

Dynamic Powerhouse SHOOTER™

WARNING! Read this before using! **SHOOTER is not a general household cleaner.** It is a specialized product and should only be used as directed. Do not use on porcelain sinks or tubs and do not use on glazed ceramic tile unless a dull surface is acceptable. It is not recommended for use on aluminum, metallic glazed surfaces, glass, scratched glass, leaded glass, enameled porcelain, mirrors, ceramic tile, marble, terrazzo, colored grout; improper use may dull tiles, porcelain tubs or sinks, or haze windows!

Permanent damage can occur. Test in a small, inconspicuous area first.

DIRECTIONS: Wear rubber gloves. Apply with applicator swab, damp sponge, or cloth. Use full strength. Do not allow to remain on surface more than recommended times below and always rinse surface thoroughly several times with fresh water promptly after use. Light rubbing with a brush will speed up stain removal. Short, repeated applications work best. **WHITE TOILET BOWL & URINAL STAINS:** Use only on white bowls. Apply to areas above and around water line. After stains disappear, flush to rinse. Reapply if needed. **CARPET & FABRIC – RUST STAINS:** Test for colorfastness. Dampen area and apply SHOOTER. When stain is gone, rinse with fresh water. Reapply if necessary. Avoid contact with washer & dryer surfaces. **FIBERGLASS SHOWERS, BASINS, BATHTUBS:** Apply and let stand for 1 to 2 minutes, wipe off stains, rinse thoroughly. Reapply if needed. May dull porcelain tubs or sinks, and ceramic tile. See warnings. **CHROME & STAINLESS STEEL:** Apply to metal surface, rinse with water, and dry. **OTHER USES:** Rust & mineral stains on vinyl, concrete, linoleum, and swimming pool walls.

PRECAUTIONS: Contains water, coloring, fragrance & similar non-hazardous ingredients; surfactants, sulfamic acid, glycolic acid, citric acid, ammonium bifluoride and dipropylene glycol monomethyl ether. **DO NOT GET INTO EYES, ON SKIN, OR ON CLOTHING. MAY BE HARMFUL IF SWALLOWED.** Do not breathe vapors or fumes. **KEEP OUT OF REACH OF CHILDREN.** Do not mix or use with any other product, especially bleach or mildew stain removers, as toxic fumes may result.

NOTICE: Shooter is a modern scientific compound formulated by modern chemical research to dissolve mineral deposits carried by water and will give unbelievable results when used as directed. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the sustainability of the product for the intended use, and the user assumes all risk and liability whatsoever in connection therewithin. No statement or recommendation not contained herein shall have any force or effect unless an agreement signed by officers of seller and manufacturer. Buyer assumes all risk and liability associated with disposal.
