Jackson, MS 39216

To Whom It May Concern:

ABA Engine
Intake Management and Assessment Platform

This letter is in reference to ABA Engine's software application. At this time, we are the only all-in-one platform for scheduling and assessments for children's mental health care clinics and hospitals. We integrate with EPIC to keep all patient data in one place. ABA Engine is the manufacturer of this software and doesn't have resellers. We are solely able to address technical support needs and provide maintenance services, including access to new updates.

UMMC is currently leaving money on the table by not being able to maximize billing the allowable assessments for their patients. UMMC has a waitlist of potential patients that can be referred to local service providers, referred to the school, or serviced through UMMC clinicians. In order to manage this efficiently, UMMC needs a management tool that can assess and then automatically match, and schedule based on those assessments.

Please feel free to contact me if I may be of further assistance.

Warm Regards,

A handwritten signature in black ink that reads 'Erica Kinnebrew'.

Erica Kinnebrew
