Collection

WOODLOOK[®]

Woodlook is a range of sidechairs, armchairs and barstools manufactured from aluminum, yet with an authentic wood appearance. Baked on wood grain film makes the frame virtually indistinguishable from solid wood. We challenge you to tell the difference!

**ANSI/BIFMA
tested**

Woodlook is the stronger, lighter alternative to conventional models, where style and longevity are essential.
The frame is scratch and water resistant.

Woodlook models have passed ANSI/BIFMA strength tests whilst the frame finish exceeds 1000 abrasions without any noticeable deterioration.

Woodlook is the ideal product where anti-microbial resistance is an advantage. Over 20 common cleaners and disinfectants have been tested on Woodlook seating and Spectrum Vinyls upholstery featuring PreFixx, with no discoloration or damage.

Woodlook frames can endure the toughest of environments, and are guaranteed for 15 years.

Woodlook is both cost effective and environmentally friendly: aluminum recycling saves about 95% of the energy required for primary production. The metal can be recycled again and again, reducing costs over the production of new aluminum, even when the cost of collection, separation and recycling are considered*.

- width 54.6 cm / 21.5"
- length 91.5 cm / 36"
- height 91.5 cm / 36"

ENVIRONMENTAL POLICY

SandlerSeating is committed to achieving good environmental practice and operating in a sustainable manner.

- We wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- We seek to minimise our waste and then reuse or recycle as much of it as possible.
- We minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- We operate and maintain company vehicles (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.
- We hope to continuously improve in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community.
- We purchase products and services that do the least damage to the environment and encourage others to do the same where possible.
- We assess the environmental impact of any new processes or products we intend to introduce in advance.
- All our aluminum and steel frames can be melted down and recycled.
- Both our rubber glides and standard fabric ranges are also recyclable.

We aim to reduce our environmental impact and improve our environmental performance as an integral part of our business strategy. It is our priority to encourage our customers, suppliers and all business associates to do the same.
