

TL-2 TRADITIONAL LEATHER HELMET

The TL-2 Traditional Leather fire helmet is the lightest NFPA complaint authentic leather helmet on the market. Worn by firefighters worldwide, the TL-2 combines tradition and modern safety in a handcrafted masterpiece. Compliant to OSHA & NFPA 1971 standards.

TL-2 Traditional Leather Miller Upgrade

The lightest, strongest, most comfortable, and definitely best looking leather NFPA compliant "hat" ever made. Phenix chose to pay tribute to the hard working firefighters of yesterday by creating this 64 comb helmet. In 1884, F.J. Miller produced a catalog for the Fire Department of New York entitled, "Fred J. Miller's Fire Apparatus and Fire Department Supplies New York 1884." The catalog featured a "64 cone" helmet that was referred to as "The lightest, strongest, handsomest, and most comfortable hat yet invented." Essentially, it was description perfectly aligned for Phenix Leather Helmets and thus, the TL-2 Miller was born.
