and (2) footboards with vertical rails, and (2) 36" x 76" or 36" x 80" springs.

MDLDR

Adjustable metal ladder (recommended for bunked or junior lofted beds).

MDGR

Metal guard rail (recommended when bunking or junior lofting over 30" high).

MDSR-76 or MDSR-80

Set of (2) stabilizer rails for lofted beds.

Horizontal Rail
