

University-Branded Trading Platform Order Form

The Stock-Trak University-Branded Trading Platform is designed for universities that have a trading room or have a large number of students enrolled as Finance Majors. The Stock-Trak Trading Platform allows students to simulate managing a virtual portfolio of stocks, options, futures, bonds, and mutual funds from the world's most popular exchanges. The Trading Platform is web-based and will be customized with the university's colors and logos. The Trading Platform's Administration Panel allows professors to quickly create and configure trading contests that meet the goals of their classes, and then monitor the performance of their students.

KEY TRADING PLATFORM FEATURES

Securities Offered

U.S equities, ETFs, options, futures, future options, mutual funds, and bonds; a selection of European, Latin American, and Asian equities

Order Types Offered

Market, Limit and Stop orders

Professor Administration

Professors can easily create and customize trading contests for their classes; and then review, retrieve, and download the performance of their classes 24/7.

Classroom Use

Trading platform may be used by all university faculty and students and includes up to 1,000 concurrent portfolios.

Term

Initial term is for 3 years. The agreement will auto-renew for subsequent 2-year terms unless either party provides a notice of their intent not to renew at least 60 days prior to the renewal date.

Pricing Information

Hosting, license, and support fee is US\$ 34,000.00 for the initial 3-year term, due upon signing. No setup fee is required. Fees include a 1-hour live webinar per semester for faculty training. On-site faculty training is available for an additional \$995 per two-hour session. For any 2-year renewal terms, the annual fee shall be \$12,000 and is payable in advance.

I am authorized on behalf of my university to order the Stock-Trak University-Branded Trading Platform. I am aware of the fees involved and agree to Stock-Trak's Terms and Conditions set forth at <http://stocktrak.com/pdf/Fast-Trak-T-and-C.pdf>, subject to change. I acknowledge that I am familiar with the simulation platform and the price feeds and delays used for order execution.
