RUFF TUFF SHINY

METALIZED FLOOR FINISH 25% SOLIDS

Extremely Durable Floor-Enhancing Formula

5 GALLON PAIL

55 GALLON DRUM

TUFF ENOUGH is a metalized floor finish that contains an acrylic polymer, reducing scuff marks and scratches.

Penetrates the pores of the surface and expands, the polymer seals in a hard-wearing finish. High solid content builds a high-gloss base with fewer coats, providing easy removability. Does not change the appearance, just the density. Gives excellent balance of durability, hardness and flexibility.

Floor Preparation: Clean with Sanitile or Strip with Mop Strip, use a wet vacuum or mop to collect sludge. Rinse with cold water and allow to dry.

Application: Apply a thin coat, using a forward-to-back action with an applicator or mop, taking care that product does not puddle. Let dry no longer than 20-30 minutes or until pressure of fingers pulled across the surface produces a squeaking sound. Apply second coat in same manner. Extremely porous surfaces may require additional coats. Buff each coat after application to provide greater luster.

PRODUCT SHELF LIFE 12 MONTHS
