CORE PAINTED METAL COLORS

SELECT PAINTED METAL COLORS

ACCENT PAINTED METAL COLORS

Metallic paints, due to varying reflectance, may appear to have less visual color consistency than other paint finishes, even when L/A/B values are exactly the same. (L/A/B — measurable aspects of color — values are maintained within a specified range, to ensure consistent appearance of paint colors.)

Dark Roast Walnut	NT684
Light Walnut	NT601

NATURAL VENEERS — NATURAL-2

GRADE V5

Dark Rift Oak	RF331
***SE800 and NE800 are not available on Stride trim.	

The beauty of wood is the natural variation of grain patterns and colors that make each piece unique. This variation is also influenced by lighting conditions, orientation of mated parts, and varying acceptance of the finishing process. The varying colors and physical characteristics naturally occur in all wood species but are most pronounced in lighter colored woods, and are especially evident in natural finishes.

GROMMETS ON VENEER WORKSURFACES

Wire management grommets come standard on most veneer worksurfaces. Choose between metal or plastic grommet option. Note: Plastic grommet color is predetermined based on finish selection. All Maple veneers..... Muslin EU

Lifetime Warranty

Allsteel Inc. warrants its products to be free from defects in material and workmanship for as long as the original purchaser owns them, except as set forth below.

Allsteel shall repair or replace with comparable product (at Allsteel's discretion), free of charge, any Allsteel product or component manufactured after January 29, 2017, that fails under normal commercial office use.

This warranty is subject to the following provisions:

Some natural variations occurring in wood, leather, or other natural materials are inherent to their character and not considered defects. Allsteel does not warrant the colorfastness or matching of colors, grains, or textures of these materials. Additionally, a Customer's Own Material (COM) selected by, and used at the request of, a user is not warranted.

The materials and components listed below are covered according to the following schedule from the date of sale:

- Wood products and electrical components (lamps and ballasts are not covered), seating controls, pneumatic cylinders, glides, casters and polymer-based components, and foam — 12 years
- Wood seating, stacking chairs, Sum® AutoFit® technology, and laminates — 10 years
- User-adjustable worksurface mechanisms, tablet arm mechanisms, interior wood-framed seating and lounge products, occasional tables, Mimeo™ mesh, Quip™ mesh, Scout® mesh, panel and seating upholstery fabrics, and other covering materials — 5 years
- Marker board surfaces and upholstery on Gather™ products — 3 years
- #19®, Access™, Acuity®, Clarity®, Inspire®, Lyric™, Relate®, Scout, Seek®, Sum, and Trooper® asynchronous and synchro-tilt models are warranted for multiple shifts and users up to 300 lbs. Mimeo is warranted for multiple shifts and users up to 350 lbs. Lyric Large & Tall is warranted for multiple shifts and users up to 400 lbs. Trooper Large & Tall is warranted for multiple shifts and users up to 500 lbs. All other Allsteel chairs and components are warranted for single-shift, 40-hour workweek usage.

- #19 chair, including components and material, is warranted for as long as the original purchaser owns the chair.
- #19, Access, Acuity, Clarity, Lyric, Relate, and Seek mesh/carriers and Mimeo and Quip carriers are considered structural chair components and as such are warranted for as long as the original purchaser owns the chair.
- Undercabinet LED light — fixture warranted for 3 years; power supply warranted for 1 year
- Link™ LED light — 5 years
- Wand™ LED Light — fixture warranted for 5 years; power supply warranted for 3 years
- Beyond™ Movable Walls — 10 years; moving parts such as door hardware and door mechanisms — 5 years; customer's own hardware — supplier warranty

This warranty does not apply to:

- Normal wear and tear over the course of ownership, including fabric puddling
- Damage from sharp objects (e.g., writing utensils, heeled shoes, scissors, jewelry, keys)
- Modifications or attachments to the product not approved by Allsteel
- Products not installed, used, or maintained in accordance with product instructions and warnings
- Products used for rental purposes
- Damage caused by the carrier in-transit, which is handled under separate terms
- Third-party products. Allsteel, to the extent possible, will pass through to the original purchaser (and process claims under) any warranty provided by manufacturers of undercabinet lighting, ergonomic work tools, or other third-party products supplied by Allsteel.

TO THE EXTENT ALLOWED BY LAW, ALLSTEEL MAKES NO OTHER WARRANTY, EITHER EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ALLSTEEL WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES.

This warranty applies only to products sold within the United States of America and the Commonwealth of Canada.

Your Allsteel Dealer is our mutual partner in supporting your warranty requests. To obtain service under this warranty, please contact your Allsteel Dealer.

COM Program

Allsteel understands that customers may at times want to specify fabrics outside of Allsteel's standard fabric offering. Our COM program was designed to make specifying COMs on Allsteel products a simpler, friendlier, and hassle-free process. This process is simple and easy to use, and is described below under "Allsteel to Supply." If a Dealer wishes to manage the COM process themselves, they can do so by following guidelines under "Dealer to Supply". Find out more about Allsteel's COM process by emailing our COM Department at **ASICSCOM@allsteeloffice.com**.

Allsteel to Supply:

1. Select the fabric you wish to use and check the COM Search on Synergy. You need the COM supplier's name, fabric pattern name, and color name to search for approved fabrics.
2. If your fabric is listed as an approved fabric, you may place your order directly with Allsteel Customer Support. Please use the fabric code (e.g., S216426XP) from the COM Test Request on your order in the place of the standard fabric code. **Make sure to mark on the top of the order "Allsteel to Supply."** If your fabric is not listed as approved, you will need to select the "Request COM Test" link on the COM Search website. Allsteel will arrange to obtain test fabric and you will be notified of the results within 3 to 5 working days of receipt of the test yardage by Allsteel.
3. If the fabric is approved, you will receive an email summary from Allsteel with the correct price grade and fabric code for order purposes. Written COM price quotes hold pricing for 90 days after issue date.
4. Once the fabric has been approved by Allsteel, enter your order directly with Allsteel Customer Support. Allsteel will purchase all COM fabric directly from the COM suppliers and schedule for production.

In the event that the Dealer decides to cancel a COM fabric order, the Dealer is responsible for the cost of the fabric plus a handling charge that is equal to 10% of the fabric cost.

Dealer to Supply:

1. Select the fabric you wish to use and check the COM Search on Synergy or call Allsteel Customer Support to see if the fabric you have chosen has already been tested and approved on the product you are interested in.

You need to have the COM supplier's name, fabric pattern name, and color name for this inquiry.
2. If your fabric is listed as approved, and it is not a Partnership fabric, you may request a "Dealer to Supply" code and estimate the yardage required by using the yardage requirements listed in the price list by model. For questions please contact Allsteel Customer Support.

3. If your fabric is not listed as already tested and approved, you will need to complete a COM Test Request on Synergy. You will need to arrange for the test fabric to be sent to:

HNI Fabric Testing
Attn: COM Dept.
2210 2nd Avenue
Muscatine, IA 52761

Allsteel requires 3 yards of fabric and 2 memo samples for each panel system fabric being tested; and 4 - 8" x 8" memo samples for all seating testing. You will be notified of the test results within 3 to 5 working days of receipt of the test yardage by Allsteel.

4. Make sure to use a "Dealer to Supply" COM code (e.g., S216426ZP) and place your order directly with Allsteel Customer Support.
5. All "Dealer to Supply" orders will be charged Grade 4 pricing for seating, Grade 3 for Gather, and Grade D pricing for panels. Dealers will pay for the COM fabric separately.
6. All "Dealer to Supply" fabric must be sent on a fabric roll.
7. Place your fabric order directly with the COM Supplier with instructions for the fabric to be sent on a fabric roll to:

HNI Fabric Distribution Center — Dealer PO Number
COM Production Yardage
Docks 20-22
200 Oak Street
Muscatine, IA 52761

Information that **MUST** be included in the packing slip attached to the fabric:

1. Dealer's Purchase Order number to Allsteel
2. Allsteel's Tracking number for the COM fabric
3. Dealer Name
4. Yards of Fabric

If the fabric shipment does not match the correct fabric and yardage, Allsteel will notify the Dealer for resolution.

If Allsteel receives fabric with incorrect labeling that cannot be linked to an Allsteel furniture order, Allsteel will hold the fabric for up to 7 days, while the COM Expeditor attempts to identify the order. After 7 days, Allsteel will return the fabric to sender. There are no exceptions to this policy.

Any cancelled orders are subject to cancellation charges up to the full value of the Allsteel product cancelled. Allsteel will determine the actual cancellation charge at the time the cancellation is requested.

8. For additional details on "Dealer to Supply" fabric refer to your Allsteel terms and conditions.

Additional Policy Information:

The company assumes no responsibility for the overall appearance, flammability, normal durability, colorfastness, or any other quality standards. The Company reserves the right to reject a COM if the quality of the COM is not satisfactory for the product. Should this occur, the customer will be notified with an explanation within 7 working days of receipt of test materials.

The company is not responsible for fabric that has become obsolete at the COM supplier, that is of poor quality, or that is delivered late to the manufacturer from the COM supplier. Excess yardage will be disposed of at Allsteel's discretion.

All cancellations or changes to COM orders are subject to Company approval. Because of the nature of COM, special fabrics, finishes, and structural modifications, products ordered as specials and then cancelled prior to shipment are subject to cancellation costs up to the full value of the product cancelled. The company determines the actual cancellation charge at the time the cancellation is requested. Upon approval, a cancellation number is issued to the Customer.

Purchase orders will not be accepted or entered unless the testing process is complete with positive results.

If all testing has been previously completed, re-testing is only necessary if fabric is to be used on a different product, or pattern direction has changed from that previously approved.

Previous test results can be obtained by a customer on the COM Search on Synergy or by calling Allsteel Customer Support. COM testing will require 3-5 working days from receipt of test yardage.

COM testing will require 3-5 working days from receipt of test yardage.

All COM fabric will be applied to seating and panel systems Pattern Cut unless Railroad Cut is requested and approved on the COM Test Request. Any fabrics approved as a width pass, the dealer is responsible for clarifying Railroad Cut on orders containing items that are too large to support the Pattern Cut of a fabric application (any items larger than 48" high or wide).

Fire Retardant

The Dealer is responsible for ensuring that the COM fabric is certified to meet all flame retardant requirements.

For more information, please contact Allsteel Customer Support.

YARDAGE REQUIREMENTS FOR FABRIC WITH REPEATS — FOR USE ON GATHER™ PRODUCTS

Fabric Width	Plain Fabric	2" – 14" Repeat	15" – 19" Repeat	20" – 27" Repeat	28" – 36" Repeat
54"	0	+15%	+20%	+25%	+30%
53"	+6%	+19%	+24%	+28%	+36%
52"	+13%	+23%	+28%	+33%	+38%
51"	+19%	+26%	+31%	+36%	+41%
50"	+25%	+30%	+35%	+40%	+45%
49"	+30%	+35%	+40%	+45%	+50%
48"	+35%	+40%	+45%	+50%	+55%
47"	+45%	+50%	+55%	+58%	+65%

Depending upon the pattern repeat, it may be necessary to pattern cut the fabric. This will require 10% additional fabric.

To calculate multiple repeats (vertical and horizontal), add each repeat for total yardage required. For example for a fabric width of 54": 7" vertical requires 15%, 15" horizontal requires 20% total additional yardage required equals 35% (15% + 20%). Therefore, if your chair requires 2 yards of fabric, multiply 2 by 35%. Then 2.7 yards will be yardage required.

Storage

Special Paint, Stain & Laminate Policy / Veneer Care

GSA Reference Page

Special Paint & Stain Policy

Allsteel at its own discretion may modify its standard products with non-standard paint and stain colors to meet specific needs. Dealer is required to submit a special paint or stain request via the COM Search on Synergy. A sample of the non-standard paint or stain color desired will be required for matching. Pricing, lead time, and order information will be provided at the time of approval.

- For each new requested stain or paint, there will be a \$500 net fee to cover supplier costs to match the special item.
- For existing, previously-approved stains or paints, there is no \$500 matching fee, however, there is a sample chip fee of \$175 net for stains and \$100 net for paints.
- Samples, preferably at least 3" x 5" chips, of the exact color desired should be sent to the Allsteel Tailored Products Group. Paint matches require (3) sample chips and stain matches require (3) sample chips. Please mail these sample chips to the address below and reference the Special Item Request Number from Tailored Solutions.

Allsteel Inc.

Attn: Tailored Products Group
2210 Second Avenue
Muscatine, IA 52761

- Allsteel will color match the sample and send control samples to the address provided in the request. Dealer will review Allsteel's color match and approve by signing the back of the sample chip. Send the signed sample back to the Allsteel Tailored Products Group.
- Special paints will be assigned a paint price grade.
- Orders will not be accepted until Allsteel receives the Dealer's written approval on the color match.
- Extended lead times will apply on orders containing special paints or stains.
- Due to manufacturing techniques, materials, and quality issues, some exclusions will apply and some matches may be declined.

Important Notes

- Natural veneer is subject to nature's quality control. Differences in grain and color are naturally occurring variations and cannot be controlled by the manufacturer and cannot be considered as product defects. Natural veneer has the characteristics and beauty of a living organism; with its own variations of grain, growth, and color patterns. For these reasons, Natural veneer is preferred by many for its warmth and personal characteristics.
- Color changes will occur over time when wood is exposed to light. For this reason, when new product is ordered as an addition to existing product, there will be color variances between the old and new product. Please remember when specifying new product that although the species of veneer will be the same, additional product is being manufactured from a different tree. It may take several months for the new furniture to mature to the color level of existing product. Even with this maturation process the additional product will not be an exact match.

Special Laminate Policy

The Company at its own discretion may modify its standard products with non-standard laminates to meet specific needs. Contact the Allsteel Tailored Products Group for pre-approved Wilson Art laminates and pricing for special laminates. When requesting a special laminate please supply manufacturer, along with name and pattern number of laminate.

- Extended lead times will apply on orders containing special laminates.
- Due to manufacturing techniques, materials, and quality issues, some product exclusions will apply and some requests may be declined.

Veneer Care Instructions

Veneer worksurfaces feature the Gunlocke® finishing system. The finishing system is a process that begins with the application of stains, which promote exceptional depth and clarity. Next the worksurface receives a specialized coating that provides exceptional durability and chemical resistance. The remaining surfaces receive a top coat. These finishing processes ensure depth, clarity, color consistency and durability throughout the product.

Veneer worksurfaces have exceptional resistance to:

- Heat and moisture (hot beverages, pizza boxes)
- Chemicals (liquid paper, nail polish)
- Stains (permanent markers)
- Scratches and impact (everyday wear and tear)

Caring for your veneer finish:

- General maintenance procedures entail wiping clean the entire surface with a clean, water dampened soft cloth once per week (be sure to wipe with the grain)
- Murphy's® Oil Soap may be used as a general purpose type cleaner with warm water to clean tops.
- The finish may also be polished with Guardsman® Furniture Polish (contains no waxes or silicones) to provide renewed luster.
- Be sure to wipe up all spills immediately. Do not allow spills to dry.

Wood owes its inherent beauty to variations in color, grain and texture, and therefore, these variations are not considered defects. There may be minor variations from one piece of furniture to the next even though they are finished at the same time. Exposure to light and the aging process will cause a darkening of natural wood products. Light finishes on wood products do not mask the natural characteristics of wood. Allsteel does not guarantee the exact matching of grain, pattern and color.

Everyday Advantage®

Program Terms for Everyday Advantage

1. Orders must clearly state “Everyday Advantage Order” and include the appropriate Everyday Advantage contract number:
 - Everyday Concensys® Std-0131, Everyday Concensys Canada-0133
 - Everyday Optimize™/Terrace® Std-0125, Everyday Optimize/Terrace Canada-0127
 - Everyday Concensys Gov-0132
2. Orders must contain only Everyday Advantage products. Choose the correct contract in your electronic ordering system by selecting the panel system, (Concensys or Optimize/Terrace) then add other desired products. If no systems product is being ordered, either contract can be selected.
3. Everyday Advantage orders are not eligible for bid pricing.
4. The complete Concensys, Optimize, and Terrace systems lines. This program also includes Access™, Inspire®, Lyric™, Mimeo™, Nimble®, Quip™, Relate®, Seek®, Scout®, Sum®, Tolleson, and Trooper® seating. Altitude®, Aware®, and Merge® tables are available, along with Align™ Lockers and metal storage, and the complete Essentials™ storage line. In addition, Extensions™ ergonomic accessories and lighting are part of the offering.
5. Orders received for the program must only contain Everyday Advantage identified product. Products included in an order that are not part of the program will cause the whole order to be acknowledged as regularly manufactured products.
6. All textiles and finishes are available, but some may have extended lead times.
7. Everyday Advantage orders are not limited to a minimum or maximum.
8. All orders ship based on standard lead times. Large-quantity orders of like products may be subject to longer lead times.
9. Standard freight terms apply.
10. If driver assistance is needed, standard driver assist charges will be added at time of order entry.

Allsteel Inc. reserves the right to amend or terminate this program at any time with 30 days written notice. Allsteel is not liable for service delays caused by force majeure (circumstances beyond Allsteel's control).

Storage is an essential part of the productive workplace.

Make storage a matter of personal choice as well as necessity. Choose from metal, laminate, or veneer with features like multiple pull styles, drawer sizes, finishes, and more. It's your workspace. Shouldn't it look like it?

PERSONAL STORAGE		LATERALS AND SHARED STORAGE	
1. Pedestal.	3. Personal tower.	5. Lateral file.	7. Storage cabinet.
Support, mobile, or suspended, with three drawer sizes.	Versatile storage with a small footprint. It's storage that goes up, not out. Combine drawers, personal storage, and wardrobe options for the right solution.	The storage workhorse, in multiple heights and widths. Works with systems furniture or by itself.	Equipped with hinged, locking doors and adjustable shelves to conceal and secure supplies.
2. Personal file.	4. Low credenza.	6. Combination file.	8. Bookcases.
Combines pedestal and lateral storage to create a personal filing solution for letter and legal size documents.	Active storage that creates a layered look in any workspace.	The perfect combination of file storage and shelf storage, with concealed or open shelves.	Quick access to information, in depths to match laterals or narrower profiles to stand on their own.

Align™ Metal Storage

Working with Pedestals & Credenzas

GSA Reference Page

"O" Frame Construction

Heavy duty outer shell and front and rear perimeter frames provides significant strength; helps keep the cabinet true to square.

File and Box Drawers

Full extension file and box drawers glide easily on steel ball-bearing suspensions; allows complete access to drawer contents with a quiet drawer motion.

Double-Wall Drawer Front

Drawer fronts are fully lined to reduce noise and to prevent damage from drawer contents.

Filing

File drawers can accommodate front-to-back and side-to-side filing. Order hanging frames separately.

Full Front Drawer Design

Drawer front is square and extends fully across the case.

Counterweight

Counterweights (standard on mobile pedestal units) inhibit tipping when drawers are opened. Optional counterweight kits.

Aesthetic Alignment

Drawer alignment matches across Align storage offering. Base height matches Stride® and Terrace® panel base.

Locking System

Robust lock system for security and reliability.

Core Removable Locks

Master-keyed core removable lock feature allows key numbers to be easily changed in the field and facilitates one-key access.

Omit Lock Core

Units can be shipped with lock cores removed; cores can then be installed after units are placed. Different storage components can be keyed alike within a workstation.

Mobile Pedestals

Mobile pedestals provide flexible storage and can be nested under worksurfaces. (Take into consideration when planning offices which may have uneven floors.)

Support Pedestals

Support pedestals can support one end of a panel-attached worksurface, in lieu of other worksurface supports, and can be used to support worksurfaces in deskung applications. Drawers align with laterals.

Freestanding Pedestals

Freestanding pedestal drawers align with credenzas.

Depth

Pedestals are 18", 23¼", and 29¼"D, and credenzas are 18" and 24"D, both can be used with systems worksurfaces. Placement may affect access to receptacles in base pathway and worksurface grommets.

Pull Styles

Choice of pull styles, available on pedestals, credenzas, towers, and laterals, allows for total design coordination on projects.

Veneer and Landscape Fronts

Contact Allsteel Tailored Products Group for availability.

Align metal storage models are available with Stride or Terrace feet, plus laminate front option.

Align™ Metal Storage

Working with Towers

GSA Reference Page

Offset Construction

As a result of the back and the top of the case sides being offset, the file case has a finished appearance with smooth seams and no overlaps.

Fully Enclosed Bottom

Double bottoms are welded into all files for added rigidity.

Four Hex-head Leveling Glides

Leveling glides can be adjusted from outside or inside the case. Because of the hex-head design of the stem, leveling can be done even when the file is fully loaded. Range is 2¾".

Double-Wall Drawer Front Construction

Drawer fronts are fully lined to reduce noise and to prevent damage from drawer contents.

Aesthetic Alignment

Drawer alignment matches other Align storage.

Full Front Design

Drawer and door fronts extend fully across the case.

Pull Styles

Choice of pull styles allows for total design coordination on projects.

Suspension

Heavy-duty, telescoping ball-bearing slides.

Omit Lock Core

Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Laterals can be keyed alike with pedestals, towers, and overhead cabinets.

Paint Finish

Durable baked enamel finish is applied over rust-inhibiting phosphate pre-treatment.

Core Removable Locks

Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

Align Personal Tower

Locking

Three locks secure doors and drawers on front access towers; two locks on side access towers.

European Hinges

Wardrobe and cabinet door both contain European-style hinged door.

Filing

File drawers can accommodate front-to-back and side-to-side filing. Order hanging frames separately. Hanging frames are compatible with metal case/metal front and metal case/wood front models.

ANSI/BIFMA Standards

Allsteel lateral files, incorporating the **required counterweights** in freestanding situations, meet or exceed the applicable ANSI/BIFMA Storage Unit Test Standards X5.9-2012.

Align Metal Support, Freestanding, and Mobile Pedestals

- Double-wall drawer construction.
- Steel, ball-bearing slide suspension with full-extension drawers.
- Heavy-duty steel O-frame.
- Support pedestals are available with flush or recessed plinth base, Stride feet, or Terrace feet.
- Full front drawers are available as metal or laminate.
- Box drawers have an adjustable divider.
- Standard core removable locks, see page 42.
- For locking specification, see pages 180-182.

**Align Metal Support Pedestals** (pages 34-37)

- Support pedestals have fully enclosed top.
- Support pedestals not used to support a worksurface require a pedestal top model (ASPT-XXXX) and counterweight kit (2282).
- Available as box/box/file or file/file drawers.
- Pencil trays included — one per pedestal with a box drawer.
- File drawer front reveals of support pedestals will align with Align metal laterals, towers, and credenzas.
- Leveling glides standard on freestanding pedestals.
- Hardware for attaching pedestal to worksurface is included
- 28 $\frac{3}{4}$ "H pedestals can be used to support worksurface at 29 $\frac{1}{2}$ "H.
- Align metal support pedestals are available with flush or recessed base, Stride feet, or Terrace feet.

**Align Metal Freestanding Pedestals** (page 36)

- Available as box/file drawers.
- Pencil tray included in box drawer.
- Drawer reveals of freestanding pedestals will align with Align credenzas.
- Leveling glides standard on freestanding pedestals.
- Align metal freestanding pedestals are available with Stride or Terrace feet.

**Align Metal Mobile Pedestals** (pages 34-37)

- Available as box/file, box/box/file or file/file drawers.
- To allow clearance under worksurfaces, an Align mobile pedestal is 1 $\frac{1}{2}$ " shorter than an equivalent Align support pedestal. This, combined with the leveling range of Align support pedestals, personal files, towers, laterals, and credenzas will result in an offset of horizontal drawer reveals of 1 $\frac{1}{2}$ " to 3".
- Counterweight is standard in mobile pedestals.
- Four casters.

Align Metal Support and Mobile Pedestal Tops and Accessories

**Align Pedestal Tops** (page 37)

Field installed tops create additional storage and work areas on metal support or mobile pedestals.

- Particle board construction in laminate.
- Seat cushion provides quick and convenient additional seating on box/file pedestals.
- Seat cushion adds approximately 2"H to pedestal.
- YPPA prefix models have stitched corners and bumpers on bottom.
- Seat cushion to be used on steel (mobile) pedestal top only.
- COM yardage for seat cushion is 0.9 yards.

**Align Pedestal Accessories** (page 37)

- Accessories are for use with Align metal: pedestals, personal files, and personal towers.

Align™ Metal Storage

Credenzas and Accessories

GSA Reference Page

Load Capacities (per current ANSI/BIFMA standards)

Align 22"H Credenzas	24" Wide	30" Wide	36" Wide
3 7/8"H Box Drawer	19 lbs.	24 lbs.	30 lbs.
10 1/2"H Box Drawer	50 lbs.	64 lbs.	78 lbs.

Credenzas (pages 38-43)

- Full metal construction with finished top and back.
- Welded case with "O" frame construction for added strength.
- Full front design with proud, double wall drawer fronts.
- Units are 18"D or 24"D, 17 1/4"D or 23 3/4"D on open bookcases.
- Interlock and full extension ball bearing slides on all drawers.
- Enclosed bottom pan on open bookcase and on box/lateral/open units.
- Available with Stride feet; Terrace feet; or plinth base, either flush or recessed.
- Drawer fronts are available as metal or laminate.
- PR6 Silver pull options: Arch, Square, Straight. Beveled and Integral pull options also available on metal front drawers.
- Plinth base option on drawer only units: recessed or flush.
- Leveling glides can be extended 1 1/2".
- Side-to-side filing bar included. Front-to-back filing with optional filing bar. Two rows of front to back letter filing on drawers 30"W or wider drawers, order 2 filing bars. See page 20.
- Accessories include: seat cushions, laminate tops.
- Planning: requires panel bracket, worksurface stanchion, or counterweight (sold separately) for units with drawers. See page 30 for specification examples.

Storage-to-Panel Bracket (page 42)

- Used to attach the back or side of storage to a panel frame to provide stability when used with Stride, Terrace, or Optimize panel frames.
- Handedness is determined by side of storage that attaches to panel when facing panel run.

Worksurface Support Stanchions (page 42)

- Worksurface stanchions are PR6 Silver and made of aluminum.
- Use 5"H stanchions for 22"H Align credenza with worksurface, or 6"H stanchions for credenza without a worksurface.
- Available in depths of 12" and 18". 12" is designed to work with 18"D worksurfaces and 18" with 24"D worksurfaces. Use two stanchions when mounting a 30"D or deeper worksurface.
- Stanchion orientation should run perpendicular to the length of the worksurface it is supporting.

Front-to-Back Filing Bar (page 42)

- Front-to-back filing bar can be positioned to accommodate letter, A4, or legal size documents. 30"W and wider drawers can accommodate two rows requiring two bars. See page 20.

Counterweight Kits (page 42)

- Metal weight attached to back of freestanding files to inhibit tipping; field installed only. Use of storage-to-panel bracket or worksurface support stanchion may eliminate need for counterweight kit — see examples on page 26.
- Counterweight kit required for freestanding files:

42"W and 48"W Credenzas.....	25 LB kit
24"W, 60"W, and 72"W Credenzas.....	35 LB kit
30"W and 36"W Credenzas.....	50 LB kit

Matte Silver Removable Lock Core Kit (page 42)

- Matte Silver used on Align credenzas with drawers. Includes one core, two keys, one core removal tool, adapter and instructions.
- The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — Random, Specified or Sequential. See page 182 for complete details and examples on the Allsteel Easy Lock program.

**Credenza Cushions** (page 43)

- Cushions are for use on 22"H Align credenzas to create additional seating.
- Cushions can be placed directly on metal top of unit or on laminate top.
- Freestanding applications require counterweights — see page 24.

Base Kick Plates for Align Credenzas (page 43)

- Allows field conversion of recessed plinth base unit to be flush with drawer front.

Laminate Tops for Align Credenzas (page 45)

- Tops are 1¼" thick and are field installed. For use in freestanding or layered applications.
- When 54", 60", 66", 72" and 84" tops span two credenzas, add "S2" suffix to add ⅛" to nominal width of top for freestanding or layered applications.
- For use on 18" and 24" deep Align credenzas. 36"D tops are available for 18"D credenzas placed back-to-back.

Align™ Metal Storage

Metal Credenzas with Panel Frames

GSA Reference Page

Plinth Base models available.

Side-mounted Credenzas

Use 1 storage-to-panel bracket per Credenza — 1 LH and 1 RH.

The minimum credenza size is 22"H x 36"W x 18"D or 24"D.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 22"H side mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 65".

Counterweight is required.

Back-mounted Credenzas — Modular

Use 2 storage-to-panel brackets per Credenza — 2 LH and 2 RH.

The minimum Credenza size is 22"H x 42"W x 18"D or 24"D.

The maximum panel run between back-mounted Credenzas is 60".

Overheads and shelves cannot be used with 22"H back mounted Credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.

Panel frame maximum height is 65".

Back-mounted Credenzas — Off-Modular Ends

Use 1 storage-to-panel bracket per Credenza — 1 LH and 1 RH.

The minimum Credenza size is 22"H x 42"W x 18"D or 24"D.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 22"H back mounted Credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.

Panel frame maximum height is 65".

Side-mounted Credenzas — with Return Panel

Use 1 storage-to-panel bracket on Credenza.

The minimum Credenza size is 22"H x 36"W x 18"D or 24"D.

The minimum size for panel return is 35"H x 36"W.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 22"H side mounted Credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the Credenzas.

Panel frame maximum height is 65".

Counterweight is required.

NOTE: This example would use a left-hand storage-to-panel bracket.

Align Lateral Files and Accessories

Align Accessories

Counterweight kit(s) (page 44)

- Counterweight kit(s) required for freestanding files:
 - 2-high 30"W file.....50 lbs.
 - 2-high 36"W files57½ lbs.
 - 2-high 42"W files70 lbs.
- Metal weight placed in bottom of freestanding files to inhibit tipping; field installed only.

Front-to-back Filing Bar (page 44)

- Front-to-back filing bar can be positioned to accommodate letter, A4, legal or EDP size documents. See page 25 for complete filing information. Front-to-back filing bar must be used with side-to-side hanging frame.
- For 12"H interiors.

Align Tops for Metal Storage

Metal Storage Laminate and Veneer Tops (page 45)

- Tops are field installed.
- 60", 66" and 72" tops span two lateral files. Add "S2" suffix to add ½" to nominal width of top for freestanding applications.
- 18"D tops are for 18"D lateral files and credenzas. 24"D tops are for 24"D credenzas. 36"D tops are available for 18"D storage placed back-to-back.
- Veneer lateral file tops by Gunlocke®.
- Tops are 1¼" thick.
- Stratawood veneer has a consistent straight-grain pattern. Natural veneer will have cathedrals with variations in grain pattern and tone.
- Recommended to complement any veneer or laminate flat edge worksurfaces.

Align™ Metal Storage

Tower Specification Information

[GSA Reference Page](#)

Plinth Base – Flush or Recessed

Foot Base – Stride® or Terrace DNA®

Plinth or Foot Base — 12"W Wardrobe / Locker

Align Metal Personal Towers (pages 44-49)

- Available with Stride feet; Terrace feet; or plinth base, either flush or recessed.
- Full front drawers and doors are available as metal or laminate.
- Wardrobe is 9"W.
- Cabinet door on 50"H, 57½"H, and 65"H units includes one adjustable shelf.
- Coat rod included in wardrobe portion of 50"H, 57½"H, and 65"H units for best aesthetics.
- Three locks secure drawers and door(s) on front access towers; two locks on side access towers. Standard core removable locks, see page 44.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Towers can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.
- Side access models include one worksurface bracket that is compatible with Align, Terrace®, Optimize™, and Concensys®.
- File side-to-side with hanging frames included.
- Heavy-duty, telescoping ball-bearing slides.
- Case has a finished appearance with smooth seams and no overlaps.
- Double bottoms are welded into all files for added rigidity.
- Leveling glides can be adjusted 2¾" from outside or inside the case. Hex-head design of the stem allows leveling to be done even when the cabinet is fully loaded.
- Drawer fronts are fully lined to reduce noise and to prevent damage from drawer contents.
- Drawer alignment matches other Align storage.
- In back-to-back applications with panels, it is recommended to place a panel between units for best aesthetics.

Align 12"W Metal Wardrobe / Locker (page 48)

- Available in 42½" and 50"H, plinth base or footed.
- 24"D models include coat rod and 18"D models a coat hook.
- Includes one adjustable shelf, additional shelves available as field installable model. Shelves can adjust at ½" increments in upper and lower section of the cabinet.
- Unit must be attached to a panel or worksurface. Use worksurface brackets YPWTAWSBKT18 or YPWTAWSBKT24, or panel mounting brackets AP22PBKLH or AP22BKRH.
- Field installable kickplate available to convert a recessed base to flush.
- Plinth base leveling glides provide 1½" of height adjustment; Terrace and Stride feet provide 2" of height adjustment.
- Lock secures door. Standard core removable lock, see page 42.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Wardrobe can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.

SINGLE LOCKERS**Plinth Base – Flush or Recessed****Foot Base – Stride® or Terrace®**

Align lockers provide a comprehensive solution of secure storage outside the primary workstation. Whether you're minimizing the overall workstation footprint or have mobile workers needing a place for their personal belongings, lockers provide the right amount of storage.

Align lockers include single, double, and quad locker variations, as well as an additional cubby solution. Designers have the freedom to select from a variety of aesthetic options including plinth or footed based, painted and laminate fronts, and a variety of pull options, to reflect any company culture.

DOUBLE LOCKERS**Plinth Base – Flush or Recessed****Foot Base – Stride® or Terrace®****All Align Lockers (pages 50-58)**

- Available in plinth base or footed with metal or laminate fronts.
- Field installable kickplate available to convert a recessed base to flush.
- Plinth base leveling glides provide 1½" of height adjustment; Terrace and Stride feet provide 2" of height adjustment.
- Lock secures door. Standard core removable lock, see page 42.
- Units can be shipped with lock cores removed; cores can then be installed after storage units are placed. Wardrobe can be keyed alike with pedestals, credenzas, laterals, and overhead cabinets.
- Installation instructions for lockers is available on the Allsteel Synergy website on the Align product page.
- Lockers are not meant to be wall mounted. Refer to installation instructions for ganging and mounting options.
- See page 23 for interior dimensions.

QUAD LOCKERS**Plinth Base – Flush or Recessed****Foot Base – Stride® or Terrace®****Align 12"W Single Lockers (pages 50-51)**

- Available in 42½" or 50"H and 18" or 24"D.
- 24"D models include coat rod and 18"D models two double coat hooks.
- Includes one adjustable shelf, additional shelves available as field installable model. Shelves can adjust at ½" increments in upper and lower section of the cabinet.
- Single lockers must be attached to a panel or worksurface. Use worksurface brackets YPWTAWSBKT18 or YPWTAWSBKT24, panel mounting brackets AP22PBKLH or AP22BKRH, or gang two or more units with common worksurface using double face tape.

CUBBY LOCKERS**Plinth Base – Flush or Recessed****Foot Base – Stride® or Terrace®****Align 12"W Double Lockers (pages 52-53)**

- Available in 57" or 65"H and 18" or 24"D.
- Models include two coat hooks in each compartment.
- Unit must be attached to a panel or worksurface. Use worksurface brackets YPWTAWSBKT18 or YPWTAWSBKT24, panel mounting brackets AP22PBKLH or AP22BKRH, or gang two or more units with common worksurface using double face tape.

Align 24"W Quad Lockers (pages 54-55)

- Available in 57" or 65"H and 18" or 24"D.
- All models include two double coat hooks in each compartment.

Align 24"W Cubby Lockers (pages 56-57)

- 18" depth and 35", 50", or 65"H.
- All models include two double coat hooks in each compartment.

Laminate Tops for Lockers (page 58)

- Tops are 1¼" thick and are field installed. For use in freestanding or ganging applications.
- When tops span two or more lockers, add ⅛" to nominal width of top for each additional unit. See examples on page 58.
- For use on 18" and 24" deep Align lockers. 36"D tops are available for 18"D lockers placed back-to-back.

Align™ Metal Storage

cover for finishes.

| | | | | .

3rd Option:
Edge:
See inside front
cover for finishes.

| | | | | .

4th Option:

9120 Exact Size:

Specify the EXACT Width and EXACT Depth you require. Width and depth is specified in ½" increments which is denoted as a single digit following the whole number dimension at the end of the model number string.

½" = 1 ¾" = 5
⅜" = 2 ⅝" = 6
¼" = 3 ⅜" = 7
⅛" = 4 no extra increment = 0

For example, when ordering a worksurface 24½"W x 18"D, specification should be 241Wx180D.

Essentials™ Metal Storage

Working with Pedestals

[GSA Reference Page](#)

Essentials Pedestals

- File drawers can accommodate front-to-back filing on all models, and side-to-side filing on 22½"D and 28"H models.
- Support pedestals of a maximum depth, relative to the worksurface depth, result in one panel receptacle position being inaccessible.
- 22½"D units cannot be used with 24"D Concensys® Freestanding.
- 28"H units cannot be used with any 30"D Concensys Freestanding or any 24"D panel-hung worksurface.
- For locking specifications, see pages 180-182.
- Leveling capacity is 2" on 28"H pedestals.

Support pedestals can support one end of a panel-attached worksurface, in lieu of other worksurface supports by using a 28"H support pedestal but cannot be used to support freestanding desking without an end panel.

Suspended pedestals mount to the underside of the worksurface using keyhole slots in top of pedestals. Do not mount suspended pedestals on bridges or peninsulas. Always mount suspended pedestals at end of worksurfaces.

When using suspended units on systems, a return panel should extend 18" minimum beyond leading edge of worksurface on which unit(s) is mounted.

Mobile Pedestals can be used to provide flexible storage. The nominal height of a mobile pedestal is equal to that of a freestanding pedestal of equivalent design. There is no need to add extra height for the casters.

Both 26½"H and 28"H mobile pedestals can be nested under worksurfaces mounted at 29½"H. If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.

Mobile pedestals cannot be leveled. Take this into consideration when planning offices which may have uneven floors.

Pedestal Compatibility with Cadence® Desking and Systems Worksurfaces				
Pedestal Depth	Freestanding		Systems Panel-hung Worksurfaces	
	24" Deep	30" Deep	24" Deep	30" Deep
18"	Yes	Yes	Yes	Yes
19½"	Yes*	Yes	Yes*	Yes
22½"		Yes	Yes*	Yes
28½"				Yes*

*Wire management grommet is blocked in these applications.

Note: Pedestal placement may affect access to receptacles in base pathway.

Essentials storage pedestals are available in 5 styles:

Worksurface height mobile and worksurface supporting pedestals have a taller base plate, resulting in a taller overall cabinet height. Consideration must be made to ensure that units align visually with each other and with selected Essentials lateral files. The accompanying chart will help you select the correct pedestal for your application.

Essentials Pedestal Model begins with	Style	Overall Height	Base Height	Spacer required below worksurface	Units align with these Essentials Lateral Models begin with
xx11	Seat height	22½"	2"	N/A	N/A
xx14	Suspended	19½"	N/A	N/A	N/A
xx18, xx38	Worksurface height mobile	28" **	3¼"	N/A	ELF8 (2-high only)
xx19, xx39	Worksurface supporting*	28"	3¼"	No	ELF8 (2-high only)

*Units will support conventional 29½" high worksurfaces.

**When using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride or Terrace, the panel glides need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.

Essentials Personal File

Lateral File Drawer

Lateral File Drawer contains dual-side locking.

File and Box Drawers

File and box drawers contain single-side locking.

Door with Shelf

Door (non-locking) with Shelf contains one shelf that is adjustable in 2" increments.

Hanging Frames

Side-to-side filing comes standard in lateral drawer.

Side Knockouts

Files have knockouts on each side to allow easy ganging of freestanding units to inhibit tipping.

Inset Drawer Design

Drawers are inset inside the case. Base plate is flush with drawer fronts.

GSA Reference Page

Core Removable Locks

Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

Omit Lock Core

Files can be shipped with lock cores removed; cores can then be installed after files are placed. Personal files and lateral files can be keyed alike with pedestals and overhead cabinets.

Four Pull Styles

Choice of four pull styles, also available on pedestals and laterals, allows for total design coordination on projects.

Four Hex-head Leveling Glides

Leveling glides can be adjusted from outside or inside the case. Because of the hex-head design of the stem; leveling can be done even when the personal file is fully loaded. Range is 1".

Suspension

Telescoping ball-bearing slides.

Essentials Personal Towers

Locking

One lock secures all drawers and separate locks on each door.

File and Box Drawers

File and box drawers contain single-side locking.

Open Shelves provide visibility for personal items and easy access to binders or resource books. Two adjustable shelves on 65" H and one adjustable shelf on 50" H.

European Hinges

Wardrobe and cabinet door both contain European-style hinged door.

Full Front Drawer Design

Door/drawer fronts are square and extend fully across the case. Base plate is recessed.

Worksurface Bracket

An Essentials tower to worksurface bracket can be ordered separately and mounted to side access models to support a worksurface.

Essentials™ Pedestals

Essentials Support and Suspended Pedestals (page 71)

- Steel, ball-bearing slide suspension with full-extension on file drawers, 90% extension on box drawers.
- File drawer has high sides to allow front-to-back filing.
- Side-to-side filing utilizes follower block and cross rail both standard in all pedestals.
- Pencil tray included — one per pedestal with box drawers.
- Follower block (APFB80) sold separately.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.
- Support units have four leveling glides.
- Counterweight is standard in mobile pedestals.
- Support pedestals not used to support a worksurface require a counterweight kit — order separately.
- Box drawers have adjustable divider.
- Caster package available to field convert support pedestals to mobile.
- Standard core removable locks.

Essentials Mobile Pedestals (page 71)

- Steel, ball-bearing slide suspension with full-extension on file drawers, 90% extension on box drawers.
- File drawer has high sides to allow front-to-back filing.
- Side-to-side filing utilizes follower block and cross rail both standard in all pedestals.
- Pencil tray included — one per pedestal with box drawers.
- Follower block (APFB80) sold separately.
- Counterweight is standard in mobile pedestals.
- Box drawers have adjustable divider.
- Rear casters swivel, front casters are fixed.
- Standard core removable locks.
- If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.
- Adjustable glide kit available to field convert mobile pedestals to freestanding.
- Casters on box/file mobile pedestal require installation.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.

Essentials™ Pedestals

Essentials Basic Support Pedestals (page 72)

- Support pedestals have fully enclosed tops.
- Steel, ball-bearing slide suspension with 90% extension on file drawers, and 75% extension on box drawers.
- Follower block (APFB80), pencil tray (A2280-000), and adjustable divider (PD80) for box drawers sold separately.
- Side-to-side filing utilizes two cross rails (AP519495) sold separately.
- File drawer has high sides to allow front-to-back filing.
- Support pedestals not used to support a worksurface require a counterweight kit sold separately.
- Caster package available to field convert support pedestals to mobile.
- Standard core removable locks.
- Adjustable Glide Kit available to field convert mobile pedestals to freestanding.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.

Essentials Basic Mobile Pedestals (page 72)

- Steel, ball-bearing slide suspension with 90% extension on file drawers, and 75% extension on box drawers.
- Follower Block (APFB80), pencil tray (A2280-000), and adjustable divider (PD80) for box drawers sold separately.
- Side-to-side filing utilizes two cross rails (AP519495) sold separately.
- File drawer has high sides to allow front-to-back filing.
- Counterweight is standard in mobile pedestals.
- Support pedestals not used to support a worksurface require a counterweight kit sold separately.
- Caster package available to field convert support pedestals to mobile.
- Standard core removable locks.
- If using 28"H Essentials mobile pedestals underneath a panel mounted worksurface on Stride®, Terrace®, or Optimize™ the panel glides will need to be extended a minimum of ¾" to allow for the mobile pedestals to slide underneath the worksurface.
- Adjustable glide kit available to field convert 26⅞"H – 28"H mobile pedestals to freestanding.
- For improved aesthetics on 28"H pedestals, order flush mount kick plates.

ASPT-24SC

Essentials Seat Cushion (page 73)

- Seat cushion provides quick and convenient additional seating.
- Seat cushion adds approximately 2"H to pedestal.
- YPPA prefix models have stitched corners and bumpers on bottom.
- ASPT prefix models have wrap around corners and attach with double-sided tape.
- COM yardage for seat cushion is ⅔ yard.

Essentials™ Personal Files

- Essentials Personal Files** (page 74)
- Matches inset drawer design of Essentials 28"H laterals.
 - Worksurface supporting.
 - Includes counterweights.
 - Ball-bearing suspension on all drawers.
 - Dimensions: 30"W x 18"D x 28"H.
- Note:** Essentials pedestals have a full front drawer design with a recessed base plate. Consider optional flush front kick plate for pedestals or towers if placed side-by-side with personal file.

- Essentials Personal File with Shelf** (page 74)
- Available with or without doors.
 - Opening is 23¼"H. It will accommodate one row of binders either above or below the shelf.
 - Shelf is adjustable in 2" increments.
 - Unit with doors is non-locking.

- Essentials Personal File with Lateral Drawer** (page 74)
- Available in two configurations: lateral drawer with open shelf and lateral drawer with file/box/box drawers.
 - Lateral drawer is locking.
 - One lock, located in the top, secures all drawers.
 - Opening on units with shelf is 11½". It will accommodate standard height binders.
 - Box and file drawers can be reconfigured in the field for either right or left hand configuration.

- Essentials Personal File with Door and Shelf** (page 74)
- Available with either file/file or box/box/file drawers and one door with a shelf.
 - Specify left or right for door location.
 - Opening on door side is 23¼"H. It will accommodate one row of binders either above or below the shelf.
 - Shelf is adjustable in 2" increments.
 - One lock, located in the top, secures all drawers.
 - The door is non-locking.

Essentials™ Personal Towers and Flush Front Kick Plates

Essentials Personal Towers (page 75)

- Matches full front drawer design with recessed base plate of Essentials pedestals.
- Store personal items such as briefcases, coats, gym bags, lunch coolers.
- Three keyed alike locks secure doors and drawers.
- Available in right- or left-hand configurations.
- Cabinet door on 50"H Towers has one adjustable shelf.
- Cabinet door on 65"H has two adjustable shelves.
- 9"W wardrobe portion includes a coat rod.
- Ball-bearing suspension on all drawers.

Flush Front Kick Plate (page 75)

- Mounts to base of tower to provide a flush appearance to coordinate with laterals and personal files

Essentials Personal Towers with Side Shelves (page 75)

- Matches full front drawer design with recessed base plate of Essentials pedestals.
- Store personal items such as briefcases, coats, gym bags, lunch coolers.
- Two keyed alike locks secure door and drawers.
- Available in right- or left-hand configurations.
- Wardrobe is 9"W.
- Open side shelf on 50"H tower has one adjustable shelf and one fixed shelf.
- Open side shelf on 65"H tower has two adjustable shelves and one fixed shelf.
- Wardrobe portion includes a coat rod.
- Ball-bearing suspension on all drawers.
- Tower to worksurface bracket mounts to user side of side access towers and is used to attach worksurface — order bracket separately.
- Flush front kick plates available — order separately. The kick plates provide a flush appearance to coordinate with laterals and personal files.

Essentials Accessories (page 76)

- All accessories are gray.
- Model L919491 used for front-to-back filing of all paper sizes in all drawer sizes except — letter in a 42"W case.
- Model L919492 for use in 42"W case for front-to-back filing of letter paper size

Essentials Combination Files (page 77)

- Combination cabinets match height of Essentials 5H laterals and storage cabinets.
- Combination cabinets are 30"W or 36"W and available as open shelves or hinged doors.
- Shelves are adjustable in 2" increments and are 15¼"D.
- Available in four pull styles — arch, square, integral, and beveled pulls.
- 64¼" combination cabinet has one fixed shelf and two adjustable shelves.
- Cabinets are fully assembled.
- Drawers feature three-part, telescoping, steel ball-bearing slides.
- Mechanical interlock inhibits opening more than one drawer at a time.
- For locking specifications, see pages 180-182.

Essentials Storage Cabinets, Overfiles, and Bookcases

- Essentials Storage Cabinets** (page 77)
- Storage cabinet matches height of Essentials laterals and combination files.
 - All cabinets are 36"W and are available in two heights.
 - Shelves are adjustable in 2" increments and are 15¼"D.
 - Available in four pull styles — arch, square, integral, and beveled pulls.
 - Storage cabinets have the following number of adjustable shelves:
 39⅞" high.....2 64¼" high.....4
 - Cabinets are fully assembled.
 - For locking specifications, see pages 180-182.

- Essentials Overfiles** (page 77)
- Cabinet shelf is adjustable in 1" increments up to 6" from center position. Shelves are 15¼"D x 1" thick.
 - Cabinets are 18" deep (not for use on 18¼" deep full front files).
 - Load capacities per shelf per current ANSI/BIFMA Standards:
 30"W..... 122 lbs.
 36"W..... 148 lbs.
 42"W..... 173 lbs.
 - Interior Dimensions – H x W 30 / 36 / 42" x D
 25" x 28⅞" / 34⅞" / 40⅞" x 16½"
 - Overfiles should be ganged to adjacent overfiles and/or anchored to lateral files, walls, or other rigid structures. Ganging knockouts and attaching bolts are provided for this purpose.
 - Does not have leveling glides — must be installed on flat, level surface such as lateral file top.
 - Cabinet doors have a full-height integral pull, standard with lock.
 - For locking specifications, see pages 180-182.

- Essentials 18"D Bookcases** (page 77)
- Essentials 18"D bookcases are same height as 3H or 5H Essentials laterals and storage cabinets.
 - Essentials 18"D Bookcases are all 36"W with open shelves.
 - Shelves are 1" thick. Interior height 34½"H or 59"H.
 - Shelves adjust in 2" increments. Shelf load capacity 107 lbs.
 - 39⅞"H unit has 2 adjustable shelves. 64¼"H unit has 4 adjustable shelves.
 - Inside shelf dimension 34½"W x 15⅞"D.
 - Bookcases are fully assembled.
 - Bookcases include leveling glides with 1" of adjustment.

- Essentials 12"D Bookcases** (page 77)
- Available in six heights from 29" to 81".
 - All units case dimensions are 33⅞"W x 12⅞"D.
 - Inside shelf dimension depth is 12⅞"D.
 - Shelves adjust in ½" increments. Shelf load capacity 114 lbs.
 - Bookcases have the following number of adjustable shelves:
 29" high1 59" high3
 41" high2 71" high4
 47" high3 81" high4
 - Shelves are ¾" thick. Interior 4¼" less than height.
 - Meets or exceeds ANSI/BIFMA and ISTA performance standards.
 - Bookcases do not include leveling glides.

Metal Storage Tops — Laminate or Veneer (page 80)

- Tops are 1¼" thick. 18" or 36" deep.
- 60", 72" and 84" tops span two lateral files. Add "S2" suffix to add ½" to nominal width of top for freestanding applications.
- For use on 18" deep laterals, overfiles, bookcases, and cabinets.
- Veneer lateral file tops by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Tops are field installed.
- 36"D tops are to be used for lateral files placed back-to-back.
- These tops will work with: Align metal case credenzas, Align lateral files, Essentials personal files, Essentials laterals, Essentials overfiles, and Essentials 18"D bookcases.
- Recommended to complement: veneer or flat edge laminate system worksurfaces.

Laminate Storage

Cubby and Shelves	158
-------------------------	-----

Where, how, and even what defines work is changing constantly. It's obvious that businesses are trying to understand what it means to successfully change with the culture and trends.

With Involve, we set out to discover how furniture can be used today as an impetus to an organizations change and yet perform well into the future as the organization continues to evolve.

Involve... one solution for all your needs.

A Fresh Approach

Furniture needs to work today with a fresh approach and innovative features. But support of tomorrow's needs is vitally important.

- Expand functionality of systems furniture, energize existing installs, and support changing work styles with Involve. Take existing investment and add functionality and relevance by changing out a few key pieces.
- The soft seating can be used within panel walls or pulled into freestanding or huddle room applications. The same casegoods work in private office or open plan configurations.
- Modularity of components allows for flexing of product application into the future. Involve lets you design for collaboration now while building in opportunity for future head count growth.

Changing Work Styles

From editing to brainstorming, number crunching to researching, today's work doesn't just happen in a task chair pulled up to a desk surface.

- Tired of the stodgy cubicle, users should be inspired by a fresh approach with innovative features that feel like furniture and less like a system.
- A task chair works for one job function and lounge seating works better for another. Involve supports the preferred posture for these activities while maintaining the desired home base for individuals.
- Untethered from the primary workstation, sharing of information can happen spontaneously around a screen or face to face. Involve components can be used across the floorplan offering the user multiple places to go as they work.

Get inspired by Involve.

Involve's modular design accommodates all the different ways work gets done.

Involve moves out of dedicated user spaces to create comfortable, functional meeting areas.

Involve® Laminate Wood Storage

Working with Peds and Credenzas

GSA Reference Page

Credenzas and pedestals ship fully assembled except for tops on 28"H and 42"H units are ordered separately to allow one surface to span multiple credenzas and pedestals. Tops are available in laminate with flat edge detail.

Available in solid and woodgrain laminate colors. On units with fronts, you can select one laminate for the case and a second laminate for the drawer fronts and doors.

Tops for 28"H and 42"H units must be ordered separately and can span multiple units. Most units are available in 18" or 24" depths.

Units are constructed from ¾" thick high-pressure laminated particleboard with laser fused edge banding and European cam-and-pin construction.

On two-tone caseloads, the credenza top including front "header" is the same color as the case on all credenzas that ship with a top. Example: Unit with frosty white case and charcoal walnut front has a frosty white top and header.

Choose footed design or plinth base for storage that sits on the floor.

Optional ganging bracket can be used to gang credenzas or pedestals in line.

Units feature three styles of pull options — arch, square or straight; and either Terrace or Stride style legs.

Units can be shipped with lock cores removed; cores can be installed after units are in place. Core removable lock feature allows key numbers to be easily changed in the field.

Stride feet for Involve have sleeves to conceal the leveling glides which have a 1½" leveling range. Terrace feet have a leveling range 2¼". The hex-head design of the stem allows leveling to be done even when the unit is fully loaded.

All drawers use full-extension slides. Interlocks are used where needed for stability.

Internal shelves are painted metal and adjustable to three levels (unless noted as fixed).

Feet are recessed ¾" from the front, ⅝" from the sides, and are flush to the back. On dual-access units feet are recessed ¾" on front and back.

Single sided sliding door units are non-handed; open half depends on door position. Doors lock in either position.

Powered credenzas are available. See pages 499-509.

Finished back

Open and partially open units come assembled with a finished laminate back.

Units with drawers or doors come with an unfinished back that is recessed. A laminate back is available for units up to 28"H (ordered separately) for use when the back of the unit will be exposed.

Three **pull styles** are available: arch, square, and straight. Drawer pulls and feet are molded with post-consumer recycled resin and powder coated to provide a durable surface.

Arch Pull

Square Pull

Straight Pull

Storage that sits on the floor is available with plinth base or feet. Footed design provides increased air flow. **Two feet options** are available to integrate with Terrace or Stride Systems.

Terrace

Stride

A seat cushion can be placed on the credenza or pedestal top for additional seating. **Soft seating units** are also available for use within the private office, open plan, reception areas, and beyond. Seat bases are ordered separately from seat base cushions and table tops. Seat bases can be used as tables when ordered with a side table top.

Seat Bases are ordered separately in widths of 24", 36", and 48". Seat Bases are 11"H x 24"D and are available with plinth base, Terrace® feet, or Stride® feet. Seat cushion(s) and/or table top(s) are ordered separately to complete the unit.

Seat cushions are designed to attach to the top of the seat bases. Offering includes: 24"W or 36"W banquette cushions or 24"W seat base cushions.

Tops are 24"D and available in widths of 12", 24", 36", and 48". Available in solid color and woodgrain laminate options. 24" wide top is available with or without power cutout. A power module is ordered separately.

Banquette cushion includes a seat back. Seat base cushions do not have a back.

Tops for seat bases are designed to sit on top of seat bases and can be used in combination with seat base cushions or banquette cushions. 12"-wide tops can be set on top of a 48" wide base with a 36" wide banquette cushion to create surface for drinks, papers, etc.

Seat base offering includes: with drawer or open. 48"W seat base with drawer has two drawers; design allows access to outbound drawers in corner applications. See illustration below showing four 48"W seat bases with 24"W cushions and tops in a U-shape configuration.

Seat bases are available in solid or woodgrain laminate options. Seat base with drawer can have a different laminate color on the drawer front than the case.

Corner table is used in a soft seating application. Corner table is 17½" high, 24" wide, and 24" deep. Illustration below is shown using plinth base units.

Open table is 11" high and is open at the front and back. Available in widths of 36" or 48" and depths of 18" and 24". Tables can be used to support electronics with back open for cord passage or can be used as a coffee table. 48" wide unit has a septum in the middle of the unit.

Involve® Laminate Wood Storage

Storage with Panel Frames

GSA Reference Page

Leg or plinth base models available. Leg base units are shown below.

Side-mounted Credenzas

Use 1 storage-to-panel bracket per credenza — 1 LH and 1 RH.

The minimum credenza size is 24"H x 36"W x 18"D.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 24"H side mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 65".

Back-mounted Credenzas — Modular

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.

The minimum credenza size is 24"H x 36"W x 24"D.

The maximum panel run between back-mounted credenzas is 72".

Overheads and shelves cannot be used with 24"H back mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 65".

Back-mounted Credenzas — Off-Modular Ends

Use 1 storage-to-panel bracket per credenza — 1 LH and 1 RH.

The minimum credenza size is 24"H x 36"W x 24"D.

With a mid-run floor support, the maximum panel run is 144"

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 24"H back mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 65".

Note: Storage with unfinished metal backs require storage-to-panel bracket kit in order to mount to a panel. Left- or right-handed storage-to-panel bracket is determined by slots on panel — left-handed bracket required when attaching to left panel slots and right-handed bracket required when attaching to right panel slots.

Involve storage with **unfinished backs** require **storage-to-panel bracket kit** in order to mount to a panel.

Optional laminate back is available (ordered separately) for use when the back of the unit will be exposed.

Plinth base units require a different laminate back model than leg base units.

An example of a 2D CAD symbol for Involve is shown at left. Note the dashed line that represents the unfinished metal back. The pound sign indicates that counterweight kits may need to be added depending on the application. See page 99 for counterweight specification rules.

Leg or Plinth Base models available. Leg base units are shown below.

Side-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.

The minimum credenza size is 28"H x 36"W x 24"D.

28"H side mounted credenzas must be mounted modular when using overheads and worksurfaces on panels.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.

Maximum overhead height is 15".

Panel frame maximum height is 65".

Back-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.

The minimum credenza size is 28"H x 36"W x 24"D.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

The maximum panel run between back-mounted credenzas is 72".

Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.

When using overhead cabinets or shelves, both sides of the run must have credenzas that are the same width as the panel.

Maximum overhead height is 15".

Panel frame maximum height is 65".

Side-mounted Credenzas — with Return Panel

Use 1 storage-to-panel bracket on credenza.

The minimum credenza size is 24"H x 36"W x 18"D.

The minimum size for panel return is 35"H x 36"W.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 96".

Overheads and shelves cannot be used with 24"H side mounted credenzas.

Worksurfaces (if specified) must be mounted on the same side of the parent run as the credenzas.

Panel frame maximum height is 65".

Side-mounted Credenzas — Modular for Overheads and Worksurfaces

Use 2 storage-to-panel brackets per credenza — 1 LH and 1 RH.

The minimum credenza size is 28"H x 36"W x 24"D.

The minimum size for panel return is 50"H x 36"W.

28"H side mounted credenzas must be mounted modular when using overheads and worksurfaces on panels.

With a mid-run floor support, the maximum panel run is 144".

Without a mid-run floor support, the maximum panel run is 72".

Overheads, shelves, and worksurfaces must be mounted on the same side of the parent run as the credenzas.

Maximum overhead height is 15".

Panel frame maximum height is 65".

Aesthetic Alignment
Tower heights align with Stride® and Terrace® panel segmentation.

Construction and Options
See page 92 for Involve storage construction details; and base, pull, and finish options.

Shelves
Internal shelves are painted metal and adjustable to three levels.

Filing
File drawers can accommodate front-to-back letter filing.

Wardrobe Door
All 24"W towers have full-height wardrobe doors with a coat hook.

Core Removable Locks
Towers can be shipped with lock cores removed; cores can then be installed after towers are placed. Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

Quantity of Lock Cores
Wardrobes with shelves, 18"W towers, and 12"W towers have one lock to secure door. All other towers have two locks — one secures the wardrobe door and the other secures all drawers.

Number of Adjustable Shelves in Tower			
Unit Height	Sides Access	Front Access	12" Wide
42½"H	N/A	N/A	1
50"H	1	0*	2
57½"H	1	1	2
65"H	N/A	2	2
72½"H	N/A	2	N/A

*Shelf can be ordered separately on pages 126 and 127.

Configurations
Towers are available in five heights: 42½", 50", 57½" 65" and 72½"H. Drawer configurations include box/box/file and file/file with portion above drawers being a hinged door; 50"H and 57½"H units offer a side access option in place of front facing hinged door. All 24"W units with drawers have a full-height 6"W wardrobe; 18"W units do not. Full wardrobes with 2 adjustable shelves and a coat hook are available in 65"H and 72½"H. 12"W units include 2 coat hooks and must be panel mounted or attached to a credenza or worksurface. Left- and right-handed units available for all configurations.

Worksurface Support
Tower can accommodate addition of an "L" tower bracket or tower rail.

An "L" tower bracket can be ordered separately and fitted to any tower to support worksurfaces at 29½"H.

A tower rail can be ordered separately and fitted to any tower to support worksurfaces at a height range of 27½"H to 30½"H.

See Stride Price List page 167 for visuals of a "L" tower bracket and a tower rail.

Stacking storage ships fully assembled. Units are designed to be placed on top of a worksurface or credenza and are attached with double-sided tape. Units line up on-module with Stride® and Terrace® elevations when mounted atop everything except a 24" high credenza. Units are available with hinged doors, hinged doors with side display, and open configurations.

Overhead storage components maximize the use of space in the workstation and provide convenient access to binders, reference materials, software packages, and miscellaneous supplies. Overhead cabinets are available with sliding doors, hinged doors, open, and dual access with sliding door or open. Laminate selection includes solid color, woodgrain, or two-tone (case/doors).

Overheads are constructed from ¾" thick high-pressure laminated particleboard with laser fused edge banding and concealed fasteners.

Locking clip feature secures storage units to panel.

24", 30"W, 36"W have 2 doors, 42"W 3 doors, and 48"W, 60"W, and 72"W have 4 doors, 84"W 6 doors, and 96"W have 8 doors.

LED undercabinet light can be mounted beneath laminate overhead cabinets for a low profile lighting option. (Recessed tasklights not recommended as bottom of laminate wood storage is not recessed.)

Involve® Laminate Wood Storage

Specification Information

[GSA Reference Page](#)

Wood Storage — Floor Based

- Plinth base or footed design with choice of feet that coordinate with either Stride® or Terrace®. (Unless unit is mobile.)
- Three pull options: arch, square, or straight.
- ¾" thick high-pressure laminated particle board with laser fused edge banding and European cam-and-pin construction.
- Available laminates: solid, woodgrain, or two-tone (case one laminate / front (door or drawer) a different laminate).
- 72"W units require Solid color laminate case, front can be woodgrain or solid.
- Doors and drawers lock except for stacking storage units and hinged cupboard doors on towers.
- Single sided sliding door units are non-handed; open half depends on door position. Door locks in either position.
- Some models require counterweights, wood backs, or ganging — see page 97.
- File drawers 30"W and wider accommodate legal size documents.

Mobile Pedestal (Plinth base or footed page 116)

- Box/file drawers; 24"H x 15½"W x 18"D.
- Has a top and finished back. Ships with counterweight.

Freestanding Pedestals (Plinth base or footed page 116)

- Box/file drawers; 24"H x 18"W x 18"D or 24"D.
- Have a top and unfinished back.
- Requires counterweight (order separately) if freestanding — see page 97.

Support Pedestals (Plinth base or footed page 116)

- Support pedestals include box/box/file, file/file, or open with one adjustable metal shelf.
- Support pedestals are 15½"W or 18"W; 18"D, 24"D and 30"D; and 28"H. They are meant to support worksurfaces; optional tops are available. With a top they are 29½"H.
- 30"D pedestals are designed to support 30"D worksurfaces; drawer depths are the same as 24"D pedestals.
- Open w/shelf models have finished laminate backs; backs on other models are unfinished with optional laminate back ordered separately if back is exposed.

17½"H Credenzas (Plinth base or footed page 117)

- 18"D or 24"D; includes tops. Some models require counterweights or ganging — see page 97.
- Single lateral has one drawer, 30"W or 36"W. Requires counterweights. Optional laminate back ordered separately.
- Single lateral w/open side cubby is handed — drawer, left, or right; 48"W, 60"W, or 72"W.
- Table (closed base) units are 24"W x 24"D.

24"H Credenzas (Plinth base or footed pages 118-119; Powered pages 152-153)

- 18"D or 24"D with tops.
- Box/lateral is 30"W and box/box/lateral is 36"W. Optional laminate back ordered separately.
- Box/lateral w/open side are handed — drawer, left, or right; 48"W, 60"W, or 72"W.
- Sliding door w/adjustable metal shelf; 36"W or 48"W.
- Open binder units have an adjustable metal shelf; 18"W, 24"W, 30"W, or 36"W.

28"H Support Credenzas (Plinth Base or footed pages 120-121;

Powered page 154)

- 18"D or 24"D without tops.
- Units are designed to support worksurfaces; tops must be ordered separately. With top, credenzas are 29½"H.
- Box/box/lateral are 24"W or 30"W. box/box/project drawer/ lateral is 36"W. Optional laminate back ordered separately.
- Lateral/laterals are 30"W or 36"W. May require counterweights — see page 19. Optional laminate back ordered separately.
- Sliding door units w/adjustable metal shelf and an open top shelf; non-handed, 36"W or 48"W.
- Open cubby models have an adjustable metal shelf; 24"W, 30"W, or 36"W.

42"H Credenzas (Plinth base or footed page 122)

- Units are 18"D and designed to support worksurfaces; tops must be ordered separately. With worksurface, credenzas are 43½"H.
- 3-drawer lateral has a laminate back with seams and is 36"W. Aesthetic should be considered in applications where back is visible.

Cam Cover Kits (page 125)

- 17½"H, 24"H, and 28"H credenzas ship without cam covers. Cam cover kits can be ordered separately. 20 cam covers in each kit.

Bookcases and Bookcases with Lateral File (Plinth base or footed page 123)

- Open bookcases are 15"D. 65"H have 2 adjustable and 1 fixed shelves. 72½"H have 2 adjustable and 2 fixed shelves.
- Bookcases w/lateral are 24"D with 15"D upper bookcase. 65"H have 2 fixed shelves. 72½"H have 1 fixed and 2 adjustable shelves.
- Pin-and-cam fasteners visible from the front are covered with cam covers.
- Backs of all units have exposed pin-and-cam fasteners. Optional cam covers are available to order. Aesthetic should be considered in applications where back is visible.

Tops and Cushions for Pedestals and Credenzas (page 124)

- Laminate tops are 1¼" thick and 18"D or 24"D, for use on storage without tops in freestanding applications. Certain freestanding applications require counterweights or ganging — see below.
- Cushions are for use on 17½"H and 24"H storage with tops to create additional seating.

Counterweight Kits (page 125)

- Counterweight is attached to the bottom of a credenza to inhibit tipping.
- Kits must be ordered separately (see page 125) based on type and depth of unit and field-installed.
- Units designated to be ganged must be ganged to at minimum a 36"W unit with non extendable elements (i.e. KL243618N).
- Counterweight kits required for freestanding pedestals and credenzas:

HEIGHT / WIDTH	DEPTH	REQUIRED KITS
24"H Pedestals		
18"W	18"D	2 Kits & Wood Back
	24"D	2 Kits*
	30"D	0 Kits
28"H Pedestals		
15"W or 18"W	18"D	2 Kits & Wood Back
	24"D	2 Kits
	30"D	0 Kits
17"H Single Lateral Credenzas		
30"W or 36"W	18"D	2 Kits & Ganged*
	24"D	0 Kits & Ganged
17"H Single Lateral w/Open Side Credenzas		
48"W, 60"W, or 72"W	18"D	1 Kit
	24"D	0 Kits
24"H Lateral w/Box Drawer(s) Credenzas		
30"W or 36"W	18"D	4 Kits & Ganged*
	24"D	4 Kits & Ganged*
24"H Lateral w/Open Side Credenzas		
48"W, 60"W, or 72"W	18"D	3 Kits
	24"D	0 Kits
28"H Lateral w/Box Drawers Credenzas		
24"W	18"D	2 Kits & Ganged*
	24"D	2 Kits & Ganged*
30"W or 36"W	18"D	4 Kits, Wood Back, & Ganged
	24"D	1 Kit & Ganged*
28"H Lateral/Lateral Credenzas		
30"W or 36"W	18"D	3 Kits & Wood Back
	24"D	3 Kits*

Units designated with an "" may have 1 counterweight kit removed if a finished wood back is installed.

- Counterweight kit(s) and/or wood backs are not required if ganged back-to-back.
- One counterweight kit can be removed for each additional 36" width of ganged storage to units with non extendable elements.

Example: (1) 28"H x 36"W x 24"D Lateral/Lateral Credenza
+ (2) 28"H x 36"W x 24"D Open Credenzas
(3) kits - (2) kits for 72" ganged = (1) **total kit required**

Ganging Brackets (page 125)

- Ganging brackets attach to underside of Credenzas.
- Can be used in place of Counterweight Kits based on counterweight requirements above.
- Unique ganging bracket models for footed and plinth base models.

Metal Shelves (pages 126-127)

- Pullout shelves have a 50 lb. weight capacity and are field-installed using supplied template.
- Pullout shelves are 2"H x 18"W, 24"W, 30"W, or 36"W; and 12"D, 18"D or 24"D in Core, Select, and Accent paint colors.
- Pullout shelves can be used in open cubby space with box/lateral credenzas with septum (exception of sliding door credenzas with septum).
- Additional metal shelves with pins in dimensions for open units are available in Core, Select, and Accent paint colors.

Soft Seating — Bases/Tops/Cushions and Tables

(Plinth base or footed pages 128-129)

- Bases, either plinth base or leg base units, are ordered separately from seat cushions and table tops. 11"H x 24"D seat base comes with drawer(s) or open shelves; unfinished back and no top. 24"W, 36"W or 48"W.
- Order seat base top(s) 12"W, 24"W, 36"W, or 48"W; or 24"W seat base cushion(s); or banquette cushion(s) (24"W or 36"W) separately to fill entire width of seat base.
- 24"W seat base top is available with power module cutout. Power modules ordered separately with USB, iPod, or Ports.
- Seat base drawer fronts have finger pocket on underside.
- Low open table with top is 11"H and can be used in a soft seating application; 36"W or 48"W and 18"D or 24"D.
- Corner table w/top is closed on all sides; 17½"H x 24" x 24".
- When creating a 90° setup using three seat bases, use of ganging bracket replaces front visible foot on corner seat base.

Personal Towers (Plinth base or footed pages 130-134)

- Available in heights of 42½", 50", 57½", 65", and 72½".
- Available in right-hand and left-hand configurations. Box/box/file and file/file — front hinged door or side access models with or without 6" wide full-height wardrobe.
- 12"W towers must be attached to a panel, worksurface, or credenza.
- 18"W towers must be attached to a worksurface.
- Pilot holes in case to use "L" tower bracket or tower rail.
- Shelves in hinged door models are adjustable.
- Shelves in side access models are adjustable.
- Full width wardrobe 18"W or 24"W with 2 adjustable metal shelves on 65"H or 72½"H. 24"D have hanging rod; 18"D have double-hook.
- Pin-and-cam fasteners visible from the front and behind a door are covered with cam covers.

"L" Tower Bracket (page 134)

- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- For use with laminate and painted wood storage only.
- The depth of the worksurface and tower should be equal.

Tower Rail (page 134)

- The tower rail mounts to the user side of towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the tower.
- Requires rail bracket kit for worksurface — order separately.

Stacking Storage (page 135)

- Units are 18" deep; 20", 27½", 35", and 42½"H. Open units 18"W or 24"W and hinged door units 18"W. 24"W hinged door with 6"W side display available 20"H or 27½"H.
- Units are non-locking and designed to be attached with double-sided tape on top of a 28"H properly supported storage unit worksurface and align with Stride®, Terrace® or Optimize™ elevations.
- Stacking Storage units can not be stacked on each other.
- 42½"H units have two adjustable-height metal shelves; 27½"H and 35"H units have one adjustable shelf.
- Pin-and-cam fasteners visible from the front and behind a door are covered with cam covers.

Overhead Storage (pages 135-137)

- Units include: hinged door, sliding door, dual-access, and open.
- 15"H units are designed to mount on module to a panel (Terrace or Stride — order panel mount brackets separately) or mount atop stanchions — ordered separately. 15"H and 22½"H units mount to a hard wall using horizontal wall-mount bracket — ordered separately. 22½"H have fixed metal shelf and can only be wall mounted. *See page 93 for panel mounting rules.*
- No double stacking of laminate overheads.
- 24"-36"W hinged door cabinets have 2 doors with one lock on the front of the cabinet; 42"W 3 doors with two locks; 48"W, 60"W, and 72"W have 4 doors with a center security septum and two locks; 84"W 6 doors, two septums, and three locks; 96"W 8 doors, three septums, and four locks.
- Sliding door overheads have one door with one lock that can only be locked when the door is in the left-hand position.
- Back side of single sided units are not meant to be exposed.
- Dual-access units are 18"D and designed to be used between two stations with Terrace panel system. Open units are 36"W, 48"W or 60"W; sliding door units 60"W or 72"W lock.
- Overhead cabinets feature self-engaging safety latch to secure the cabinet to panel.
- Specify low profile LED tasklights. *See page 138.*
- Pin-and-cam fasteners visible from the front, bottom, and behind a door are covered with cam covers.
- Overheads 72"W or greater cannot be panel mounted. For stanchion mounting and wall mounting only.
- When stanchion mounting 72"W or greater overheads, a taskpanel kit is required on one or both sides.
- A mid stanchion is required with overheads 72"W and wider.
- A taskpanel kit is required when attaching 72"W and wider overheads to a single adjacent tower using the tower-to-overhead bracket kit.
- Taskpanel kits are not required when attaching 72"W and wider overheads to two towers using the tower-to-overhead bracket kits.
- When wall mounting overheads 72"W and wider use two brackets: 2-36"W for 72"W, 2-42"W for 84"W, and 2-48"W for 96"W.
- When ordering a two-tone option for overheads 72"W or greater, the case must always be a solid laminate color.
- Woodgrain laminate option limited to doors for overheads 72"W or greater. Case must be a solid laminate color.

Laminate Shelf, Book Shelf, and Open Box (page 137)

- Units are designed to mount on module to a panel (Terrace® or Stride® — brackets provided).
- Cannot be wall-mounted.
- Ship with panel mount brackets installed.
- Capacity not to exceed 50 lbs. on laminate shelf.

Overhead Stanchions (page 138)

- Aluminum, mid, and non-handed; 5", 11", 12", 18", 19¼", 26", and 27"H.
- 15"D used with single sided overheads, 18"D with dual access.
- Stanchions for 24"H credenzas with tops aligns unit with panel or storage: 11" stanchions align with 35"H; 18"H aligns with 42½"H; 26" aligns with 50"H.
- Stanchions for 28"H credenzas on 29½"H surface aligns unit with panel or storage: 5" stanchions align with 50"H; 12"H aligns with 57½"H; 19¼" aligns with 65"H; 27"H aligns with 72½"H.
- Overheads 72"W and wider require a mid overhead stanchion.
- Unfinished back may be exposed in freestanding application.
- Overhead stanchions are not recommended to be used on freestanding desks.

Tower-to-Overhead Bracket (page 138)

- Used when stanchion mounting 72"W, 84"W, or 96"W overheads to an adjacent tower.

Horizontal Wall-Mount Brackets (page 138)

- Use to attach an overhead directly to wall.
- Attachment hardware not included.

LED Undercabinet Light (page 138)

- Low profile energy-efficient LED tasklight for use with Involve overhead storage cabinets. Attachment hardware included.
- 95 footcandles at 18"; 3500K color temperature.
- 15W power supply is attached to plug; allow 1⅞"D space at outlet. Includes 3 cord retainer clips.

Hutches (page 140)

- Units include: hinged door, sliding door, and open.
- Designed for use on top of 28"H credenzas with a worksurface of same or greater width — 35"H align with 65"H and 42½"H with 72½"H elevation.
- Laminate hutches are not recommended to be used on freestanding open gable desks.
- Laminate hutches ship fully assembled and attach to a worksurface with double sided tape.
- When ordering a two-tone hutch with a woodgrain case 66"W and wider, the woodgrain direction on the lower back runs horizontal (tackboard recommended). The upper back woodgrain runs in a vertical direction.
- 48"-72"W hinged door cabinets have 4 doors with two locks on the front of the cabinet and a center security septum, 84"W has 6 doors with three locks and two security septums.
- 48"-66"W sliding door overheads have one door with one lock. 72" and 84"W have 2 doors with two locks and two security septums. Doors can only be locked when the door is in the left-hand position.
- 35"H have 19¼" of clearance and 42½"H have 27¼".
- Specify low profile LED task lights.
- Pin-and-cam fasteners visible from the front, bottom, and behind a door are covered with cam covers.

Tackboards for Hutches (page 141)

- Use tackboards to finish the back of a hutch.
- Tackboards are recommended on woodgrain laminate hutches since woodgrain runs horizontal as opposed to vertical.
- Specify paint color for metal frame and panel fabric.
- 66"W, 72"W, and 84"W ship as two tackboards and a center splicer for routing cables.

Primary Center Grommet Worksurfaces for use with Hutches (pages 142 and 144)

- For use with Involve laminate hutches (72"W and 84"W) when a grommet or scallop is needed in the center of the worksurface which the hutch is sitting on.
- Rectangular only, in 72"W and 84"W — laminate with flat or rabbet edge and veneer with square or rabbet edge.
- Always includes center grommet position; left, right, or left and right additional grommet positions are optional.
- Oval plastic grommets are standard; metal grommet(s) are optional.

Involve® Worksurfaces

Working with Worksurfaces and Supports

GSA Reference Page

Laminate worksurfaces are 1¼" thick with particle board core and with top surfaces finished in high-pressure laminate. Bottom surfaces are covered with a backer sheet.

Expanded worksurface offering including linear taper and the new sweep shaped worksurfaces to support the integration of Involve soft seating and 18"D storage into the workplace.

Wire management grommets are standard in most worksurfaces (unless specified without grommets).

Support Guidelines

- Unsupported panel runs greater than 72" need floor support for improved stability.
- Worksurface bracket kit should be used to tie panels to worksurface for added stability.
- A panel run without a return needs a floor support.

Worksurface stanchion supports worksurface by attaching to an adjacent panel and 24"H Involve storage below.

Involve open end-panel supports are used at the end of a run for a light-scale look when no return panel is present. A closed end-panel option is also available in 18"D, 24"D and 30"D for either Flat or rabbet edge worksurfaces. Not for use with T-mold worksurfaces.

Open end-panel supports cannot be used as inline support leg, or used to connect two worksurfaces.

Primary worksurfaces are available in 18", 24", and 30" depths. Nominal worksurface width is equal to nominal panel width. Unsupported worksurface spans of 60"W-84"W require an external worksurface support channel. It is recommended for spans 48"W-59"W. See pages 103 and 147. Support hardware is ordered separately.

Corner worksurfaces with woodgrain laminate and veneer have grain direction diagonal to adjacent worksurfaces. One rear center support bracket is included. All other support hardware is ordered separately.

Secondary worksurfaces are available in 12", 18", and 24" depths. Support hardware is ordered separately.

Credenza and pedestal tops are specified separately for 28"H and 42"H units to allow the spanning of multiple peds or credenzas.

Threaded-metal inserts are standard for ease of installation and a positive fit. Worksurfaces can be panel hung or used in freestanding applications.

Worksurface stanchions are used to support worksurface when mounted atop a 24" high Involve credenza. Worksurface stanchions are 5¼"H and made of aluminum. They are available in depths of 12" and 18" and used to support surfaces 18", 24", and 30" deep.

Flat Edge trim is available on laminate tops in eleven standard colors (customer specified) to match solid laminates and to complement patterned or in fourteen woodgrain edges color matched to the woodgrain laminates. Veneer worksurfaces have veneer edge.

Rabbet Edge trim is available on select laminate and veneer tops. These worksurfaces and credenza tops have rabbet edge detail on all sides.

Wire management grommets are standard in most worksurfaces and are specified in plastic or metal. **Metal grommets** are available in oval or square (shown above).

Primary and Linear Taper Worksurfaces (pages 142-145)

- Wire management grommets standard, one for widths up to 36", two on widths 42"W and greater. Add "N" suffix for no grommets.
- Worksurfaces 66" and over require a cantilever bracket for center support in panel mounted applications. Specify 18" cantilever on 24"D, and 24" cantilever on 30"D worksurfaces.
- Desking worksurfaces should be specified for spans 60" and over when worksurfaces are not panel-attached with additional support along the width. For desking applications and widths greater than 72", additional to-the-floor support is recommended.
- Laminate flat edge worksurfaces can be specified with scallop wire management detail with no upcharge by adding suffix "S" to the model number.

Primary Desking Worksurfaces (pages 142-145)

- Ships with an external worksurface support channel which extends 1½" below the worksurface and is inset 6" from each end. Support channel is field installed to allow for larger worksurface spans and ships separately.
- Wire management grommets standard, one for widths up to 36", two on widths 42"W and greater. Add "N" suffix for no grommets.
- Laminate flat edge worksurfaces can be specified with scallop wire management detail with no upcharge by adding suffix "S" to the model number.

EZ View Transition Worksurfaces (pages 142 and 144)

- Surface is non-handed, with one wire management grommet centered on the 36"D end. Add "N" suffix for no grommets.

External Worksurface Support Channel (page 147)

- Extends 1½" below the worksurface.
- Is required on a systems worksurface for additional support for spans greater than 60"; or if a full depth horizontal storage unit is installed under the worksurface.
- Required when mounting a Stride® modesty panel.
- When using Involve supports, specify a standard worksurface and an external support channel of a smaller size. The size of the external support channel will depend on the distance between supports.

Freestanding Open End Panel Supports — Metal

(page 146)

- Available 29½"H and 18"D, 24"D and 30"D. Non-Handed.
- Order according to type of worksurface (flat/square or rabbit edge) the end panel leg will support.
- When using an open end support with a tapered worksurface, either position the same depth end support on the narrow end of the worksurface or use a smaller depth support on the wide end to avoid the support extending beyond the edge of the tapering surface.
- May not be used to build a freestanding table.
- Adjustable glides have a leveling range of 2¾".

Panel-Mounted Open End Panel Supports — Metal

(page 146)

- Available 29½"H and 18"D, 24"D and 30"D. Handed.
- Handedness is determined by position relative to the user. Specify a left hand leg to be on the user's left hand side, specify a right hand leg to be on the user's right hand side.
- Order according to type of worksurface (flat/square or rabbit edge) the end panel leg will support.
- When using an open end support with a tapered worksurface, it is recommended to position the end support on the narrow end of the worksurface.
- Adjustable glides have a leveling range of 2¾".

Freestanding Closed End Panel Supports — Laminate

(page 146)

- Available 29½"H and 18"D, 24"D and 30"D. Non-handed.
- Can be used to build a freestanding desk or console table if specified with a full height modesty panel. See chart on page 148.
- Can not be used with rabbit edge worksurfaces.
- Includes laminate end-panel, attaching hardware and adjustable glides.
- Adjustable glides have a leveling range of 2¾".

Panel-Mounted Closed End Panel Supports — Laminate (page 146)

- Available 29½"H and 18"D, 24"D and 30"D. Non-handed.
- Can not be used with rabbit edge worksurfaces.
- May not be used to build a freestanding table.
- Includes laminate end-panel, panel mount bracket (non-handed), attaching hardware and adjustable glides.
- Adjustable glides have a leveling range of 2¾".
- Includes hardware to convert freestanding end-panel to panel mount. 24"H or 30"H and left- or right-handed.

Storage-to-Panel Brackets (page 146)

- Used to match the back or side of storage to a panel frame to provide stability when used with Stride or Terrace frames.
- Handedness is determined by side of storage that attaches to panel when facing panel run.

Post Leg (page 147)

- Used to support worksurfaces at 29½"H.
- Adjustable glides have a leveling range of 2¾".

Worksurface Stanchion (page 147)

- Worksurface stanchions are 5¼"H for Involve credenza and made of aluminum.
- Used to support worksurface when mounted atop a 24"H Involve credenza. (4"H designed for 22"H Stride credenza.)
- Stanchions are field located on 24"H storage, either centered or offset 3" from edge to create additional piling space between storage and worksurface.
- Available in depths of 12" and 18". 12" is designed to work with 18"D worksurfaces and 18" with 24"D worksurfaces. Use two stanchions when mounting a 30"D or deeper worksurface. Stanchion orientation should run parallel to the length of the worksurface it is supporting.

"L" Tower Bracket (page 134)

- Used to support a worksurface at 29½"H.
- Attaches using pre-drilled holes inside the tower.
- For use with laminate and painted wood storage only.
- The depth of the worksurface and tower should be equal.

Tower Rail (page 134)

- The tower rail mounts to the user side of towers and is used to attach worksurfaces at a height range of 27½"H to 30½"H.
- Attaches using pre-drilled holes inside the Tower.
- Requires rail bracket kit for worksurface — order separately.

Involve® Screens

Working with Modesties, Privacy, Divider, and Taskpanels

GSA Reference Page

Light-scale screens provide space division. There are four options available: surface mounted modesties, privacy panels, divider panels, and taskpanels.

Surface mounted modesties are mounted to the underside of the desking worksurface or worksurface with external support channel. They are 11"H and available in laminate or frosted glass. Single or shared (laminate only) mounting models are available. Laminate models include a wire tray on one side of single units and on both sides of shared models. There is an optional wire tray available for glass units.

Privacy panels extend above and below the desking worksurface acting as both a screen and a modesty panel. They are 25"H and available in laminate or glass (frosted or writeable). Single or shared (laminate only) mounting models are available. Laminate models include a wire tray on one side of single units and on both sides of shared models. There is an optional wire tray available for glass units.

Divider panels attach to laminate back of credenza to provide space division between workstations. They are available in laminate in heights of 42½" and 50".

Taskpanels mount between stanchions under overhead storage cabinets. They are available as tackable, marker board, or laminate in 12", 18", 19", 26", or 27" heights.

Specification Rules for Modesties and Privacy Panels

When mounting a modesty panel or a privacy panel use a desking worksurface or worksurface with an external support channel added. When mounting a modesty flush to the edge of a worksurface to 7" in from the front edge, the modesty must be 14" narrower than worksurface width.

When using a power/data module between a privacy panel and a worksurface, the privacy panel must be mounted 1" away from edge of the worksurface. Privacy panel can be mounted flush to the edge of the worksurface if power/data module is not used.

When using a power/data module with a surface mounted modesty panel, the

modesty panel must be inset a minimum of 2" in from the edge of the worksurface.

Privacy panel width can be same width as worksurface. *Example:* 60"W privacy panel can be used on a 30"D x 60"W worksurface. Width of panel is undersized by ¼" providing a ⅛" gap when centered. Placement or use of a modesty must be 12" narrower than worksurface width when using Involve open and closed gable ends.

When using modesty with a Stride post leg, the width of the modesty can be the same as the worksurface, but must be mounted 8" or more in from the front edge of the worksurface.

Freestanding Table

Applications:

Privacy panels require a minimum worksurface depth of 30" for freestanding applications. Surface mounted modesties can be used with any depth freestanding application.

Panel Applications:

When using a privacy panel in a back-to-back application the adjacent panel run requires an extended straight connector to compensate for depth of shared privacy panel.

Full-Height Modesty Panels (page 148)

- Full height modesty panels are designed to create a desk. A desk can be created with a modesty panel, worksurface, and storage or gable ends on each side — see chart on page 146.
- Available in solid and woodgrain laminate color options. Modesties 61" wide or larger are limited to solid laminate colors only.
- It is recommended to recess the modesty in from the edge of the worksurface. When using with a 24"D surface, recess modesty 6". When using a 30"D surface, recess modesty 6" or 12".
- If attaching desk to a panel on one side, use a storage-to-panel bracket kit.

Surface Mounted Modesties (page 149)

- Laminate and glass models available for single use only.
- Surface mounted modesties mount to underside of surface to provide privacy below worksurface height.
- Surface mounted modesties are 11" high and ¾" thick laminate or ⅝" thick frosted glass.
- Single modesties mount on a single worksurface with two brackets. Laminate models have a single wire tray.
- When a laminate surface mounted modesty is specified under a worksurface supported on one end with an open or closed gable end support, the width of the laminate modesty should be a minimum of 3" shorter than the worksurface.
- When a surface mounted modesty panel is installed under a table with gable end legs on both sides, the modesty must be 12" narrower than the table.
- Glass modesties must always be 12" narrower than worksurface. When mounting a glass modesty to a worksurface the modesty must be centered.
- When using a glass modesty underneath a worksurface with electrical grommet cutouts on both corners, the modesty must be inset at least 8 inches from the front edge of the worksurface.

Privacy Panels (page 150)

- Laminate and glass models available for single use only.
- Privacy panels mount to the back side of worksurface(s) and extend above and below the worksurface(s) acting as both a screen and a modesty panel.
- Privacy panels are 25"H and ¾" thick laminate or ⅝" thick glass (frosted or writable).
- Single privacy panels mount on a single worksurface with two brackets. Laminate models have a single wire tray.
- Inset mounting bracket design provides mounting room for legs or open end panel support allowing the width of laminate privacy panels to match width of worksurface.
- Glass screen do not ship with wire channel. If wire channel is needed, use Stride® desking wire channel.
- Glass privacy panels must always be 12" narrower than worksurface. When mounting a glass privacy panel to a worksurface the modesty must be centered.
- When using a worksurface with electrical grommet cutouts the corner of the mounting bracket will be slightly visible from opening of the grommet.

Divider Panels (page 150)

- Divider panels can be attached to the back of 24"H credenzas to provide space division between workstations.
- Offered in laminate in widths to attach to 30"W, 36"W, 48"W, and 60"W plinth base credenzas; and heights to align with 42½"H and 50"H modules.
- Mounting brackets provide a 1" cord drop space between edge of worksurface and the ¾" thick divider panel.
- A cableway is provided on the inside of the divider panel to facilitate the passage of wires.
- Mounting brackets and cableway are available in black only.
- The mounting of the divider panel is designed to center the ¾" thick panel within the lateral space created by adding an extended straight connector in a panel spine.
- When specifying a divider panel to be attached to a credenza with an unfinished back, a laminate credenza back must also be specified for attachment of the divider panel brackets.
- Divider panel cannot span two credenzas side-to-side.
- Divider panels are designed to be used in single-sided application.
- Divider panel lines up with bottom of credenza case.
- Counterweight kits are still required in credenzas as rules state on page 99.

Taskpanels (pages 151-153)

- Taskpanels are available in laminate, marker board, or tackable material and attach between stanchions supporting an overhead storage cabinet.
- Taskpanels are available in 30"W, 36"W, 42"W, 48"W, 60"W, 72"W, 84"W, and 96"W. 72"W and wider consist of two panels. Nominal width of taskpanel should match width of overhead storage cabinet.
- Taskpanels are available 18"H or 26"H for use with 24"H credenzas; and 12"H, 19"H, or 27"H for use with 28"H credenzas. Nominal height of taskpanel should match stanchion height.
- Laminate and tackable taskpanels are encapsulated in a painted metal pan on sides and bottom.
- Back of unit has exposed fasteners. Aesthetic should be considered in applications where back is visible.

Involve® Powered Credenzas

Working with 8-Wire Electrical

GSA Reference Page

Routing Power & Data in Involve Footed Powered Credenzas

Involve powered credenzas are only available with a select offering of footed credenzas; powered plinth base units are not available. All powered units ship without a laminate back. The 8-wire electrical system is a UL 1286 and UL 183 listed electrical system. The removable internal back provides easy access from the front of credenza to power and data cords. In addition to the standard electrical components, PVC-free components are also available.

SPECIFICATION INFORMATION

This electrical system offers three options: four circuit, 3+1; four circuit, 2+2; and three circuit, separate neutrals. All three systems utilize an 8-wire electrical system, rated at 20 amps (15 amps Canadian). Connect a maximum of 13 receptacles (12 in Canada, and fewer in certain U.S. locales) to one circuit. Consult your electrician to ensure the planned electrical load is within permissible limits.

1. Determine which electrical system you will use after consulting with your electrician and computer support personnel (see pages 316-317):
 - The four circuit system (4-Hot/2-Neutral/2-Ground)
 - 3 + 1 option
 - 2 + 2 option
 - The three circuit system (3-Hot/3-Neutral/2-Ground)

2. Determine location, quantity, and circuit number for duplex receptacles and power entry.
3. Determine the appropriate choice and use of isolated, isolated/dedicated and separate neutral circuits
4. Specify appropriate extended power harness and jumpers.
5. Determine the location, quantity and type of power in-feed needed.

It is the customer's responsibility to ensure that the installation of the electrical components meets all local and national building codes and all other applicable regulations.

Duplex Receptacle

Extended Power Harness

Jumper Cable
Harness to Harness

A. Routing Electrical Within a Powered Credenza

^A "A" prefix added to old model number effective 8/3/2014.

Involve® Powered Credenzas

Working with 8-Wire Electrical

GSA Reference Page

B. Routing Electrical in Powered Credenzas Back-to-Back

All electrical components must be duplicated in a back-to-back application. The wire trough provides power to only one side of the credenza.

When routing electrical from the back side of one to the back side of another, use the following extended power harness:

- 24" High Credenzas = 66"W (87123066)
- 28" High Credenzas = 78"W (closest available model 87123084)

An electrified credenza wire trough has a cavity capable of holding 40 - .25" dia. cables at 60% fill ratio (25 cables if electrical is used in the rail) when banded together.

Note: Tops removed for clarity.

C. Routing Electrical Within Powered Credenzas Side-to-Side (Open/Sliding Door Models)

When routing electrical in side-to-side credenza application, use the following extended power harness:

- 24" High to 24"High Credenzas = 66"W (87123066)
- 28" High to 28"High Credenzas = 78"W (closest available model 87123084)

D. Routing Electrical To Span a Non-Powered Credenza

- When routing electrical in a spanning credenza application, add width of the credenza being spanned to side-to-side credenza extended power harness length.
- Appropriate width bottom wire trough model must be ordered for non-electrified credenza being spanned in the field.

24" High Units — Extended Power Harness =
66" + 24" = 90" (closest available model 87123096)

28" High Units — Extended Power Harness =
78" + 24" = 102" (closest available model 871230120)

E. Routing Electrical in Lateral/Open Combination Powered Credenzas

- When routing electrical in a combination credenza application, add credenza drawer width to side-to-side credenza extended power harness length.

24" High Units — Pass Thru Power Harness =
66" + 24" = 90" (closest available model A871196)

28" High Units — Pass Thru Power Harness =
78" + 24" = 102" (closest available model A871120)

Routing Electrical: Credenza Side-to-Side and Spanning a Credenza

Jumper Situation:	Credenza Side-to-Side	Spanning a Credenza	Credenza Side-to-Side with an Open Position for Voice/Data
Formula:	24" High Credenza to 24" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" = 66"$ Extended Power Harness (A87123066) 28" High Credenza to 28" High Credenza: $28\frac{1}{2}" + 21" + 28\frac{1}{2}" = 78"$ Extended Power Harness (closest available model A87123084)	Add width of credenza being spanned to credenza side-to-side(s) extended power harness length: 24" High Credenza = $66" + 24" = 90"$ Extended Power Harness (closest available model A87123096) 28" High Credenza = $78" + 24" = 102"$ Extended Power Harness (closest available model A871230120)	Add distance spanning open location by adding 18" to credenza side-to-side extended power harness length: 24" High Credenza = $66" + 18" = 84"$ Electrical Pass-Thru Harness w/Power Block (closest available model A871196) 28" High Credenza = $78" + 18" = 96"$ Electrical Pass-Thru Harness w/Power Block (A871196)

Routing Electrical in 3 – 48"W Sliding Door Powered Credenzas

Jumper Situation:	Credenza side-to-side: spanning open positions for voice/ data	Spanning center septum within a 48"W sliding door credenza	Spanning single open position for voice/data
Formula:	24" High Credenza to 24" High Credenza: $22\frac{1}{2}" + 45" + 22\frac{1}{2}" =$ 90" Extended Power Harness (closest available model A87123096) 28" High Credenza to 28" High Credenza: $22\frac{1}{2}" + 45" + 22\frac{1}{2}" =$ 90" Extended Power Harness (closest available model A87123096)	24" High Credenza to 24" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" =$ 66" Extended Power Harness (A87123066) 28" High Credenza to 28" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" =$ 66" Extended Power Harness (A87123066)	Add distance spanning open location by adding 12" to credenza to credenza extended power harness length: 24" High Credenza to 24" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" + 12" =$ 78" Extended Power Harness (closest available model A87123084) 28" High Credenza to 28" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" + 12" =$ 78" Extended Power Harness (closest available model A87123084)

Routing Electrical in 3 Lateral/Open Combination Powered Credenzas

Jumper Situation:	Spanning a combo credenza (lateral drawers)	Credenza side-to-side (open side to open side)	Credenza to credenza with an open position for voice/data (open side to open side)
Formula:	Add combo credenza drawer width being spanned to credenza to credenza(s) extended power harness length: 28" High Credenza = $22\frac{1}{2}" + 13" + 24" + 24" + 22\frac{1}{2}" =$ 119" Extended Power Harness (closest available model A871230120)	24" High Credenza to 24" High Credenza: $22\frac{1}{2}" + 21" + 22\frac{1}{2}" =$ 66" Extended Power Harness (A87123066)	Add distance spanning open location by adding 12" to credenza to credenza extended power harness length: 24" High Credenza to 24" High Credenza: $66" + 12" =$ 78" Extended Power Harness (closest available model A87123084)

Involve® Powered Credenzas

Specification Information

GSA Reference Page

Powered Credenzas (pages 152-154)

- Powered credenzas are power ready and require electrical harnesses, in-feed, and receptacles — order separately.
- Involve powered credenzas utilize the same 8-wire electrical system as used in Allsteel panel systems.
- Receptacle knockouts in the upper wire trough must be filled with a duplex receptacle, data port, or wire management grommet model TAWG; or there will be visible openings.
- Footed design with choice of feet that coordinate with either Stride or Terrace. Powered credenzas are not available with plinth base design.
- Three pull options: arch, square, or straight.
- ¾" thick high-pressure laminated particle board with laser fused edge banding and European cam-and-pin construction.
- Available laminates: solid, woodgrain, or two-tone (case one laminate / front (door or drawer) a different laminate).
- Doors and drawers lock except for non-locking UL models.
- Single sided sliding door units are non-handed; open half depends on door position. Door locks in either position.
- When routing electrical from a panel to a credenza or from a credenza to a panel, the credenza must be attached to the panel using a storage to panel bracket kit (page 125).
- When routing electrical from one credenza to an adjacent credenza or storage unit, units must be ganged together using the appropriate footed ganging bracket kit (page 125).
- Electrified credenzas w/drawers cannot be used as a standalone unit.
- When using an electrified credenza to support a panel (side mounting only), a back is required on the unit.
- UL Compliant sliding door credenzas do not have locks. Compliant model numbers have a "UL" suffix and are listed on pages 152-154.
- All powered credenzas ship without a laminate back. Laminate backs unique for powered units need to be ordered separately for any application where back is exposed. Box/lateral with open side units used in freestanding applications require a back for stability.
- Credenza backs for powered credenzas are available in woodgrain and solid laminate colors. 72"W credenza backs are limited to solid laminate colors only.
- Powered credenzas are available in 2 heights — 24"H and 28"H.
- 24"H powered credenzas ship with a top. Top has grommet installed.
- 28"H powered credenzas ship without a top. Credenza tops 36"W and 48"W can be ordered separately with or without grommet cutout(s) and are worksurface thickness. Grommets are ordered separately for credenza tops with grommet cutouts.
- A grommet brush kit is available for electrical credenza grommets as an accessory (page 157).
- Credenzas ship with a removable internal back that can be removed from the front of the unit to route electrical and data cords.
- Interior and bottom exterior wire trough is always black.
- Pullout shelves can be used in open cubby space with box/lateral credenzas with septum (exception of sliding door credenzas with septum).

Grommet Locations for 24"H w/Tops (pages 155)

- Sliding door credenzas — grommet centered
- Open binder/support credenzas — grommet centered
- Open combo credenzas — grommet on corner of open side.

Ganging Brackets (page 125)

- Ganging brackets attach to underside of credenzas.
- When routing electrical from one credenza to an adjacent credenza or storage unit, units must be ganged together using the appropriate footed or plinth base ganging bracket kit (page 125).

Cam Cover Kits (page 125)

- 24"H and 28"H credenzas ship without cam covers. Cam cover kits can be ordered separately. 20 cam covers in each kit.

Cushions for Credenzas (page 124)

- Cushions are for use on 24"H credenzas to create additional seating.

Metal Shelves (pages 126 and 127)

- Pullout shelves can be used in any open cubby space — place at the bottom of a unit or anywhere vertically. Units have a 50 lb. weight capacity and are field installed using supplied template.
- Pullout shelves are 2"H x 18"W, 24"W, 30"W, or 36"W; and 12"D for 18"D powered storage units, or 18"D for 24"D powered storage units.
- Additional metal shelves with pins in dimensions for open units are available in Core, Select, and Accent paint colors.

Laptop Drawer — U7WDA (page 125)

- Drawer body made of sheet metal.
- Drawer front made of ¾" particle board with high pressure laminate on both sides and fused laser edge banding.
- Core removable lock is located on right side drawer front
- 17½"W x 18"D x 3¾"H Outside (interior 13"W x 16"D x 1¾"H)
- Minimum surface depth is 21" for surfaces not using an external stiffener; and 27" for surfaces using an external stiffener.
- Drawer extends 16"
- Maximum load: 45 lbs (functional BIFMA load)
- Drawer assembly and cover have cut out in back to allow for cables to exit drawer.
- Distance from floor to bottom of unit w/glides fully retracted is 24¾".
- Does not interfere with Further leg mounting plates so drawer can be placed directly next to either a system or table leg.
- When being placed next tower storage using the tower ell bracket (Z6LB) to support surface the drawer must be inset 3" to clear the ell bracket.
- Can be placed directly next to any support storage from any Allsteel product line (excluding towers).
- Flat brackets — drawer must be offset 3" from seam between surfaces to clear the bracket. See illustration at left.
- Can be used with rabbit edge worksurface models but there will be a larger reveal between surface and drawer.
- Can be used with knife edge worksurface models but reveal and depth need to be considered.

Involve®

Front View

Top View

Involve

- Open Legs — drawer must be offset 4 3/8" from worksurface edge to clear support mounting bracket.
- Closed End Supports — drawer must be offset 2 7/8" to clear support mounting bracket.
- See illustrations above.

Electrical Harnesses in Powered Credenzas (page 156)

- 18"W and 24"W open binder/support credenza and 48"W combo credenzas can only use a single block pass-thru harness.
- 30" and 36"W open binder/support credenzas can use two block extended electrical power harnesses.
- 36" and 48"W sliding door credenzas can use two block extended electrical power harnesses.
- 60" and 72"W combo credenzas can use two block extended electrical power harnesses.
- The type and length of power harnesses required varies depending on adjacent storage. Refer to configurations shown on pages 106-113.

Extended Electrical Power Harnesses (page 156)

- Extended electrical power harnesses distribute power in powered credenzas, except 18"W and 24"W open binder/support and 48"W combo credenza units which require a pass-thru harness.
- Harness power blocks snap directly onto mounting brackets in credenza.
- Extended power harnesses accept two duplex receptacles per harness in powered credenzas.
- All power harnesses will stretch 3½".

Electrical Pass-thru Harnesses (page 156)

- Electrical pass-thru harnesses distribute power in powered credenzas and will accept one duplex receptacle.
- All pass-thru harnesses will stretch 3½".

Electrical Pass-thru Cable (page 156)

- Electrical pass-thru cables distribute power through any credenza where receptacles are not required.

Electrical Jumper Cable (page 157)

- Jumper cables plug into power block end of electrical power harness or electrical pass-thru harness.

Duplex Receptacles (page 157)

- Duplex receptacles snap into power blocks of harnesses.
- Ordered separately, receptacles are available in seven colors and are labeled to indicate circuit number: 1, 2, 3, or 4.
- 18"W and 24"W open binder/support and 48"W combo credenzas accept one duplex receptacle.
- 30" and 36"W open binder/support credenzas; 36"W sliding door credenzas; and 60" and 72"W combo credenzas will accept two duplex receptacles.
- 48"W sliding door credenzas will accept up to four duplex receptacles.

Electrical In-Feed Cable (page 157)

- Power in-feed cables deliver power from building to system.
- Select quantity of in-feed cables depending on individual power requirements.

Cable Routing in Bottom Wire Troughs (page 157)

- When routing electrical in a spanning credenza application, the corresponding width bottom wire trough needs to be ordered for any non-electrified credenzas being spanned.
- Without the 8-wire electrical running through the trough, the wire trough can accommodate up to 40 voice/data cables (.25 dia.) when banded together.
- If the 8-wire electrical is running through the trough, the wire trough can accommodate up to 25 voice/data cables (.25 dia.) when banded together.

Pop-Up Power (page 157)

- Contemporary pop-up caddy (model # S914P06GC or S914P06GH) used in place of plastic electrical grommet K6EGK in the field to provide easy access to two electrical receptacles.
- No field porting of credenza top is required.

Grommet Kit K6EGK for Involve (page 157)

- Rectangular plastic grommet for Involve 28"H tops for powered credenzas (page 155).

Grommet Brush (page 157)

- Brush assembly that fits into K6EGK grommet opening.

Wireway Grommets (page 157)

- Comes in pack of 6 (black only), and fits into any receptacle opening.
- Used when routing wires through receptacle opening.

AMP Data Faceplates (page 157)

- Fit into receptacle openings in Involve powered credenzas.
- Models available in three-port or four-port units in Black or Almond.

Align™ Veneer Storage

Working with Veneer Pedestals

GSA Reference Page

Veneer Finishes

Stratawood veneer has a consistent straight-grain pattern. Natural veneer features variations in grain pattern and tone.

File and Box Drawers

Full extension file and box drawers glide easily on steel ball-bearing suspensions; allows complete access to drawer contents with a quiet drawer motion.

Filing

File drawers can accommodate front-to-back filing. File compressors come standard.

Full Front Drawer Design

Drawer front is square and extends fully across the case.

Aesthetic Alignment

Drawer alignment matches Align storage units.

Locking System

Direct-linkage lock system features heavy-gauge steel for security and reliability.

Core Removable Locks

Master-keyed core removable lock feature allows key numbers to be easily changed in the field and facilitates one-key access.

Omit Lock Core

Files can be shipped with lock cores removed; cores can then be installed after files are placed. Laterals can be keyed alike with pedestals and overhead cabinets.

Mobile Pedestals

Mobile pedestals provide flexible storage and can be nested under worksurfaces. (Take into consideration when planning offices which may have uneven floors.)

Support Pedestals

Support pedestals can support one end of a panel-attached worksurface, in lieu of other worksurface supports, and can be used to support worksurfaces in deskung applications. Drawers align with laterals.

Depth

Pedestals are 24" and 30"D to be used with Align worksurfaces. Pedestal placement may affect access to receptacles in base pathway and worksurface grommets.

Three Pull Styles

Choice of three pull styles, also available on pedestals and laterals, allows for total design coordination on projects.

Landscape™ Fronts

Optional Landscape drawer fronts available.

Aesthetic Alignment

Drawer alignment matches Align lateral files.

Full Front Drawer Design

Drawer front extends fully across the case.

Three Pull Styles

Choice of three pull styles, also available on pedestals and laterals, allows for total design coordination on projects.

Suspension

Extra heavy-duty, telescoping ball-bearing slides. Partially open drawers will automatically retract when other drawers are opened due to the interlock being incorporated into the slides.

Omit Lock Core

Files can be shipped with lock cores removed; cores can then be installed after files are placed. Laterals can be keyed alike with pedestals and overhead cabinets.

Veneer Finishes

Stratawood veneer has a consistent straight-grain pattern. Natural veneer features variations in grain pattern and tone.

Core Removable Locks

Core removable lock feature allows key numbers to be easily changed in the field. It also facilitates installation.

**Align Personal Tower****Locking**

Units have two locks. One secures non-wardrobe door and the other secures all drawers. Wardrobe door does not lock.

European Hinges

Wardrobe and cabinet door both contain European-style hinged door.

Filing

File drawers can accommodate front-to-back filing. File compressors come standard.

Four Hex-head Leveling Glides

Leveling glides can be adjusted from the outside of the case. Because of the stem, leveling can be done even when the file is fully loaded. Range is 2 3/4".

**Align Personal File****Lateral File Drawers**

Lateral file drawers contain dual-side locking drawers lock on both sides to prevent being pried open. Lateral drawers also have dual interlock which inhibits roll out of more than one drawer, either sequentially or simultaneously.

File and Box Drawers

Single-side locking drawers lock on one side to prevent being pried open. These drawers also have single interlock which inhibits roll out of more than one drawer, either sequentially or simultaneously.

Four Hex-head Leveling Glides

Leveling glides can be adjusted from outside or inside the case. Because of the hex-head design of the stem, leveling can be done even when the file is fully loaded. Range is 2 3/4".

Hanging Frames

Side-to-side and front-to-back filing comes standard in lateral drawer.

Align Veneer Support and Mobile Pedestals

- Veneer pedestals by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Chassis: ¾" thick, 3-ply panels, vertical grain.
- Drawers: Finished hardwood interiors, 5-sided, chuck and bore construction.
- Suspensions: Ball-bearing suspensions, full-extension file drawers.

**Align Veneer Support Pedestals** (pages 168-170)

- Drawer fronts: Vertically matched veneer. Three pulls available — arch, square, and "J".
- Locking: Factory-installed locks standard.
- To allow clearance under worksurfaces, an Align mobile pedestal is 1½" shorter than an equivalent Align support pedestal. This, combined with the leveling range of Align support pedestals, personal files, towers, and laterals, will result in an offset of horizontal drawer reveals of 1½" to 3".
- Pedestals are not intended for freestanding applications.
- 28"H pedestal can be used to support a worksurface at 29½"H.
- Cannot convert veneer front pedestals to accept Landscape fronts in the field. Order Landscape™ ready veneer support pedestals.

**Align Veneer Mobile Pedestals** (pages 168-170)

- Drawer fronts: Vertically matched veneer. Three pulls available — Arch, Square and "J".
- Locking: Factory-installed locks standard.
- Casters: 2½" dual wheel, black only.
- Pedestal has the ability to nest under worksurface.
- To allow clearance under worksurfaces, an Align mobile pedestal is 1½" shorter than an equivalent Align support pedestal. This, combined with the leveling range of Align support pedestals, personal files, towers, and laterals, will result in an offset of horizontal drawer reveals of 1½" to 3".
- Cannot convert veneer front pedestals to accept Landscape fronts in the field. Order Landscape ready veneer mobile pedestals.

**Align Veneer Support Pedestals — Ready for Landscape Drawers** (page 169)

- Drawer fronts: Order Landscape drawer fronts separately.
- Two pulls available — arch and square.
- 28⅞"H pedestal can be used to support a worksurface at 29½"H.
- Landscape front pedestals are equipped with special drawer bodies to accept Landscape fronts.
- Pedestals are not intended for freestanding applications.

**Align Veneer Mobile Pedestals — Ready for Landscape Drawers** (page 169)

- Tops: ¾" thick, inset top.
- Drawer fronts: Order Landscape drawer fronts separately.
- Two pulls available — arch and square.
- Suspensions: Ball-bearing suspensions, full-extension file drawers.
- Casters: 2½" dual wheel, black only.
- Pedestal has the ability to nest under worksurface.
- To allow clearance under worksurfaces, an Align mobile pedestal is 1½" shorter than an equivalent Align support pedestal. This, combined with the leveling range of Align support pedestals, personal files, towers, and laterals, will result in an offset of horizontal drawer reveals of 1½" to 3".
- Landscape front pedestals are equipped with special drawer bodies to accept Landscape fronts.

Align Landscape Drawer Fronts for Veneer Pedestals, Veneer Personal Files and Veneer Personal Towers

**Align Landscape Drawer Fronts for Veneer Pedestals** (page 170)

- Drawer front sets are for veneer case mobile and support pedestals.
- Core removable locks are standard.
- Landscape drawer frame available painted or anodized with Matte Silver finish.
- Includes attachment hardware.
- Landscape fronts ship and install separately from pedestal.
- Cannot convert standard veneer front drawer bodies to accept Landscape fronts in the field.
- Infinite Spectrum™ is a color-matched 100% recyclable polyester resin material.
- Sample kit required to confirm PANTONE® color meets expectations.
- Review of PANTONE sample and customer approval required prior to order entry.
- Specify PANTONE color using a PANTONE print or paints and interiors color guide number or PANTONE MATCHING SYSTEM®. When using the print color guide, use the uncoated (U) color references, metallics are not available; or use the architecture and interior color guide.
- Visit pantone.com for additional PANTONE information.

**Align Veneer Personal Files** (page 171)

- Veneer personal files by Gunlocke®.
- Stratawood veneer has a consistent straight-grain pattern.
- Natural veneer will have cathedrals and as a natural material is subject to nature's quality control with variations in grain pattern and tone.
- Drawer interlock mechanism.
- Freestanding or worksurface supporting.
- Drawer fronts: Vertically matched veneer.
- Three pulls available — arch, square, and “J”.
- Tops: ¾" thick, inset top.
- Chassis: ¾" thick, 3-ply panels, vertical grain, fully finished back.

**Align Veneer Personal Towers** (page 172)

- Tops: ¾" thick, inset top.
- Chassis: ¾" thick, 3-ply panels, vertical grain, fully finished back.
- Drawers: Finished interiors, 5-sided, chuck and bore construction.
- Cabinet fronts: Vertically matched veneer. Three pulls available — arch, square, and “J”.
- Locking: Non-wardrobe door locks independently from drawers. Personal side access towers have one lock.
- Wardrobe doors do not lock.
- Glides: 2¾" adjustment.
- Shelves (quantity 2): ¾" thick, adjustable in 1¼" increments.

Align Veneer Combination Files

**Align Veneer Combination Files** (page 176)

- Tops: ¾" thick, inset top.
- Chassis: ¾" thick, 3-ply panels, vertical grain, fully finished back.
- Drawers: Finished interiors, 5-sided, chuck and bore construction.
- Cabinet fronts: Vertically matched veneer.
- Three pull options: arch in Matte Silver, Bronze, or Black, square in Matte Silver, J in Matte Silver or Black.
- Lateral filing: Side-to-side letter and legal filing standard (rail included). Front-to-back filing with optional file bars.
- Locking: Locks standard on lateral drawers.
- Glides: 1⅝" adjustment.
- Shelves: ¾" thick, adjustable in 1¼" increments.
- Upper top section is hinged door cabinet with lock at bottom of doors. Drawers lock independently with lock located at top of upper drawer.

Align Veneer Open Combination Files (page 176)

- Tops: ¾" thick, inset top.
- Chassis: ¾" thick, 3-ply panels, vertical grain, fully finished back.
- Drawers: Finished interiors, 5-sided, chuck fully finished back.
- Cabinet fronts: Vertically matched veneer.
- Three pulls available — arch, square, and "J".
- Lateral filing: Side-to-side letter and legal filing standard (rail included). Front-to-back filing with optional file bars.
- Locking: Locks standard on lateral drawers.
- Glides: 1⅝" adjustment.
- Shelves: ¾" thick, adjustable in 1¼" increments.

Align Landscape Ready Veneer Combination Files (pages 177-178)

- Veneer combination file case ready for Landscape door fronts.
- Tops: ¾" thick, inset top.
- Chassis: ¾" thick, 3-ply panels, vertical grain, fully finished back.
- Drawers: Finished interiors, 5-sided, chuck and bore construction.
- Drawer fronts: Vertically matched veneer.
- Two pull options: arch in Matte Silver and Black, square in Matte Silver.
- Door fronts: Must order Landscape™ hinged doors separately.
- 4-high ships with one fixed and one adjustable shelf, 5-high ships with one fixed and two adjustable shelves.
- Adjustable shelves adjust in 1¼" increments.
- Lateral filing: Side-to-side letter and legal filing standard (rail included). Front-to-back filing with optional file bars.
- Locking: Locks standard on lateral drawers. Landscape doors do not lock.
- Glides: 1⅝" adjustment.

Align Landscape Door Fronts for Veneer Combination Files (pages 177-178)

- Door front sets are for veneer combination files.
- Landscape frame available painted or with Matte Silver finish (anodized).
- Includes attachment hardware.
- Landscape fronts ship and install separately from combination files.
- Infinite Spectrum™ is a color-matched 100% recyclable polyester resin material.
- Specify PANTONE® color using a PANTONE print or paints and interiors color guide number or PANTONE MATCHING SYSTEM®. When using the print color guide, use the uncoated (U) color references, metallics are not available; or use the architecture and interior color guide.
- Visit pantone.com for additional PANTONE information.
- Sample kit required to confirm PANTONE color meets expectations.
- Review of PANTONE sample and customer approval required prior to order entry. Allsteel is not responsible for PANTONE matching. It is the sole responsibility of the dealer and/or customer to ensure PANTONE color is correct. To ensure matching order Infinite Spectrum Sample Kit model TN4SPSK prior to order entry.

Align Bookcases and Accessories

**Align Bookcases** (page 179)

- 30"W and 36"W.
- Cabinets are 20" deep.
- Adjustable shelves are 15¼"D, adjustable in 2" increments.
- 39½"H unit has 1 adjustable shelf.
- 51½"H unit has 2 adjustable shelves.
- 67½"H unit has 3 adjustable shelves.
- Double-side wall construction.
- Laminate and veneer tops are available. Order 18" tops for freestanding applications and 18¾" tops when placing units next to lateral files with tops.

**Pencil Tray** (page 179)

- Solid hardwood with clear finish.

**Box Drawer Divider** (page 179)

- Hardwood with clear finish.

**Filing Rails** (page 179)

- Allow side-to-side filing in pedestals or front-to-back options in lateral file drawers. Rail hangs in clips from top edge of drawer.
- Two rails per package. Must order 1 package per drawer

For specification information see pages 160-163.

Laterals, Pedestals and Storage, Painted Wood Storage

Standard Options

- Random Keying — The factory will assign key(s) arbitrarily using key numbers from chart below.
- Omit Lock Core — The factory will omit lock cores. Removable lock core kits with specific key number must be ordered to facilitate keying alike in the field.

Vertical Files

Standard Options

- Random Keying — The factory will assign key(s) arbitrarily (see below chart for key numbers).

Key Alike Process

- Order standard product which will be shipped with factory installed locks and random numbered cores.
- Order the appropriate quantity of like numbered cores required for each workstation or keyed area.
- Simply replace the factory installed core with the replacement cores after product has been installed.

Replacing Lock Cores

- Lock must be in the unlocked position.
- Insert core removal key and pull core straight out. (Reach units require rotating key 90° clockwise past unlocked position.)
- Insert new core with core removable key, hold core into lock and withdraw core removal key.
- Retain original core for future use.
- On Persona™ Pedestals, open top drawer and hold lock bars in unlocked position before removal of core.

*On existing Premium and Asset lateral, use N-Series locks.

 Shippable by small-package carrier.

EASY LOCK PROGRAM

The Allsteel Easy Lock Program simplifies the lock-core ordering process when multiple cores are being specified. The Easy Lock cores can be used with Allsteel storage that currently uses the **ALKF23C** cores (all storage except receding door overheads).

To ensure ease of ordering in different situations the Easy Lock cores can be specified in three different ways — random, specified or sequential.

Random Keying

The random keying option is provided for instances where there are multiple orders or phases to a project and the offices need to be keyed alike but the key numbering is not required. With the random keying option key numbers are not specified, however, the core kits will be in sequential order from a random starting point.

Example: *There are 15 offices which each have 5 black locks that need to be keyed alike, but the actual key numbers are not important.*

This order would look like: **LKFE5BLK.X.15**

This specifies that 15 5-core kits are needed in black with random key numbers.

Specified Keying

The Specified Keying option is provided for the instances where there is a specific key number desired for all of the cores ordered.

Example: *There are 10 offices which each have 2 silver locks that need to be keyed-alike with key number 202.*

This order would look like: **LKFE2SLV.X202.10**

This specifies that 10 2-core kits are needed in silver with key number 202.

Sequential Keying

Allsteel Sequential Keying option is provided for the instances when there are multiple orders or phases to a project and it is imperative that key numbers are not duplicated.

Example: *A multiple phase project has 60 total offices — 40 offices in Phase I, and 20 offices in Phase II. The project manager has expressed a need to have keyed-alike offices but doesn't want any of the offices to use the same key numbers.*

The first 40 offices have 4 silver locks each that need to be keyed-alike.

This order would look like: **LKFE4SLV.SEQ/101.40**

This specifies that 40 4-core kits are needed in silver and the starting number is 101.

The second set of 20 offices only have 3 silver locks each that need to be keyed-alike; and it is important which key number starts off the sequence to ensure that no key number is duplicated. It is known that the first key range was key numbers 101-140.

The second order would look like: **LKFE3SLV.SEQ/141.20**

This specifies that 20 3-core kits are needed in silver and key sequence has to start at key number 141.

HOW TO ORDER:

Numbers 101-225 are available. Orders without key numbers specified will be keyed at random.

SAMPLE ORDER FOR EXAMPLES GIVEN:

Model	Key Type	Quantity
LKFE5BLK.	X.	15
LKFE2SLV.	X202.	10
LKFE4SLV.	SEQ/101.	40
LKFE3SLV.	SEQ/141.	20

Note: Quantity required is last number in model.option string.

Description	Model / Color	List Price
Easy Lock Lock-Core		
Lock Core Kit — 1 core, 2 keys	LKFE1	\$ 18
Lock Core Kit — 2 cores, 2 keys	LKFE2	\$ 36
Lock Core Kit — 3 cores, 2 keys	LKFE3	\$ 54
Lock Core Kit — 4 cores, 2 keys	LKFE4	\$ 72
Lock Core Kit — 5 cores, 2 keys	LKFE5	\$ 90
Lock Core Kit — 6 cores, 2 keys	LKFE6	\$ 108
Lock Core Kit — 7 cores, 2 keys	LKFE7	\$ 126
Lock Core Kit — 8 cores, 2 keys	LKFE8	\$ 144

Add color suffix to model: **SLV** Silver, **BLK** Black, **MTS** Matte Silver

Note: One core removal key minimum per order. One additional core removal key per 25 lock-cores will be shipped.

Master Key

(One key) Available to authorized dealers only on faxed orders.

AMKF22 \$ 17

How to specify using Easy Lock Program:

Step 1 — Count the number of lock cores and color required in each workstation that need to be keyed alike.

2 overheads with 1 lock-core each = 2
2 pedestals with 1 lock-core each = 2
Total silver lock-cores per station = 4

Step 2 — Count the total number of workstations needing 4 lock-cores.

4 total workstations

Step 3 — Specify model number based on total number of lock-cores in a station and quantity of kits based on number of workstations.

LKFE4SLV.X.4
Lock-Cores per station
Color of Core
Number of workstations

ALLSTEEL PARTNERSHIP PROGRAM — REFERENCE COLORS AND CODES IN SEATING, COLLABORATION, AND TABLES PRICE LIST

Allsteel understands that customers may want to specify panel and seating textiles outside of Allsteel's standard offering. Allsteel's Partnership Program consists of on-trend and design-forward patterns that have been tested and approved by Allsteel for use on Allsteel products. A subset of these approved patterns is available on cards in the textile binder, while numerous others are available on our website, allsteeloffice.com.

For memo samples, please contact our partners:

- Edelman, edelmanleather.com 1.800.886.8339
- HBF Textiles, hbftextiles.com 1.877.494.5727
- Maharam, maharam.com 1.800.645.3943
- Momentum Textiles, memosamples.com 1.800.366.6839
- Ultrafabrics, ultrafabricsllc.com

The intent of the **Partnership Program** is to offer a wide variety of on-trend textiles to meet your varied needs, but since these textiles are not part of our standard offering they may be subject to extended lead times. Because new materials will be introduced regularly, Allsteel reserves the right to change the offering at any time.

Upholstery Selections for Involve by Model/Series

Upholstery colors and codes for standard fabrics are listed on pages 192 and 193. Partnership (⊕) upholstery colors and codes are listed in the Seating, Collaboration and Tables Price List.
