SPECIFICATIONS

Trek Pedestal Table

This system employs heavy gauge tubular steel components in fixed, folding, or flip-top models. Trek includes T, TT and X base configurations. Fixed table column welded to 1/4" solid steel plate.

Bases

Built of 2-1/4", 14-gauge round tubular steel leg column with steel end cap and 16-gauge steel tapered legs elliptically swaged down to 1" diameter at end; highly durable, smooth powder-coated finish. Adjustable glides or casters are secured to the legs. Two casters in each set shall have wheel brakes (locking).

Trek Tables Plus Ganging Mechanism

Built of black high-strength nylon, userfriendly ganger with pegs draws tables together. No tools are required when joining tables. Ganger is self-storing under table top. Mounting screws are provided. Tops are predrilled for placement of ganging pegs. Two gangers per table.

CAUTION: Gangers are not retrofittable to earlier purchased tables.

Trek Tables Folding Mechanism

Built of 11-gauge, black zinc finish steel, the folding mechanism easily releases and folds leg tightly to table bottom and securely locks with two polypropylene clips. When opened, legs engage into place for a tight, rigid fit between leg and mechanism. Built-in rubber bumpers keep tables separated to prevent marring when tables are stacked on edge.

Table Surfaces

1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Tops are pre-drilled.

A "standard" table consists of a standard laminate worksurface and a 1-1/4" vinyl bullnose edge for any KI table base. All Knife(KN) edge styles will use an M3 particle board composition. The under-surface edge is sanded, stained and sealed. KI tables can hold a maximum of 1.5 lbs for each inch of perimeter evenly distributed over

the top.

Flip-Top

Standard flip-top table does not have a detachable top.

Folding Modesty Panels

.685" thick particleboard faced on both sides with laminate that matches table top. Modesty panels are 6-1/4" high by length of table. Mounting brackets are black and packed with the base. Table top and panel are pre-drilled. Lower edge of panel extends 8-1/4" from underside of table. The modesty panel is shipped k.d.

Bright Chrome Finish

Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Powder-Coated Finish

Hybrid powder coating is electrostatically applied. The dry coating is then fused and cured in a baking oven to form a smooth continuous film. Finish is chemical-resistant, hard, tough and mar-resistant.

Trek Lightweight Table

Top is 5-ply construction consisting of .050" thick laminate, 5.2mm 3-ply plywood, .75" thick high-density particleboard frame with honeycomb core, 5.2mm 3-ply plywood and .040" HPL backer.

Quick-Release Modesty Panels

.685" thick particleboard faced on both sides with laminate that matches table top laminate. Lower edge of modesty panel extends 7-1/4" from underside of table. Panel is easily removed from the table without tools. It locks into two 11-gauge steel retaining brackets and is removed by pulling down on vinyl-coated stainless steel release levers. Modesty panel is shipped k.d.

Trek Table Truck

Black powder-coated finish. Two swivel and two rigid 6" diameter casters with heavy-duty roller bearings. Rectangular or square table storage. Truck measures 60" long by 30" wide by 55" high. Felt is standard on top edges. Six-table capacity.

Trek with PowerUp®

Tables are available with one or two power/data modules, PowerUp, centrally located 4-1/4" from the front edge of table top. PowerUp is a UL Listed, Relocatable Power Tap, which mounts flush into the table top. When flipped up, cover open, one (1) duplex receptacle and two (2) data ports are exposed. The underside of the table is provided with a hinged plastic channel (cord management trough) which covers the bottom of the module. This channel, furnished with metal dividers, is provided for the routing of the power supply cords and data lines.

The PowerUp module is 6-1/4" long by 3" wide by 2-1/2" high when opened. It is provided with a 9 ft. or 15ft., 3-conductor cord and is rated 120V a/c, 15A. The cover snaps into the upright position to allow cords to be unplugged without the cover closing. The data ports are molded to accept AT&T "M" Series, RJ45 jacks. The module can be modified to accept various brand jacks.

Cords are further managed by the vertical leg wire manager which comes standard with PowerUp.

Under-Table Wire Management

Constructed of high quality black velcro. Harness is fastened to table bottom with screws. Shipped assembled. Wire management options HO, HW and WO) are only available on rectangle tables 96" and smaller (not available on any cantilever, flip-top or folding tables).

Leg Wireways

Scuff-resistant, high-impact rigid plastic. Two separate wire channels per leg. Fastened to legs with full length adhesive bond. Black only. One wireway per leg. Shipped assembled. Two leg wireways per top. Not available on 18" x 60" fixed base tables, 18" x 60" and 24" x 60" cantilevered base and folding tables.

Grommets

Plastic grommets are 3" diameter and recessed into table top. Cap is removable and has retractable slot cover. Two grommets per top. Grommets not available on 18" x 60" fixed base tables, 18" x 60" and 24" x 60" cantilevered base and folding tables. Grommet location for tables that are 36" deep and smaller will be on the corners of the

table. Grommet location for the tables 42" deep and larger will be the centerline of the table. See graphics above.
