air³

The rules have changed. Today’s workplace isn’t just about furniture; it’s about creating connections between people. It’s about designing spaces that promote productivity, engagement, flexibility, and flow—spaces that allow you to work collaboratively or privately, however you choose and wherever you want. At Orangebox we ask, Why Build Walls?

Our award-winning Air³ acoustic pods combine flexible construction with an innovative roof-opening design, making it the most comprehensive and advanced pod on the market today.

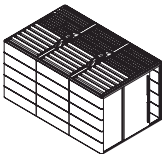

Product Range

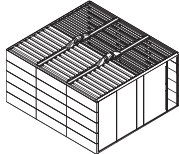

OB1AIR23
Half Square with
Opening Roof
External: 5'6"D x 9'2"W x 8'4"H
Internal: 5'1"D x 8'7"W x 7'H

OB1AIR25
Square with
Opening Roof
External: 9'9"D x 9'2"W x 8'4"H
Internal: 9'5"D x 8'7"W x 7'H

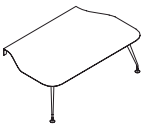

OB1AIR27
Rectangle with
Opening Roof
External: 14'5"D x 9'2"W x 8'4"H
Internal: 14'1"D x 8'7"W x 7'H

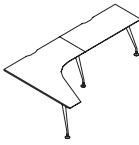

OB1AIR29
Square 3x3 with
Opening Roof
External: 14'4"D x 13'4"W x 8'4"H
Internal: 14'1"D x 13'W x 7'H

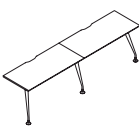

OB1AIR30
Air³ Small Pod Table
(For use in Air 25 Pod)
2'D x 3'9"W x 2'5"H

OB1AIR31
Air³ Medium Pod Table
(For use in Air 27 Pod)
4'5"D x 6'11"W x 2'5"H

OB1AIR34RH
OB1AIR34LH
Air³ Return Pod
Table Left or Right
(For use in Air 23 Pod)
4'11"D x 8'7"W x 2'5"H

OB1AIR33
Air³ Long, Straight
Pod Table
(For use in Air 23 Pod)
2'D x 8'7"W x 2'5"H

OB1AIR35
Air³ Short, Straight
Pod Table
(For use in Air 23 Pod)
2'D x 8'5"W x 2'5"H

All in one...

01. OB1AIR23

Innovative Technology

Form & Function

Our beautifully designed sound-blocking aluminum blades not only maximize acoustic performance and increase global compliance but they go from closed to open in only eight seconds —increasing air flow and providing fresh air that works with the building's existing air conditioning system.

Proprietary Roof-Opening System

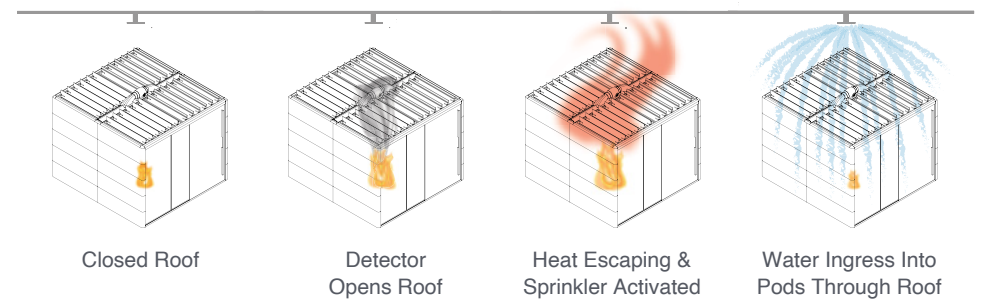

Uniquely engineered rotating aluminum louvers close automatically when occupants enter and open again when they exit.

IT Integration and ADA Compliance

Air³ has power and data ports for full IT integration, and all sizes are ADA compliant.

Fail-Safe Fire Safety

Patented louvered roof paired with integrated heat sensors eliminates the need for sprinkler integration in most jurisdictions.

Sound

Reflective and absorbent surfaces control sound inside and outside of the pod.

Light

Auto-sensor lighting turns on/off when entering/exiting the pod, or you can manually choose from three lighting settings: work, think, and present.

Ventilation

Auto-sensor ventilation and roof system opens/closes when entering/exiting the pod, or you can control the air flow and roof system manually.

All About Acoustics

- Acoustic tempered glass and engineered seals balance out speech frequencies.
- Soft paneling inside and out absorbs and blocks sound.

03

04

05

Simple Solution

- Easy install in just a few hours.
- Can be hardwired or powered with a standard wall/floor socket.
- The sliding door can be installed to open to the left or right.
- Can be positioned anywhere with a power connection in your space.
- Additional accessories available, like integrated work surfaces, glass magnetic boards, and monitor brackets.

06

At Orangebox, we think happiness and productivity should go hand in hand.

Customizable and modular, our Air³ pods let you create the perfect meeting space—square, small, or large—so you can work however you want and wherever you choose.
