Task Lighting
overview

Steelcase
WORKTOOLS

T8 Fluorescent Luminaries:

Standard Shelf Lights are designed for knowledge workers who frequently switch from task-to-task throughout the day

Illuminate the Workplace

Advances in technology and increasing flexibility let people work where and how they like. Whether working in a mobile environment or at a dedicated workspace, workers need well-lit spaces in order to be productive and feel their best. Proper illumination reduces eyestrain, headaches and fatigue, and helps workers focus on the task at hand.[1]

Task lighting thoughtfully placed throughout a work environment is essential, helping workers focus with ease and encouraging productivity and wellbeing.

LED LINEAR SHELF LIGHT

LED Linear Shelf Light eliminates shadows and dark corners under shelf spaces, combining energy efficiency and affordability.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.

- Average rated lamp life of 50,000 hours

- Available in 17", 31", 44" and 58" widths

- Consistent 3500K color temperature

- Rated 84 on the color rendering index

- Optional standard- or high-output fixtures

- Continuous range dimming of light output from 100% to 15%

- Programmed to automatically turn off after 10 hours +/− 15 minutes

- Optional occupancy sensor option turns off the light after 30 minutes of inactivity

- Fixtures available in stand-alone power or daisy chained

- Includes magnetic and wood mounting brackets

STATEMENT OF LINE

Standard output with high-output option and occupancy sensor option:
LLL17, LLL17YA, LLL31, LLL44 and LLL58

Standard output with high-output option only:
LLL17YB, LLL31YB, LLL44YB and LLL58YB

All include magnet and wood screw mounts.

DIMENSIONS

SURFACE MATERIALS

█ 4231 Aluminum with white end caps

█ 0835 Black with black end caps

Colors are representative and may vary slightly from actual material.

SUSTAINABILITY

- Material content recyclability by weight: 77% aluminum, 6% plastic, 1% steel, 5% other, 11% non-recyclable electronic content

- 89% post-consumer recyclability by weight

- Mercury-free LEDs
