G & G
Oven & Grill Cleaner
& Degreaser

Oven surfaces which are encrusted with grease, oils, fats, and carbonized food material are less efficient as heat conductors. Heavy build-up of soils can interfere with the radiation of heat in a uniform manner causing hot spots to develop. This can cause the oven to use more heat energy to overcome the effects of this insulation layer. Foods cook more evenly when this layer is removed. This industrial strength oven and grill cleaning compound penetrates through the layers to dissolve and emulsify it. Ovens, oven racks, grills, barbecue grills, broiler pans, smokers, deep fryers, and exhaust vents can be restored to a clean appearance and optimum performance level with regular cleaning and maintenance.

Note: This product is not intended for use on aluminum, magnesium, zinc, or other soft metals. Do not apply to painted surfaces. Protect floors and surrounding surfaces from contact. Clean off any over spray or dripping from floors promptly.

Directions For Use: Do no dilute, use as received. Apply only to cool surfaces. Turn off current in electric ovens and pilot light in gas ovens.

Apply to surface by brushing, spraying or immersion. Allow surfaces to remain wet for 20 minutes. Agitate surface with brush or scrubbing pad. Wipe away soils with sponge or paper towels. Repeat application on heavily soiled areas. Wash cleaned surfaces with dishwashing detergent and water. Rinse with potable water. Reheat oven for 10 minutes to remove all odors.

CAUTION: Contains Sodium Hydroxide. Avoid contact with skin or eyes. Avoid breathing of vapors as this may cause irritation to mucus membrane.

PrideTM

Super cleaner

Cleans • Shines • Degreases
• Removes Stains •

Dozens of Commercial and Residential Uses

BIODEGRADABLE • NON-POLLUTING

Degreasing and Tough Cleaning - Heavy Duty

Use Pride unmixed for:

- Engines • Concrete • Machinery • Restaurant Equipment and Factory Equipment
- Degreasing • Ovens (pre-warmed) • Mildew • Rust • Scuff Marks

Use Gloves to avoid drying hands.

PM 5 Light Duty - Mix 6 tablespoons PRIDE per quart of water for:

- Soap buildup • Paint Overspray • Porcelain

Flooring - PM 6

For carpet stains, mix 4 tablespoons PRIDE per quart of water. PRIDE will remove and deodorize even the toughest stains.

- Ink • Hair Dye • Soda • Cosmetics • Salt Stains
- Adhesives • Oil • Wine • Varnish • Vomit
- Grease • Liquor • Water • Pet Stains • Coffee • Gum

PM 7 - As a carpet shampoo, mix 1 pint PRIDE per 4 to 6 gallons of water in the holding tank of a carpet cleaning machine. 1) Vacuum carpet thoroughly. 2) Use PRIDE mixture through the machine. 3) Allow to dry. 4) Vacuum when totally dry. For best results, use machine with water extractor.

PM 8 - For linoleum and vinyl flooring, wet mop with 1 cup PRIDE per 3 gallons of water. To strip wax, allow mixture to set 3 to 5 minutes.

PM 9 - For use in industrial cleaning machines, mix 1 pint PRIDE per 8 gallons of water.

PM 10 - For non-steam machines, mix 1 pint PRIDE per 6 gallons of water.

PRIDE is an all-purpose cleaner for commercial and residential use. It's water-based, so it's safe, non-toxic, and leaves surfaces film-free for a longer lasting clean. PRIDE is also free of ammonia, harsh chemicals, and abrasives, so it's excellent for all surfaces. PRIDE brings out the natural beauty of all types of finishes. Use PRIDE for home, office, or industry in such applicators as spray bottles, carpet machines, or even heavy degreasing machines. For heavier cleaning, use it straight from the container.

PRIDE is an easy-to-use, versatile cleaner. The most important thing to remember in using PRIDE is to combine water and PRIDE in the proper proportion for the cleaning job at hand. You'll be surprised how well the proper mixture of PRIDE and water works on the toughest cleaning jobs. However, we encourage you to experiment with different combinations of PRIDE and water. You may find that you can save even more as lighter mixtures often do more than you would imagine.

For light cleaning such as windows, rinsing may not be necessary. For stronger mixes it is recommended that Pride be rinsed off with water.

Always remember to test color fastness in fabrics and carpets. PRIDE is not to be taken internally. Not recommended for silk, satin, or suede.

WARNING: Keep out of each of children. If swallowed, drink vinegar solution or lemon juice. See physician. If in eyes, flush with large amount flowing water. See physician. Rinse empty container with water and discard.

COMMERCIAL USES

PRIDE cleans:

•Stainless steel •Office machines
•Machinery •Concrete floors
•Degreasing equipment •Boats
•Autos •RVs •Vinyl •Plastics
•Chrome •Fiberglass •Engines
•Rust •Tar •Oxidation •Exhaust
Film •Upholstery •Whitewalls
•Plexiglass

RESIDENTIAL USES

PRIDE cleans:

•Ovens •Bathrooms •Linoleum
•Tiling •Carpets •Walls •Woodwork
•Countertops •Windows •Mirrors
•Furniture •Boats •Autos •RVs
•Vinyl •Plastics •Chrome •Fiberglass
•Engines •Rust •Tar •Oxidation
•Exhaust Film •Upholstery
•Whitewalls •Plexiglass

ACTIVE INGREDIENTS:

Water, Builders, Wetting Agents,
Chattelling Agents, Degreasing
Agents, Color, and Fragrance;

To Reorder, please contact:

G&G ENTERPRISES
P.O. Box 31662
Jackson, Mississippi 39286
601-954-9841

From the Container:

Use PRIDE right from the container to remove gum, tar, wax, or dried paint from carpets and flooring. Allow PRIDE to stand for 1-3 minutes. Dampen area directly with water and work with fingertips to remove soil. For especially tough places, poke holes in the hard matter to allow PRIDE to completely loosen material from the surface.

Use PRIDE as a glass de-fogger on windshields, eyeglasses, ski goggles, mirrors.

General Cleaning - PM 1

Mix 2 tablespoons of PRIDE per quart of water for:

•Countertops •Wood Paneling •Appliances
•Furniture •Aluminum •Chrome •Walls
•Porcelain •Plastics •Any other surface not
damaged by water

Light Duty Cleaning - PM 2

Mix 1 teaspoon PRIDE per quart of water to clean:

•Glass Windows •Plexiglass Windshields
•Convertible Plastic Windows •Boat Glass
•Plexiglass Mirrors. Use the same mixture as
an everyday household spray cleaner.

Heavy Duty Cleaning - PM 3

Mix 4 tablespoons PRIDE per quart of water for:

•Vinyl tops •Vinyl Upholstery •Pots and pans
•Fiberglass boats •Cloth Upholstery
•Airplanes •Bathrooms •Stainless Steel
•Motors •Laundry Pre-spot Treatment
