To whom it may concern:

The College of American Pathologists (CAP) is the sole provider of the Cancer Protocols. See product description and copyright notice below.

PRODUCT DESCRIPTION:

The College of American Pathologists electronic Cancer Protocols (CAP eCP) are structured summary reports that enable the collection of cancer data elements essential for patient care and selection of treatment protocols. Some content contained within the CAP eCP is assigned appropriate SNOMED CT concept ID's to describe specific procedures, specimens, and morphologic abnormalities, other content is still in the process of being assigned. Not all concepts may be eligible for SNOMED CT encoding. Tumor staging data from the American Joint Committee on Cancer (AJCC) 7th edition is also included.
