Ms. Swoger,

This letter is to confirm that TheraDoc, Inc., a wholly owned subsidiary of Premier Healthcare Solutions, Inc. (“Premier”), is the sole source provider for the applications, support, maintenance and training associated with the TheraDoc® clinical surveillance solution. All components of TheraDoc’s functionality have been developed by our company and are the exclusive intellectual property of Premier.

Clinical Surveillance, powered by TheraDoc, is a real-time solution that features many significant elements of proprietary functionality, including, but not limited to:

- Infection Control Assistant®: workflows specifically designed for the infection preventionist to identify at-risk patient populations for prioritized actions
- Pharmacy Assistant: workflows specifically designed for the clinical pharmacist to identify at-risk patient populations for prioritized actions
- Clinical Assistant: delivering TheraDoc application content to clinicians mobile devices for decision making on the go
- Clinical Alerts: over 500 pre-built alerts for the clinician to target high-risk patient populations
- EZ Alerts Assistant™: rule-writing engine allows clinicians to create organization specific alerts
- Medication Utilization Analysis: data analytics to assist clinicians in understanding medication administration patterns with the ability to segment by top 25 medications or specific therapeutic categories.
- Antimicrobial Use and Antimicrobial Resistance data reporting

If you would like additional information on other unique features of Premier’s Clinical Surveillance solution, powered by TheraDoc, please do not hesitate to contact me.

Sincerely,

Michelle Allen
Vice President, Safety Solutions
Premier, Inc.
