Dear Mr. Waite,

CORL Technologies has a unique approach and process to vendor security risk management (VSRM). Our algorithm has been developed and continually refined over a number of years and is unique to CORL's approach to VSRM. We can say with confidence that CORL is the only managed service provider *dedicated* to healthcare vendor security risk management.

In our experience, no other vendor or re-seller provides the healthcare-specific mix of solutions and services, as detailed and outlined in CORL's proposal to UMMC.

Sincerely,
