

CGUV-OVERWATCH-2X2

Integrated In-Room Solution

"Bring in Fresh Air from the Inside"

The Cognituv Overwatch 2x2 is a high-performance air purifier designed for spaces up to 1100 square feet. It integrates seamlessly into drop tile ceilings and offers real-time air quality tracking and customization controls. The device effectively reduces harmful VOCs, disinfects pathogens, and operates quietly. With washable pre-filters, a choice of HEPA H13 or MERV 8 filters, and two High Output 60W 253.7nm UV-C lamps, the Overwatch 2x2 provides optimal germicidal effectiveness and odor reduction. Cognituv Connect allows users to remotely monitor and control air quality settings for ultimate convenience.

Our CGUV-2x2 is designed for drop tile ceilings to purify and freshen the air. Integrate with an IAQ sensor and dashboard for full control.

- Reduces harmful VOCs: Improved air quality
- Quiet at 220 CFM: Max 46 dB
- Building management options available: Customization controls
- Covers 1100 sq/ft: Spacious coverage area
- Disinfection of pathogens: Germ-free environment
- IoT enabled options for IAQ -Real-time tracking
