Committed to our Customers

01

Customer service & orders

Toll Free: 800.833.3746

Please e-mail orders to ci-orders@fellowes.com.

Fellowes' customer obsessive, award-winning team is on-call to assist with any workspace needs. We are ready to answer questions or recommend products that help customers achieve their best at work.

Fellowes honors a no restocking fee for our customers, if the return is approved in advance.

02

48 hours

Fellowes can fulfill orders in as little as 48 hours based on product on-hand availability. We do this by maintaining high inventory levels of the most popular products so our customer can meet ambitious deadlines and schedules. Fellowes' exceptional fulfillment service ensures you get the products you want, when you want them. Unless otherwise specified, most of Fellowes' products ship within two business days after the order is placed and acknowledged.

03

Specifying libraries

Fellowes' products are available in the following furniture specification software programs:

**CET Designer | Configura
2020 CAP
Project Matrix
ICE Edge
KISP
HEDBERG**

Fellowes also utilizes My Resource Library (MRL), a virtual library for all our digital cutsheets and catalogs.

04

Lead time designations

The **LT** product marker indicates that the lead time may vary depending on quantities ordered and their availability. Please contact our Customer Service Department for on-hand availability when placing orders for products marked with LT. Purchase Orders that include LT designated products will be shipped based on the lead time of those products. Split shipments are available for orders that include both LT and non-LT products.

05

Reserved inventory

Fellowes' team is focused on helping our customers execute large projects on time. A Reserved Inventory Program is offered for projects totaling at least \$15,000 net. Find out how this program can help make your projects a success by contacting our Customer Service Department.

06

Lifetime warranty

Fellowes' workspace accessories are backed by an industry-leading lifetime product warranty – giving you confidence to take on your work, your way. Ask us about our labor warranty reimbursement program. View the full warranty policy at fellowes.com or contact our Customer Service Department for more information.

07

General information

All prices in the catalog are effective May 1, 2023, and are list price in U.S. dollars. Visit Fellowes' website fellowes.com for additional specs, dimensional drawings, alternative images and more resources for all of Fellowes' products.

*Form meets function
meets sophistication*

Unparalleled sophistication are buzz words for our ever-expanding product line. Fellowes' in-house industrial design team focuses on developing contemporary aesthetics, modern design and innovative products to the office environment, helping businesses turn heads as they turn profits.

New Product Spotlight

1. Rising™ and RisingEX™

These designer series monitor arms boast never before seen in-trend finishes and ultimate flexibility with SnapKinect and RotationStop design innovations.

See pages 22–29 for more details

2. Rising Loft™ Coming Soon!

Designed to optimize productivity by reducing clutter, elevating comfort, and adapting to changing needs throughout the day.

See pages 141–144 for more details

3. FlexCharge 3C

FlexCharge series brings power close at hand for any collaborative area or individual workspace.

See page 171 for more details

For all of us. For our future.

What works for us also works for our planet. As a company, we're committed to providing solutions that foster sustainability and a focused attention on maintaining good environmental practices. That means selecting products that reflect this commitment. Adopting procedures that promote sustainability. Creating recycling programs. Reviewing and enhancing our operations. Because for us, it's the right thing to do.

Healthier Hospitals Initiative

The Healthier Hospitals Initiative (HHI) is a national campaign to implement a completely new approach to improving environmental health and sustainability in the health care sector. Eleven of the largest, most influential U.S. health systems, comprising over 500 hospitals with more than \$20 billion in purchasing power, worked with Health Care Without Harm (HCWH), the Center for Health Design and Practice Greenhealth to create HHI as a guide for hospitals to improve sustainability in six key areas: engaged leadership, healthier foods, leaner energy, less waste, safer chemicals, and smarter purchasing. Fellowes offers several products that meet these criteria.

Source: <https://noharm-uscanada.org/content/us-canada/list-furniture-and-materials-meet-healthy-interiors-criteria>

Spare Parts Recycling

Fellowes' Rising, RisingEX, Evolve, Edge, Sena, SenaEX and Eppa series of monitor arms are shipped with both a desk clamp and grommet mount included—making them simple to order and install. After the installation is complete, the unused desk clamp or grommet mount can be sent back to Fellowes at no cost to you. Fellowes will then recycle the parts as appropriate. Our Spare Parts Recycling Program prevents leftover parts from taking up space in your facility or in a landfill. Contact our Customer Service Department to participate.

LEVEL Certification

LEVEL was created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment. To put it simply, LEVEL is to commercial furniture as LEED is to buildings. Also like LEED, LEVEL is comprehensive. It addresses criteria across corporate, facility and product impacts in a way that few other certifications do. If you see a LEVEL certified product, you can be assured that every part of the process from manufacturing to delivery has been tested to ensure that you are getting quality products made safely and ethically, with a minimal environmental footprint.

Designing Great Workspaces

Fellowes is derived from a fourth generation family business, committed to creating superior workplace environments with quality furnishings, productive workspace tools and finishing touch accessories. Because your best begins with where you work, we'll help you design a great workspace.

Fellowes

Vertical Market Solutions

Providing federal agencies, state and local government, higher education, healthcare, and non-profit organizations with the tools to create high performance work environments. As a leader in ergonomic workspace accessories, our products help you to enhance productivity and wellness in every area of your facility.

Known for our award-winning customer service and high quality products, we make it easy for agencies to get what they need to improve ergonomics and support technology through all areas of the workspace. Partnering with resellers across the U.S. and internationally, we can meet any socio-economic goal your agency needs. We stand ready to help facilitate contracting objectives for your projects quickly and efficiently.

Contracts

Due to federal circumstances, these contracts will remain under "ESI" until they can be transitioned to Fellowes.

Cooperative purchasing agreements*:

Contract Number: 07-87

NCPA (National Cooperative Purchasing Alliance) is a leading national government purchasing cooperative working to reduce the cost of goods and services by leveraging the purchasing power of public agencies in all 50 states. NCPA utilizes state of the art procurement resources and solutions that result in cooperative purchasing contracts. This ensures that NCPA members are receiving products and services of the highest quality at the best prices. National Cooperative Purchasing Alliance is dedicated to providing its members with competitive pricing and aggressive discounts on a broad range of 95 hardware, software, peripherals, and service offerings.

Contract Number: R180401

OMNIA Partners, Public Sector is the nation's largest and most experienced cooperative purchasing organization dedicated to public sector procurement.

Contract Number: 200301

TIPS provides a contract vehicle for education, state and local agencies, and non-profits to purchase our complete product offering equally, regardless of size.

*Terms and conditions vary by contract. Please visit fellowes.com for the most updated information.

Group purchasing organizations

Contract Number: RFSO #20-15

Kinetic GPO is a cooperative purchasing organization established for Broader Public Sector, non-profits, and MASH entities across Canada, with the specific purpose of reducing procurement cost by leveraging the purchasing power of group buying and saving our members time by simplifying steps to procure. Kinetic GPO conducts procurement in a fair, open, and transparent manner compliant with the International and Regional Trade Agreements, as well as the Ontario Broader Public Sector ("BPS") Procurement Directive. Membership is free, with no volume commitments.

Contracted Supplier

Premier Contract - Contract # PP-FA-879

Premier is a leading healthcare improvement company, uniting an alliance of approximately 4,100 U.S. hospitals and 200,000 other providers to transform healthcare. With integrated data and analytics, collaboratives, supply chain solutions and advisory and other services, Premier enables better care and outcomes at a lower cost.

Contract Number: 667-22

The BuyBoard National Purchasing Cooperative is a cooperative formed between the National School Boards Association (NSBA) and several state school boards associations to streamline the buying process for schools, municipalities, and other public entities. Developed to comply with state laws that require governmental entities to make purchases from an approved list of vendors who have gone through a competitive procurement process, BuyBoard gives members the advantage of leveraging the Cooperative's ability to obtain bulk discounts, combined with the ease of online, web-based shopping.

Monitor Arms

As Flexible as you are

Make the most of your desk space and make the most of your day, with flexible monitor arms that move with you, boosting productivity and providing you with clearer sight lines. You can easily adjust up to six monitors, maximizing and transforming a mere desk into a true command center.

What to Consider When Selecting a Monitor Arm

Number of monitors

Fellowes offers solutions for as few as one to as many as six monitors. Should the needs of the user change, the Evolve, RisingEX and KataEX series can all be easily modified in the field to accommodate additional monitors and changing work environments.

Height adjustment

Monitor arms offer various types of height adjustability. The most user-friendly option is dynamic height adjustment which allows the user to adjust the monitor height quickly and easily with just the touch of a finger.

Weight of monitor(s)

Fellowes' standard monitor arms in the Eppa, Edge, and Evolve series support the average monitor weights between 6 to 17 pounds. Kata and KataEX support 4 to 20 pounds. Sena and SenaEX support 2.2-19.8 pounds, while Rising and RisingEX support 3.5-28 pounds. For heavier monitors, the Edge-Max will support 17-42 pounds. The weight of the monitor arms should also include any additional monitor accessories (i.e. cables or locks).

Size of monitor(s)

Most users prefer to have their monitors side-by-side as close as possible with no gaps between them. The versatility of Fellowes monitor arms allow multiple wide monitors to fit side-by-side. Max width is contingent on the monitor meeting the weight capacity of the arms. Configurations that include a slider will provide additional horizontal adjustability, allowing monitors of varying sizes to fit together seamlessly.

Size and shape of the worksurface

Shallow worksurface depths of 24 inches or less, are best suited for monitor arm configurations with fewer limbs. For applications that require extended reach, Fellowes recommends a RisingEx, Evolve, SenaEX or KataEX configuration with multiple limbs. When positioning two or more monitors side-by-side in a 90° corner, the maximum monitor size will be reduced. Please contact our Customer Service Department to discuss your specific applications and requirements.

If you need further assistance in specifying the correct monitor arms or would like to take advantage of our demo program, please contact our Customer Service Department.

Monitor Arm Movement

Within the Fellowes monitor arm collection, there are many common movements.

Extension/retraction

Rotation

Tilt

VESA mounts tilt forward and backward, providing a flat writing surface for touch screen monitors.

Height adjustment

Fixed arms:
The arms can be mounted at any height along the pole.

Dynamic motion arms:
Motion arms can move up and down with finger touch adjustment.
The arms can be mounted at any height along the pole.

Slider

Sliders move your monitor left and right while retaining monitor tilt and VESA mount $\pm 90^\circ$ monitor rotation.

Monitor Arms

Rising™ Series

Rising motion arms

Rising configurations that include a motion arm (M) offer finger touch dynamic height adjustment. That means the monitor can reposition up and down with ease.

Rising fixed arms

Rising configurations using fixed arms (F) have manual height adjustment. They rotate left and right along the pole, offering flexibility with lateral adjustments.

Flexible growth

Because Rising is pole mounted, arms can be added as needed to support additional monitors.

Quality testing

Meets or exceeds BIFMA x5.5

Slider mount

Position virtually any monitor side-by-side with a slider. The slider (S) offers eight and a half inches of horizontal adjustability, so even monitors of varying sizes can be positioned flush.

Monitor Arms

Kata™ Series

Proprietary design

Kata has been uniquely designed for Fellowes.

Connection sleeve

The unique design of the connection sleeve accommodates up to three monitor arms depending on the configuration. Allows arms to be mounted at 90°, 120° or 180°.

Tension adjustment indicator

A clear gauge on the back of the motion arm allows users to see tension levels while adjusting the arm for various weight levels.

KataEX motion arms

KataEX configurations that include a motion arm (M) offer finger touch dynamic height adjustment. That means the monitor can reposition up and down with ease.

KataEX fixed arms

KataEX configurations using fixed arms (F) have manual height adjustment. They rotate left and right along the pole, offering flexibility with lateral adjustments.

Flexible growth

Because the KataEX is pole mounted, arms can be added as needed to support additional monitors.

Quality testing

Meets or exceeds ANSI/BIFMA x5.5 guidelines.

Slider mount

Position virtually any monitor side-by-side with a slider. The slider (S) offers nine and a half inches of horizontal adjustability, so even monitors of varying sizes can be positioned flush.
