

Zephyr

Zephyr Multi-use stacking chair

Truly flexible, Zephyr is the original all-mesh stack chair. With or without arms, its medium density capability and supreme comfort have made it a popular choice in many public spaces. The second generation Zephyr is now available with an upholstered seat in all the same models as the original all-mesh versions... arm, armless, as well as counter and bar stools.

Design: Sava Cvek
Sava Cvek graduated from The Academy of Applied Arts in Belgrade and went on to earn a Masters in Architecture from the Harvard Graduate School of Design. The relationship between Cvek and Stylex began more than a decade ago and has culminated in many highly successful, innovative products.
