#### How to Specify C.O.M. Upholstery

Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

By providing KI with a completely filled-out copy of the form on this page, we will be able to expedite your order. We find it particularly helpful with directional or patterned upholstery material. It is critical that copies of this form accompany test quantities as well as production quantities of C.O.M.

C.O.M. must be supplied in continuous yardage.

### C.O.M. Testing

KI will require six yards of actual fabric to be submitted for testing. The test will be completed on panels, tackboards, and overheads. For products shipped from Manitowoc, WI facility, ship upholstery material to:

KI Manitowoc 1400 South 41st Street Manitowoc, WI 54220 Attn: Fabric Testing

### C.O.M. Production

Customer's fabrics must be approved prior to acceptance for production. KI assumes no responsibility for wear, defects, or performance of customer's own materials. C.O.M. orders are available on a deferred delivery basis.

Orders for production of C.O.M. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

### C.O.M. Information Form

A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number

In all instances, send this form to the C.O.M. Specialist.

### Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

#### Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. material due to a change of upholstery or cancellation of an order. It is the customer's responsibility to arrange for return of this material.

### Yardage Specification

The chart on the following page details the yardage requirements for each upholstered item in the price list. To accommodate flaws, wrinkles, and other imperfections, calculate the total yardage and add the appropriate percentage shown below.

1 to 50 yards — Add 5 yards 50 + yards — Add 10% over requirements

### Standard Product Overview

### System 3000<sup>®</sup> General Information

### SYSTEM 3000 GENERAL INFORMATION

System 3000 is a comprehensive modular panel system offering featuring fully assembled panels, worksurfaces, storage, doors, electrical components, and accessories. Full technical specifications are available on ki.com. All system 3000 modular panel system components originate from ISO 9000, ISO 9001, or ISO 9002 registered facilities. KI SYSTEM 3000 MEETS OR EXCEEDS CURRENT ANSI/BIFMA PANEL SYSTEMS TEST STANDARDS.

#### UL LISTED

System 3000 panels are Listed to applicable US and Canadian safety standards and requirements by Underwriters Laboratories Inc.

### Panels

Fabric-Covered Acoustical, Half Open Frame-Half Fabric, and Full Glazed panels are offered in a variety of sizes. See specific sections for available sizes by style. Widths: 12", 18", 24", 30", 36" 42", 48"

Heights: 32", 42", 48", 54", 62", 66", 72", 80"

### Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Product Modification Request written specifying the direction the fabric is to be applied.

### Wall Mounts

The panel system allows for fastening a panel run to a wall by the use of an aluminum extrusion and panel hinge. Method of attachment will vary by existing wall construction. Adjustable mounts are available.

#### Doors

Hinged doors are offered in 36" or 42" sizes, in locking and non-locking styles. Hinged doors are 80" tall with an opening of 77.5". A sliding door is offered for 66" panels and are for use in a 42" opening.

### **Connectors and Trim**

Trim is offered in upholstered and unupholstered styles. Conditions include 90 degree, variable height corners, 60 degree, 45 degree, and T-post trims, and caps. See pricelist or technical specifications for style options by trim piece.

#### Electrical

System 3000 utilizes factory-installed universal 10-wire electrical components that support either 4-4-2 or 6-2-2 planning. Base and top infeeds, rigid wireways, receptacles, jumpers, and accessories are offered.

### Worksurfaces and Accessories

Worksurfaces are offered in a variety of sizes and shapes, including: Rectangular P and D shaped Peninsula/Piano Square Shoe Conference End Dual Curvilinear 90 Degree and Curvilinear 90 Degree Corner Diagonal and 90 Degree Corner Semi-circle

#### Quarter-round Countertop

Worksurface Support panels are also available.

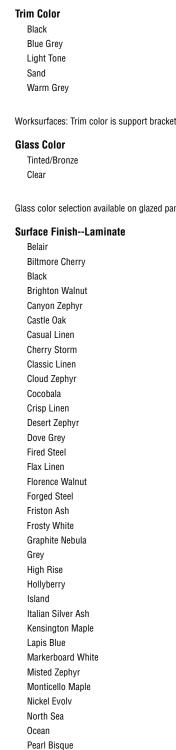

### Storage

System 3000 is designed to support all KI Storage lines, including shelves, overhead cabinets, pedestals and lateral files.

### FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code Nevamar - LN/supplier's color pattern code Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

### FINISH INFORMATION

Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code Nevamar - LN/supplier's color pattern code Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

#### Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code Nevamar - LN/supplier's color pattern code Wilsonart - LW/supplier's color pattern code

KI's standard laminate finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates) require a Product Modification Request. Contact customer service for details.

### FINISH INFORMATION

#### Additional Laminate Offering

Additional laminates beyond KI standard offering, are available with two weeks extended leadtime. To specify additional laminates, use these designators followed by the supplier's color/pattern code:

Formica - LF/supplier's color pattern code Nevamar - LN/supplier's color pattern code Wilsonart - LW/supplier's color pattern code

KI's standard finish is the supplier's recommended finish for that color/pattern. Note: Nonstandard laminates from these suppliers (example: textured laminates), require an upcharge and additional leadtime. Contact KI.
