

Sava

MESH BACK

Sava Mesh Back Swivel Chair

Sava Mesh Back is adaptable for both conference and task applications. With fixed or height-adjustable arms, mid or high back, task or conference control, Sava mesh back is nothing if not versatile... and comfortable. This chair is distinguished by its extraordinarily user-friendly control that offers an ideal level of individual accommodation... no more, no less.

Designer: Sava Cvek

The relationship between Sava Cvek and Stylex began more than a decade ago and has culminated in many highly successful, innovative products. Taken together, the various series of Sava seating express the mature understanding that has developed between Stylex and Cvek through many years of enthusiastic collaboration.

STYLEX

Sava_2016

Sava Swivel Chair

With the addition of a simplified control, black paint finish, and fixed-height T-arm, SAVA has entered a new dimension. More accessible, less formal, more versatile, SAVA now goes more places, revealing an elegant presence wherever it is found. Even though there are more looks than before, the comfort remains the same, based on the dynamic principles and support of the original Balanced Tilt mechanism.
