

Sit Back and Relax.

Comfort-engineered for safe reclining, the Two-Position Chair's solid red oak construction is both durable and innovative. Its unique handcrafted bottom rail allows the chair to lean back without tipping, while a wide seat and base provide extra comfort and stability. Built using the best materials available today, this chair will stand the test of time.

- Comfort-engineered with two positions
- Resists tipping for safety
- Solid red oak construction
- Wood or upholstered seat and back
- Corner blocks and mortise and tenon construction offer added strength
- Five-year warranty
