

September 28, 2018

eSkill software provides the ability to customize skill assessments from over 5,000 combinable topics as well as the ability to create your own content. We provide a dedicated Assessment Expert to help build the ideal tests and workflow depending on your needs. Our quality predictive content has a perfect compliance track record.

When you partner with eSkill for skills testing we can ensure EEOC compliance, as well as tests that are relatable to your open positions.

The product was and is enhanced by eSkill. eSkill has a direct and a channel sales force. Most of our channel partners are overseas. Our Channel partners adhere to our standard pricing.
