Trendway >

Clear Definitions.

Clear Wall, a sleek floor-to-ceiling storefront solution featuring frameless glass — combines high-end aesthetics with high functionality.

Clear Sophistication.

Simple, elegant, impressive — Clear Wall imparts an upscale ambiance to every environment. The pure flow of glass storefront and transparent corners clearly defines space while complementing any architectural setting.

Clear Wall divides and defines space using a combination of aluminum framing elements, architecturally inspired doors and 1/2" tempered glazing. This wall system supports modular power and data, or can be hardwired in the field. With so many options, Clear Wall can meet your many personal and functional needs while supporting your sustainability strategies.

Tax Advantages

Be sure to investigate the tax codes in your area, too. Clear Wall may save you bundles in taxes — movable walls are often classified as “tangible property” which can be depreciated over just 7 years, vs. drywall's 39 years. That's a big difference! See your tax consultant for details.

Clear Wall can blend with TrendWall and Volo when enhanced privacy, power/data access or design flexibility are desired.

Clear Wall defines and divides space while providing a transparent aesthetic with full access to daylight and exterior views.

Clear Wall lends upscale sophistication to every space.

Clear Benefits.

- Full-height Pivot Doors and Flush, Full-Lite, or Frameless Sliding Doors to meet unique needs.
- Exceptionally easy to install, with a simple, tool-free glass mounting design.
- Glass/Glass corners bring greater visual access for users while enhancing the environment.
- All extruded aluminum framing elements can be specified in Satin Etch (brushed aluminum look), or one of Trendway's many powder coat finishes.
- All 1/2" tempered glass inserts are available in 3 distinct colors: Clear, Low Iron (colorless), or Frost.
- Optional Clear Polycarbonate Strip insertion between glass panels for the most finished appearance and optimized acoustics.

Beautiful architectural door options.

Inserts are available with straight, single-angle and double-angle vertical edge treatments for smooth panel transitions under a variety of conditions.

Refined architectural details add sophistication.

DOOR STYLES

Clear Pivot Door

Flush Sliding Door

Full-Lite Sliding Door

Frameless Glass Sliding Door

18" and 36" Post Pull, and 72" Ladder Pull available on all doors.

Maximize Performance by Combining Clear Wall with our Raised Access Flooring.

Access power and data virtually anywhere within the system grid. Modular floor elements provide a 4" x 1 3/4" raceway clearance between supports.

Trendway's Access Flooring Solution makes reconfiguration easy, with power and data accessible from anywhere in the room — by removing a floor access panel. The low 2 1/2" profile and non-metallic modular construction make it a practical and cost-effective cable management system, whether used in new construction, renovations or integrated into existing spaces.

Choose modular or hard-wired floor access.

From training spaces to conference rooms to open environments, our raised access flooring can save you time, money and headaches with every move and reconfiguration you require.
