

Vivid | Image-Intense Signage

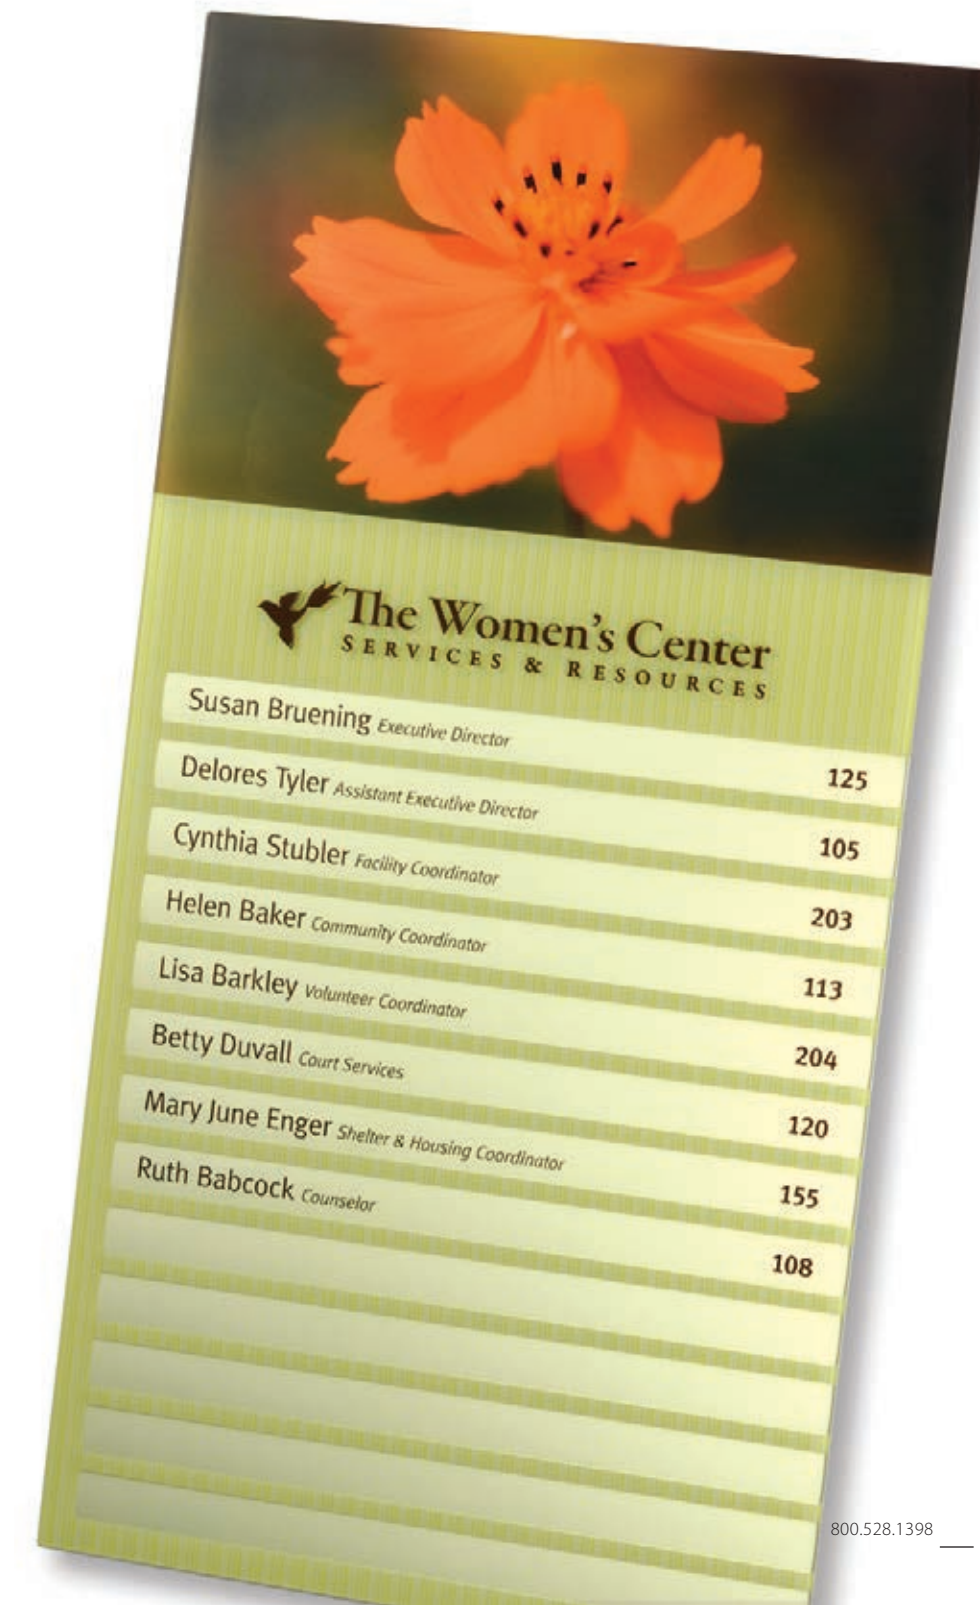

Vivid | Image-intense signage

Unrestrained by convention,
Vivid doesn't merely
convey your brand, it
becomes it. Imparting every-
thing from an edgy swagger to
subtle sophistication.

So that now you can
tell your story with
a photo/graphic intensity that

makes your image
all the more **Vivid**.

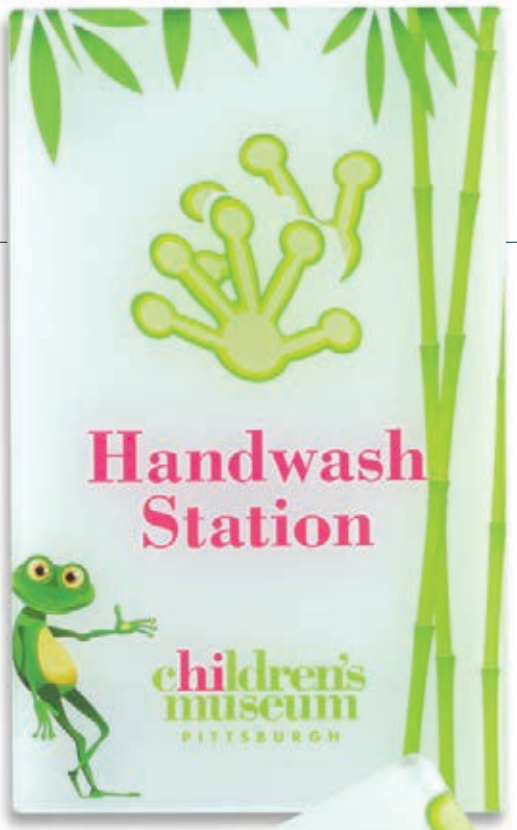

Align **your image.**

If you know who you are, Vivid will help you say it—in no uncertain terms. Putting your brand where it belongs, at eye level, and linking it to all the other elements in your graphic personality—integrating and amplifying your voice.

You don't install Vivid. **You exhibit it.**

Vivid is available in a full range of sign types from directories to room I.D.'s. And with thousands of royalty-free images and hundreds of patterns to choose from, you'll have almost limitless ways to express yourself. So that now art can be signage. And signage can be Vivid.

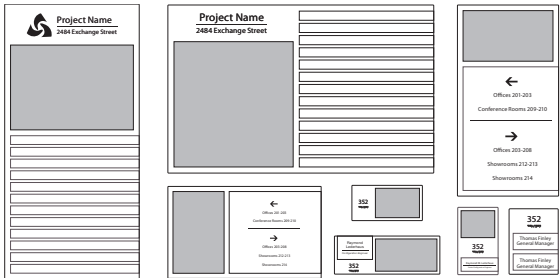

Takeform's Design Center makes it easy.
But you make it happen.

One visit to our Online Design Center and your creative possibilities become Vivid. Choose from thousands of royalty-free images and patterns from the Takeform library. If you don't see something you like (we'll be surprised), you may use any royalty-free stock image available online. Allowing you to bring your brand to life throughout your space.

How to specify
