Project Details

1. Describe the commodity/service that the agency/institution is seeking to procure:

The peritoneal dialysis cyclers are used to treat the home dialysis patient. Connectivity to the peritoneal dialysis cyclers through Sharesource Analytics software will allow physicians and nurses to: analyze the patients' peritoneal dialysis treatment to better prescribe and treat the patient; determine the effectiveness of the treatment; prevent the need for hospitalizations for most home patients; and the patient will experience better monthly laboratory results.

2. Explain why the commodity/service is the only one (1) that can meet the needs of the agency/institution:

Baxter is the manufacturer of the current peritoneal dialysis machine used by home patients. Sharesource Analytics is the only product for this machine and is only available through Baxter.

3. Explain why the source is the only person or entity that can provide the required commodity/service:

Baxter is the sole source of the Sharesource Analytics software products and does not authorize any third party to provide technical support to any of its products. See supporting letter from Baxter., Attachment A.

4. Explain why the amount to be expended for the commodity/service is reasonable:

The estimated amount to be expended for the purchase of Peritoneal Dialysis Cycler Analyzer Software, Sharesource Analytics is estimated to be **\$109,201.00 for three years**. Please be advised that UMMC will determine if additional enhancements, upgrades, support, or equipment are within scope during the certification period and may increase the spending authority accordingly. Should Baxter Healthcare, Inc. change their name during this certification period, then UMMC will determine if a recertification is necessary. This amount is within the expected price range for these products.

5. Describe the efforts that the agency/institution went through to obtain the best possible price for the commodity/service:

Pricing is compared against available market intelligence and identified discounts are pursued where applicable.
