

Soft Seating...

With a Bit of a Twist.

Our Twister Chair is turning heads across campuses nationwide! While this chair already looks great and eye-catching in a single, solid fabric, some clients really want to make a statement and we're here to help! Follow the below guidelines to create a one-of-a-kind accent piece to liven up any space.

Vinyl – Due to the attractive curves of this chair, vinyl is best suited for the chair seat & apron only. Mix vinyl with a complimentary solid fabric or bold pattern on the rest of the chair for a sharp two-toned appearance.

Patterns – While patterns can help draw the eye, some geometric shapes will not play well with the pattern of this chair.

To help keep things simple, we've created a list of what we recommend using when you're selecting a fabric to cover the entire chair. *Please note, any of the fabrics in Savoy's approved fabric program can be used on the chair seat & apron.

Recommended Fabrics:

Grade A

- Bolero
- Fusion
- Polka
- Tango
- Zydeco
- Archetype
- Winslow
- Sherpa
- Shire
- Ridgecrest
