

SPRINKLE LIGHTLY OVER LIQUID . . .

TRANSFORMS 100 TIMES ITS WEIGHT WITHIN SECONDS!

What was liquid becomes a tidy congealed semi-solid, easy to shovel, take up on a dustpan or any handy cardboard. Makes clean-ups much easier, faster, more pleasant—especially since it devours all odor, too! Scented with a pleasant lemon fragrance.

ELIMINATES DRIPPY MOPS, TOWELS & SWAB RAGS

Ideal for: Spills, broken containers of foods, drinks, chemicals—anything liquid; Vomit, urine, blood—any health care facility liquid; Accumulations of liquids in bottoms of trash receptacles.

DIRECTIONS: Sprinkle lightly over liquid to be removed, wait until gel is formed (approx. 1 minute), then pick up with a dustpan or cardboard. The finished liquid may be flushed down any sink or drain. Because it is water soluble, clean up is an ease—to clean brooms, mops or other implements, just wash in water.

Note: In the event of toxic spills, handle and dispose of as recommended by manufacturer of toxic material, consistent with EPA regulations. Do not use in conjunction with strong oxidizing agents such as nitric acid.

Caution: Keep out of reach of children.

Ingredients: Amorphous Silica CAS #112926-00-8, Petroleum Distillates CAS #68551-17-7, Superabsorbant polymer (no CAS #).

**Liquid Gobbler
Absorbant Powder**

***Absorbs liquids and odors . . .
Changes smelly liquids into odorless
semi-solid for fast, easy cleanups!***
