How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor’s website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer’s upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer’s responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Modified Product Request written specifying the direction the fabric is to be applied.

Design

Designed by Giancarlo Piretti and manufac-tured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

Whatever you imagine, whatever you require, KI's Color Match program lets you pick your color!

Color Match Process - Poly Seating Information can be found here.

Stacking Vinyl, Polyurethane, and Imitation Leather Upholstered Chairs

If stacking frequently and for long periods of time, it is recommended that upholstery other than vinyl, polyurethane or imitation leather be used to avoid impressions in the seat cushion. KI does not warrant the effects of stacking on stock or COM vinyl, polyurethane or imitation leather upholstery.

TECHNICAL SPECIFICATIONS

Backrest

Injection-molded polypropylene with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5 mm diameter chrome silicon valve spring wire.

Seat and Shroud

Injection-molded polypropylene.

Optional Upholstered Seat

Molded urethane foam is attached to an injection-molded polypropylene seat board, then upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners. Note: upholstered seat is required with translucent poly backs.

Optional Upholstered Back

A 1/2" thick urethane foam is attached to an injection-molded polypropylene back board, then upholstered using a draw-string process. The assembled back pad is attached to the back by means of fasteners which are exposed and are color matched to the polypropylene.

Frames

Legs are 7/8" O.D. by 13-gauge tubular steel. Cross members are 1" O.D. by 14-gauge tubular steel and 7/16" diameter solid steel. All joints are welded. Frames are available in 4-leg or sled base configurations. Standard 4-leg rear legs angle 14° from vertical. Wallsaver rear legs angle 23° from vertical.

Frame Finishes

Frames are finished in either baked-on electrostatically-applied 30-degree gloss epoxy powder-coat paint, or bright nickel-chrome plating.

Arms

Optional cantilever arms or loop arms are available. When equipped with arms, the supporting structure is a continuation of the rear leg finished to match the frame color. The armcaps are injection-molded glass filled polypropylene matching the frame finish (when frame finish is Chrome, hammertones, or Starlight Silver metallic, armcaps match the seat and back color; when back is Diamond translucent, armcaps are Light Tone; when back is Pewter translucent, armcaps are Flannel; when back is Bronze translucent, armcaps are Chocolate). The armcaps are attached to the steel structure by means of screws.

Glides

Upper and lower ends of leg tubes are capped with polypropylene end caps matching leg color (chrome frames and hammertone frames match the seat and back color). Three optional glide types are available for leg chairs: swivel poly/nylon, swivel steel and swivel felt glides. The swivel function allows the bottom of the glide to correctly match un-even floor conditions, resulting in less wear. Poly/nylon and felt glides are interchangeable and have easy-on/easy-off replaceable glide caps, which makes field replacement easy and efficient. Swivel poly glides are available in Stone color only. Optional glides for the sled base are co-extruded to provide a softer (non-skid) surface to protect the floor, but do not glide. Sled base chairs are also available with black nylon (plastic) glides and stainless steel glides.

Casters

4-leg chairs may be ordered with carpet casters instead of glides (does not apply to café stools). Casters are double-wheel (60 mm) high-impact thermoplastic and are available in black only.

Tablet Arm

Tablet support loop is a continuation of the rear leg and is available in left- or right-handed models. A formed steel hinge is welded to the top of the support structure, and secured with screws to the underside of the writing surface. Writing surface is 9 1/2" x 20 3/4" x 12 1/2" plywood care of 5/8" thick, 1 1-ply hardwood, surfaced with .030" high-pressure laminate top and plain backer undersurface. Edges are lacquered and sealed.

4-Leg Café Stool

4-leg models on glides are available in 24" and 30" seat heights. Stool-height units are equipped with a reinforcing foot ring made of a 1/2" diameter wire ring, which is open in the back to allow stacking of armless and cantilever arm stools.

Transport Dolly

Frame construction is welded tubular steel with a black powder-coated finish and 5" wheels (two swivel and two fixed). The dolly fits 4-leg or sled base chairs and has a capacity of fifteen poly chairs or eight upholstered chairs.

ChangeUp™ Tablet Arm

ChangeUp tablet support is integral to the chair frame and consists of a 7/8" diameter solid steel rod welded to the front and rear support tubes. A three-piece molded plastic armrest is included and attached to the chair frame using a #10 x 2 1/2" Phillips pan head tapping screw.

The tablet mechanism consists a die-cast aluminum housing, upper and lower plastic bearings, and 1 1-gauge steel clamp and tablet board support plates. The tablet mechanism is clamped onto the chair frame over two plastic bushing halves and a 5/16" diameter by 1 3/4" hardened steel pin with a die-cast aluminum cap secured with two 1/4-20 x 3/4" button socket head cap screws. The pin creates a solid 90° up/down pivot stop and the bushings provide a smooth, quiet operation. In the use position, the tablet mechanism rotates outward from the chair back an additional 20° and permits approximately 3 1/2" of adjustment for ingress/egress without stowing the tablet.

The tablet worksurface is 21" wide by 13 1/2" deep (235 square inches) is secured to the tablet board support plate with twelve #12 x 5/8" Phillips flat head tapping screws. The tablet board is made of 18 mm Baltic Birch plywood with .040" high-pressure laminate top surface and .02" thick phenolic backer surface for an overall board thickness of approximately 3/4". Edges are lacquered with a clear finish and sealed. The factory installed tablet assembly is not field installable and may not be removed.

Compliance

Support frame, mechanism and worksurface passes KI's internal testing for 250-pound weight capacity.

STATEMENT OF LINE

All models are available in polypropylene seat/backrest, upholstered seat/ polypropylene backrest, or upholstered seat/backrest.

Armcaps and glides match the frame color with the following exceptions:
-When frame color is chrome or metallic, the armcaps and glides will match poly color.
-When back is diamond translucent, armcaps are light tone.
-When back is pewter translucent, armcaps are flannel.

Casters for four-leg chairs are always black.

*NOTE: When FR upholstery is selected, FR poly (black only) must be selected. NFR poly is not available with FR upholstery.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Modified Product Request written specifying the direction the fabric is to be applied.

Design

Designed by Giancarlo Piretti and manufac-tured in the USA by Krueger International, Inc. under license from Pro-Cord S.p.A

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

TECHNICAL SPECIFICATIONS

Seat

Injection-molded polypropylene seat.

Backrest

Injection molded polypropylene with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5 mm diameter chrome silicon valve spring wire. Top of backrest has an integral handle for ease of lifting and stacking.

Chair & Stool Frames & Finishes

7/16" solid steel rod, all joints welded. Finished in bright nickel-chrome or with electrostatically-applied epoxy powder-coat paint.

Optional Upholstered Seat

Molded urethane foam (soy based) is attached to an injection-molded polypropylene seat board, the upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners. Note: upholstered seat is required with translucent poly backs.

Transport Dolly

Tubular and plate steel welded together. 5" casters: two fixed, two swivel. Powder-coated finish.

—

STATEMENT OF LINE

All models are available in polypropylene seat/backrest or upholstered seat/polypropylene backrest.

TECHNICAL SPECIFICATIONS

Seat and Backrest

Seat is two-piece construction of injection-molded polypropylene, reinforced with internal steel channels, and assembled using hidden fasteners. The seat is available in a poly version or upholstered. For the upholstered version, molded urethane foam (1" depth) is applied to the seat board. Fabric is then upholstered over the foam using a drawstring process. Note: upholstered seat is required with translucent poly backs.

Backrest is injection-molded polypropylene with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5 mm diameter chrome silicon valve spring wire. Backrest is available poly only. Backrest has an integral, molded "handle".

Seat flips up to allow chairs to nest for storage and transport.

Seat assembly and backrest are field replaceable.

Frame

The legs are 1", 13-gauge high-strength steel tubing. All frame joints are welded.

Frame Finishes

Frames are finished in either baked-on electrostatically-applied 30 gloss epoxy powder-coat paint, or bright nickel chrome plating.

Casters/Glides

Double wheels (60 mm) of high-impact thermoplastic. High-impact plastic frame. Casters are always black. Carpet or hard floor. Bell glide (2" high) made of high-impact plastic also available, black only.

Arms

Optional fixed-position T-arms are available. Arm supports are a continuation of the frame crossmember tube, with injection-molded polypropylene arm caps attached by screws. The armcaps are injection-molded glass filled polypropylene matching the frame finish (when frame finish is Chrome, hammertones, or Starlight Silver metallic, armcaps match the seat and back color; when back is Diamond trnaslucent, armcaps are Light Tone; when back is Pewter translucent, armcaps are Flannel).

Tablet Arm

An optional tablet arm is available on either the right or left-hand side. When so equipped, the tablet arm support structure is a continuation of the frame crossmember tube. A formed steel hinge is welded to the top of the support structure and secured with screws to the underside of the writing surface. Writing surface for standard tablet is 9½" x 20¾" x 12½" and oversize tablet is 15½" x 22½" x 14" plywood core of 5⁄8" thick, 11-ply hardwood surfaced with .030" high-pressure laminate top and plain backer undersurface. Tablet arm flips up for easy access. Edges are lacquered and sealed.

INFORMATION

C.O.M Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 3/4 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Modified Product Request written specifying the direction the fabric is to be applied.

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

Whatever you imagine, whatever you require, KI's Color Match program lets you pick your color!

SPECIFICATIONS

Tandem Base

Cast aluminum alloy leg section. 14-gauge 1x2" seamless steel column. Upright and base are painted monochromatic with beam and yoke. Columns are welded to a plate which clamps onto beam.

Frame Finish

Baked-on, electrostatically-applied 45 gloss epoxy powder coating.

Seat

Injection-molded polypropylene seat attached directly to the structure.

Underseat Structure

Support structure is die-formed 13-gauge steel welded to a 1" OD x 14-gauge tubular steel cross member.

Backrest

Injection molded polypropylene with integral steel cantilever springs. The combination of

the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5mm diameter chrome silicon valve spring wire.

Tandem Arm

Oval tubular steel arm support with self-skinning urethane armrests measuring 10¼" long x 4" wide. The tubular arm support is welded to a yoke and then fastened to the beam via a coverplate.

Optional Upholstered Seat or Seat & Back

Molded urethane foam is attached to an injection molded polypropylene seat board, then upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners.

In-Line Table

Solid core top is 20" x 20" x 7/8" with a vinyl bullnose edge.

Corner Table

Solid core top is 30" x 30" x 7/8" with a vinyl

bullnose edge.

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

Whatever you imagine, whatever you require, KI's Color Match program lets you pick your color!

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select frame color.
Refer to the **Product Color Options** page in this price list.
- C**Select fire code.
FR - Compliance to TB 133
NFR - Compliance to TB 117-2013
See pricing column for TB133 upcharge.
- D**Select seat/back color.
Refer to the **Product Color Options** page in this price list.
- E**Select surface finish for table.
Refer to the **Product Color Options** page in this price list.
Surface finish offerings are based on edge style selections.
- F**Select table edge color.
Refer to the **Product Color Options** page in this

price list.
Edge color offerings are based on edge style selections.

OPTIONS

California TB133 Fire Safety Code
For California Technical Bulletin 133 compliant models, add the following upcharge:

Added List Price = Per Model: see above “TB133 add to list price” upcharge.
Added Lead Time = None

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See “How To Build a Model Number”.
 3. Any special service required.

Note:

- The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select frame color.
Refer to the **Product Color Options** page in this price list.
- C**Select seat/back color.
Refer to the **Product Color Options** page in this price list.
- D**Select surface finish for table.
Refer to the **Product Color Options** page in this price list.
Surface finish offerings are based on edge style selections.
- E**Select table edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.
- F**Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See pricing column for TB133 upcharge.
- G**Select upholstery grade/color.
Refer to ki.com/fabrics

UPHOLSTERY INFORMATION

C.O.M. Upholstery
C.O.M. requirement for 10 chairs or less with upholstered seat or upholstered seat and back is 3/4 yard per chair of 54” wide nondirectional fabric. For orders of 11 or more with upholstered seat and back and for complete information on ordering C.O.M. see “Ordering C.O.M., C.O.V. and C.O.L.” section.

OPTIONS

California TB133 Fire Safety Code
For California Technical Bulletin 133 compliant models, add the following upcharge:

Added List Price = Per Model: see above “TB133 add to list price” upcharge.
Added Lead Time = None

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See “How To Build a Model Number”.
 3. Any special service required.

Note: • The ☐ indicates that a choice is required.

- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select frame color.
Refer to the **Product Color Options** page in this price list.
- C**Select seat/back color.
Refer to the **Product Color Options** page in this price list.
- D**Select surface finish for table.
Refer to the **Product Color Options** page in this price list.
Surface finish offerings are based on edge style selections.
- E**Select table edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.
- F**Select fire code.
NFR - Compliance to TB 117-2013
FR - Compliance to TB 133
See pricing column for TB133 upcharge.
- G**Select upholstery grade/color.
Refer to [ki.com/fabrics](https://www.ki.com/fabrics)

UPHOLSTERY INFORMATION

C.O.M. Upholstery
C.O.M. requirement for 10 chairs or less with upholstered seat or upholstered seat and back is 3/4 yard per chair of 54” wide nondirectional fabric. For orders of 11 or more with upholstered seat and back and for complete information on ordering C.O.M. see “Ordering C.O.M., C.O.V. and C.O.L.” section.

OPTIONS

California TB133 Fire Safety Code
For California Technical Bulletin 133 compliant models, add the following upcharge:

Added List Price = Per Model: see above “TB133 add to list price” upcharge.
Added Lead Time = None

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select frame color.
Refer to the **Product Color Options** page in this price list.
- C**Select seat/back color.
Refer to the **Product Color Options** page in this price list.
- D**Select surface finish for table.
Refer to the **Product Color Options** page in this price list.
Surface finish offerings are based on edge style selections.
- E**Select table edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.

- F**Select fire code.

NFR	- Compliance to TB 117-2013
FR	- Compliance to TB 133

See pricing column for TB133 upcharge.

- G**Select upholstery grade/color.
Refer to [ki.com/fabrics](https://www.ki.com/fabrics)

UPHOLSTERY INFORMATION

C.O.M. Upholstery
C.O.M. requirement for 10 chairs or less with upholstered seat or upholstered seat and back is 3/4 yard per chair of 54” wide nondirectional fabric. For orders of 11 or more with upholstered seat and back and for complete information on ordering C.O.M. see “Ordering C.O.M., C.O.V. and C.O.L.” section.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select frame color.
Refer to the **Product Color Options** page in this price list.
- C**Select surface finish for table.
Refer to the **Product Color Options** page in this price list.
- D**Select table edge color.
Refer to the **Product Color Options** page in this price list.

Task Cantilever Armchair

Armless Task Stool

ChangeUp Tablet Arm Task Chair

Features			
Poly, upholstered seat, or upholstered seat/back	•	•	•
Flex back	•	•	
General Dimensions			
Seat width	18"	18"	18"
Seat depth	18"	18"	18"
Seat height (upholstered - add 1")	17-1/4" - 22-1/4"	22-1/4" - 32-1/2"	17-1/4" - 22-1/4"
Overall Dimensions			
Width	27-1/2"	27-1/2"	29-1/2"
Depth	27-1/2"	27-1/2"	31" - 35-1/4"
Height	32-3/4" - 37-3/4"	37-3/4" - 48"	32-3/4" - 37-3/4"
Arms to floor	26" - 31"		27" - 33"

Backrest

Injection-molded polypropylene with integral steel cantilever springs. The combination of the slotted polypropylene back and the spring steel provides a supportive flexing back. Springs are nominal 4.5 mm diameter chrome silicon valve spring wire.

Seat and Shroud

Injection-molded polypropylene, attached directly to the structure.

Optional Upholstered Seat

Molded urethane foam is attached to an injection-molded polypropylene seat board, then upholstered using a draw-string process. The assembled seat pad is attached to the seat by means of hidden fasteners. Note: Upholstered seat is required with translucent poly backs.

Optional Upholstered Back

A 1/2" thick urethane foam is attached to an injection-molded polypropylene back board, then upholstered using a draw-string process. The assembled back pad is attached to the back by means of fasteners, which are exposed and are color-matched to the polypropylene.

Underseat Structure

Support structure is 13-gauge steel die-formed, welded to a 1" O.D. by 14-gauge tubular steel cross member.

Frame Finishes

Baked-on electrostatically-applied 30-degree gloss epoxy powder-coat paint.

Base

Injection-molded, glass-reinforced nylon 5-blade base (black or warm grey for task chair and stool). Casters have high-impact thermoplastic double-wheels. A single control paddle under the seat operates the height-adjusting pneumatic cylinder.

Casters

Casters are double-wheel (60 mm) high-impact thermoplastic. High-impact plastic frame. Casters are monochromatic with base. Carpet or hard floor casters are offered. Hard floor casters are black only.

INFORMATION

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54" sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive - Gate 3
Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

Task chairs and task stools ship knock-down. Minimal assembly is required.

KI Color Match Program

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact Customer Service for details.

Whatever you imagine, whatever you require, KI's Color Match program lets you pick your color!

Color Match Process - Poly Seating Information can be found here.

INFORMATION

Warranty

Refer to KI Terms & Conditions document or visit ki.com

Arms

When equipped with optional cantilever arms, the supporting structure is 7/8" O.D. by 13-gauge tubular steel, welded directly to the seat support structure, and matching the seat and back color. The armcaps are injection-molded glass filled polypropylene, matching the seat and back color (when back is Diamond translucent, armcaps are Light Tone; when back is Pewter translucent, armcaps are Flannel; when back is Bronze translucent, armcaps are Chocolate). The armcaps are attached to the steel structure by means of screws.

Task Stool

In addition to the standard-height task chair, a stool-height version is available. Task stools are equipped with a pneumatic cylinder, allowing adjustment of seat heights from 22" to 32 1/2". The 18" diameter, adjustable-height foot ring is made of die-cast aluminum with a chrome-plated tubular steel ring and black "spokes". Stools are only offered with black or warm grey bases. The cylinders are available in black only.

ChangeUp™ Tablet Arm

ChangeUp tablet support is integral to the chair frame and consists of a 7/8" diameter solid steel rod welded to the front and rear support tubes. A three-piece molded plastic armrest is included and attached to the chair frame using a #10 x 2 1/2" Phillips pan head tapping screw.

The tablet mechanism consists a die-cast aluminum housing, upper and lower plastic bearings, and 11-gauge steel clamp and tablet board support plates. The tablet mechanism is clamped onto the chair frame over two plastic bushing halves and a 5/16" diameter by 1 3/4" hardened steel pin with a die-cast aluminum cap secured with two 1/4-20 x 3/4" button socket head cap screws. The pin creates a solid 90° up/down pivot stop and the bushings provide a smooth, quiet operation. In the use position, the tablet mechanism rotates outward from the chair back an additional 20° and permits approximately 3 1/2" of adjustment for ingress/egress without stowing the tablet.

The tablet worksurface is 21" wide by 13 1/2" deep (235 square inches) is secured to the tablet board support plate with twelve #12 x 5/8" Phillips flat head tapping screws. The tablet board is made of 18 mm Baltic Birch plywood with .040" high-pressure laminate top surface and .02" thick phenolic backer surface for an overall board thickness of approximately 3/4". Edges are lacquered with a clear finish and sealed. The factory installed tablet assembly is not field installable and may not be removed.

Compliance

Support frame, mechanism and worksurface passes KI's internal testing for 250-pound weight capacity.
